**RE: DA2018/1924 - Forest Way FRENCHS FOREST NSW 2086**

The proposed traffic increase into the back streets of Forestville would kill off the suburb's community atmosphere. Council cannot be serious in allowing this to be approved. The quiet suburban streets would be bedlam throughout peak hours periods. I would anticipate the residents would fight this through a heavy and sustained media campaign if allowed to proceed. Surely common sense will prevail.
