RE: REV2022/0024 - 394 Barrenjoey Road NEWPORT NSW 2106

As President of Bilgola SLSC and a local resident whose property overlooks the site of the additions for Newport Surf club I highly endorse the approval of Newport SLSC's application as it is a major improvement of the club's facilities as well as in keeping with the heritage values of the current premises.

Approval of this application endorses Council support for all NBC surf club premises and the ongoing contribution to the local communities they serve.

Failure to approve this application will result in the deterioration of the current building structure and this would see the loss of an historic building from our Newport environment,

Approval is essential!
