RE: DA2019/1190 - 9999 Pittwater Road BROOKVALE NSW 2100

Hi

I am at above address - been there since 1975.

Im not against the project.

My objection is in regards to parking.

I already have cars that park illegally on the Eastern side of my driveway which is primarily School students from the College across the road.

This impacts us greatly as it makes it difficult to get out of our driveway being that we cant see cars coming around the corner - also the boats that are always parked across the road dont leave much room as we have to maneuver several turns to get out. Also many close calls are observed by cars wanting to turn left into Alfred Rd from our Federal Parade as the parked car takes up a lot of road forcing cars to veer onto other side of the road which is dangerous when cars are coming into Federal Parade from Alfred Rd.

Now that this center of excellence is being built we are going to have the issue on weekends as well.

Rangers do come and issue tickets from time to time but it does not stop anyone else from Parking. There is always someone parked there. I have spoken to Rangers several times and they assure me the vehicles are parked illegally. I just cant keep calling Rangers and hope they will turn up..

I have called Council and they wont put a No Parking - No Stopping sign due to aesthetics of area which is silly in my opinion as there are No Parking signs everywhere except on my corner..

It would of great importance if you could look at erecting a sign for our safety and peace of mind.

Thankyou
