We are writing to advise that Council received the applications listed above on 18 December 2008.

Pursuant to Clause 19 of Warringah Local Environmental Plan 2000 the Development Control Plan/Masterplan application is required to be advertised in a local newspaper. In accordance with the provisions of the Environmental Planning and Assessment Regulation 2000 and the Warringah Development Control Plan, the development proposed under Development Application No. DA2008/1741 and Development Application No. 2008/1742 is 'advertised development' and is therefore required to be advertised in a local newspaper. All three applications will be advertised in the Manly Daily on 17 January 2009.

Warringah Development Control Plan also requires a notice to be placed on the development site for each development application for the duration of the 30 day exhibition period.

Appropriate notices have been prepared and will be erected on site by Council staff on or before 17/01/2009. These notices must remain in the position established by Council and must remain legible.

It is your responsibility to ensure that the signs remain for the entire exhibition period, i.e. they should not be removed before 17 February 2008.

Following the expiry of the exhibition period, the Development Control Plan/Masterplan Application and the two development applications will be considered by Council along with representations which have been received as a result of this advertising/notification procedure. You will be advised of Council's decision on your applications.

Should you require any further information please contact Amy Sutherland, Senior Development Assessment Officer on telephone number 9942 2111.
