MR Larry Duke
129 Garden street ST
North Narrabeen NSW 2101

RE: Mod2021/0816 - 8 Forest Road WARRIEWOOD NSW 2102

This development is crazy and should be rejected for obvious reasons the whole area has been over developed with no major infrastructure change
Garden street same for last 50 years and is deadly with many accidents with busses and trucks unable to pass one another without cars being damaged. My rear vision mirrors have been damaged on 3 occasions
McPhersons street actually more narrow with development
Pittwater road the same since start no widening
Sewerage treatment plant must be 40 years old and when it rains it cannot cope
Easy just leave some green space forget rates
