**RE: DA2018/1708 - 197 Sydney Road FAIRLIGHT NSW 2094**

Looking at this application I am concerned that the council does not seem to be aware of the very well publicised traffic problems on the Northern beaches. I am on the corner of Suwarrow st and most days I have serious difficulty getting out of my driveway. Sydney Road is continuously at a bottle neck making a trip into Manly quicker to walk. If there is a serious overall view of how the council wants to lead this area into the future then this kind of development must not set a benchmark for further development. This council does not want to leave this disaster as their legacy. Please take the time to discuss this further before a decision is made.
