RE: DA2021/2567 - 60 Federal Parade BROOKVALE NSW 2100

Dear Council,

Along with strongly opposing the continued illegal increase of student numbers for the space available at St Augustine's campus, we note Council's extremely misleading letter that was mailed to the community. The letter that was mailed does not mention the works to be undertaken around our property at 16 Alfred Rd (corner of Gulliver St and Alfred Rd). How many affected parties read this mailed letter and decided it would not impact them, incorrectly?

Council have already shown that they are implicit in the College's illegal developments - Council having admitted the College's work around our home was in breach of multiple development laws, but decided not to act on these breaches. What hope does the local, long-term, low residential community have that St Augustine's commercial interests are halted in the face of such severe adverse impacts?

We resist this proposal in full.

Sincerely,
Dr Todd Walton
