To whom it may concern,

Im writing to support Hugos development application to have more additional outdoor seating. It simply makes perfect sense (especially under the Covid circumstances) to add more outdoor seats and also providing more space and seating for the community.

I was born in Manly Hospital and I've spent most of my life on the Beaches. Hugos has always been a place that has blessed me with great atmosphere, food, staff and new friendships. I would love to see the establishment be given the opportunity to extend their capacity to continue to bless our community.

Yours Sincerely
Daniel Hardwick
