**RE: DA2023/0511 - 337 Lower Plateau Road BILGOLA PLATEAU NSW 2107**

It has been brought to my attention that there has been no biodiversity report tended by the owners of the property in the DA.

I would suggest a totally independent ecological report for flora and fauna and a full report on the landscape changes that will be brought by the clearance of this property from original old growth forest/subtropical to suburban use. This is a wildlife corridor and home to many animals and birds and reptiles, also the native plants and trees already growing there.
