RE: DA2020/1233

To Whom It May Concern,

I write in support of the Development Application lodged by Harbord Diggers Womens' Bowling Club.

As a former member of the club, I have looked forward to the day when I am able to again participate in bowls at the club. I left when the bowling club closed, at which time I was advised that it would again be incorporated into the proposed club renovations and rebuild. As the years passed, I became impatient for this promise to be fulfilled, as the form of exercise I received from bowls was so beneficial to my asthma condition, and overall general physical, mental and social wellbeing. I have missed my former bowling partners and the beautiful view from the bowling greens. I did not feel I could join another club which offered these unique amenities.

I was excited to hear from my former bowling friends that a proposal to develop the bowling green has been lodged with council, and I am sincerely hoping that it will not be long before it will be operational again.

I look forward to hearing of a positive finding by the council in the near future.

Best regards,
