Dear Sir/Madam,

I am the owner of 208a/ 9-15 Central Ave Manly.

I object to the above DA on the following grounds:

1. the acoustic impact report does not include an impact analysis of the noise on the building at 9-15 Central Avenue;
2. the closing time of 3 am is too late in a residential area. This venue is proposed to have live music. As patrons leave the noise level at 3 am will be unacceptable to a residential apartment block.

Kind Regards,

Pam Clinch
