GEOTECHNICAL RISK MANAGEMENT POLICY FOR PITTWATER FORM NO. 1 – To be submitted with Development Application

Address of site	Development Application for
Edward A Bennett	
geotechnical report [Insert Name] on behalf of Civil Structural Engineering Design Services Pty. Ltd. [Insert Name] on this the 21/12/2023	
on this the 2/1/2/2023 certify that I am a geotechnical engineer or engineering geologist or coastal engineer as defined by the Geotechnical Risk Management Policy for Pittwater - 2009 and I am authorised by the above organisation/company to issue this document and to certify that the organisation/company has a current professional indemnity policy of at least \$10million. 1. Please mark appropriate box 2. have prepared the detailed Geotechnical Report referenced below in accordance with the Australia Geomechanics Society's Landslide Risk Management Guidelines (AGS 2007) and the Geotechnical Risk Management Policy for Pittwater - 2009 3. am willing to technically verify that the detailed Geotechnical Risk Management Policy for Pittwater - 2009 3. am willing to technically verify that the detailed Geotechnical Risk Management Policy for Pittwater - 2009 3. have examined the site and the proposed development in detail and have carried out a risk assessment in accordance with Section 6.0 of the Geotechnical Risk Management Policy for Pittwater - 2009. 3. have examined the site and the proposed development policy for Pittwater - 2009 (notified that the risk assessment for the proposed development are in compliance with the Geotechnical Risk Management Policy for Pittwater - 2009 and further detailed geotechnical reporting is not require did for the subject site. 4. have examined the site and the proposed development/alteration in detail and I am of the opinion that the Development Application only involves Minor Development/Alteration Risk Management Policy for Pittwater - 2009 requirements. 3. A have examined the site and the proposed development/alteration is separate from and is not affected by a Geotechnical Hazard and does not require a Geotechnical Risk Management Policy for Pittwater - 2009 requirements. 4. A have examined the site and the proposed development alteration in the Geotechnical Report or Risk Assessment and hence my Report is in accordance with the Geotechnical Risk Management Policy for
