RE: DA2021/1612 - 1 Clarke Street NARRABEEN NSW 2101

Firstly we didn't get any notices in our mail box, we heard about this from an article on Instagram and am hoping this is incorrect regarding the extension of the sea wall to the north of where it finishes at Collaroy. Yes We agree it needed the wall to protect the homes at Collaroy. But we do object to it coming further North to our end of the beaches from South Narrabeen. We are very concerned with what effects it is going to do with the natural currents of the water and sand to our end of the beaches. I'm sure most of the neighbours and community do not know about the proposal to extend the sea wall to the north of Collaroy which is unfair to all ratepayers.

Secondly who is going to pay for this!
Kind regards Maria and Greg Bennett
