Subject: DA2021/1620

To NBC,

I am writing this email in support of DA2021/1620

I have found that the Harbord Hotel have improved both noise and crowd management since their recent improvements - this has led to the area becoming more attractive and desirable.

I have been particularly impressed with the improvements to noise management, and how their front of house staff + security manage the patrons.

After reviewing the plans and consultant advice, I am satisfied that the measures being taken will continue the best practices witnessed from across the road.

Kind Regards,
Gabrielle Davidson
