RE: DA2021/1620 - 31 Moore Road FRESHWATER NSW 2096

I would like to strongly object to the additional bars for the Harbord Hotel, particularly the out door balcony & PA system. Noise from the open balcony can not be contained & will spread across the whole surrounding & beyond areas 7 days a week!

Traffic in the area on weekends & PH etc is already chaotic, the loud noisy cars / bikes revving up along with their very loud music playing, we don't need any additional cars/bikes trying to get to the beach area where there will be more loud music coming from PA on the balcony.

When I go for a walk around our beautiful town & beaches particularly after the weekends there is always so much broken glass around. Yesterday there was lots of broken glass near Shaka & spread on to the roads & pathways following the Freedom celebrations that were happening in the parks. The bins are always overflowing after big days along the beach.

There is also a lot of broken glass on the rocks at Freshwater pool, an area where lots of families walk.

These happenings are all alcohol fueled gatherings.

The area does not need any more opportunities for people of all ages, but unfortunately from the younger demographic, to get off their faces in Freshwater. If they feel need to get wasted, please do not offer further encouragement for that to happen in our front / back yard, please.

I moved to Freshwater only just 12 months ago, what was appealing was it had a relaxed community feel & was nothing like Manly. Manly is just over the hill, please leave Freshwater to stay the relaxed residential community it is.
