RE: DA2024/1303 - 11 / 0 Melwood Avenue FORESTVILLE NSW 2087

The Forestville RSL is an important multi generational community space which allows for extended family and friends to connect over a drink and a meal in a relaxed indoor/outdoor space. The club is frequently packed in the evenings with children playing on the grassed areas while parents can supervise from the many available tables. Even now with the large dining area it can be difficult to find a table! This new proposed development destroys this open, friendly and relaxed community space. The loss of the cenotaph area for ANZAC day memorials, expansion of gaming and building of overpriced retirement units for privileged few is mercenary and completely at odds with what the community wants. Please stop this development and keep the club as a multigenerational community venue where people can connect.
