RE: DA2020/0661 - 7356 / 1167221 Huston Parade NORTH CURL CURL NSW 2099

Re DA/2020/0061

I oppose the construction of the mobile communications tower in John Fisher Park near the Curl Curl Lagoon. This area of open parkland has suffered from poor planning decisions in the past and is undergoing rehabilitation to restore riparian vegetation communities and water quality as well as improving community open space for both passive and active recreation. The construction of a large communication tower in the park is in conflict with the natural scenic values of this parkland and has no place in the park.
