

Natural Environment Referral Response - Biodiversity

Application Number:	DA2024/0581
Proposed Development:	Demolition works and construction of a dwelling house including swimming pool
Date:	12/06/2024
Responsible Officer	Anne-Marie Young
Land to be developed (Address):	Lot 49 DP 204996 , 14 Lentara Road BAYVIEW NSW 2104

Reasons for referral

This application seeks consent development on land, or within 40m of land, containing:

- All Development Applications on
- Actual or potential threatened species, populations, ecological communities, or their habitats;
- Wildlife corridors;
- Vegetation query stipulating that a Flora and Fauna Assessment is required;
- Vegetation query - X type located in both A & C Wards;

And as such, Council's Natural Environment Unit officers are required to consider the likely potential environmental impacts.

Officer comments

Council's Biodiversity Referrals team have assessed the Development Application for compliance against the following applicable provisions:

- Pittwater LEP 2014 cl. 7.6 Biodiversity Protection
- Pittwater 21 DCP cl. B4.18 Heathland/Woodland Vegetation
- Planning for Bushfire Protection 2019

The Arboricultural Impact Assessment (Martin Peacock Tree Care, May 2024) has recommended the removal of T1 *Cedrus atlantica* 'Glauca' (Atlantic Cedar) for landscaping purposes. There are no objections in relation to biodiversity as a result of the removal of this tree, subject to its replacement with a suitable native species. It is noted that the Landscape Plan (Myles Baldwin Design, March 2024) is proposing replacement with one *Syncarpia glomulifera* which is considered suitable and as such supported. The Landscape Plan provides a mixed native and exotic planting schedule which complies with the DCP controls.

No objections, subject to conditions.

The proposal is therefore supported.

Note: Should you have any concerns with the referral comments above, please discuss these with the Responsible Officer.

Recommended Natural Environment Conditions:

CONDITIONS TO BE SATISFIED PRIOR TO THE ISSUE OF THE CONSTRUCTION CERTIFICATE

No Clearing of Vegetation

Unless otherwise exempt, no vegetation is to be cleared prior to issue of a Construction Certificate.

Details demonstrating compliance are to be submitted to the Certifier prior to issue of Construction Certificate.

Reason: To protect native vegetation.

CONDITIONS TO BE COMPLIED WITH DURING DEMOLITION AND BUILDING WORK

Wildlife Protection

If construction activity associated with this development results in injury or displacement of a native mammal, bird, reptile or amphibian, a licensed wildlife rescue and rehabilitation organisation must be contacted for advice.

Reason: To protect native wildlife.

Protection of Habitat Features

All natural landscape features, including any rock outcrops, native vegetation and/or watercourses, are to remain undisturbed during the construction works, except where affected by necessary works detailed on approved plans.

Reason: To protect wildlife habitat.

CONDITIONS WHICH MUST BE COMPLIED WITH PRIOR TO THE ISSUE OF THE OCCUPATION CERTIFICATE

Protection of Habitat Features

All natural landscape features, including any rock outcrops, native vegetation and/or watercourses, are to remain undisturbed except where affected by necessary works detailed on approved plans.

Details demonstrating compliance are to be provided to the Principal Certifier prior to issue of any Occupation Certificate.

Reason: To protect wildlife habitat.

No Weeds Imported On To The Site

No Priority or environmental weeds (as specified in the Northern Beaches Local Weed Management Plan) are to be imported on to the site prior to or during construction works.

Details demonstrating compliance are to be submitted to the Principal Certifier prior to issue of any Occupation Certificate.

Reason: To reduce the risk of site works contributing to spread of Priority and environmental weeds.
