**RE: DA2019/1234 - 0 Wharves And Jetties MANLY NSW 2095**

I am writing to strongly object to any further increase in size of restaurant and outdoor seating facilities at Manly Wharf. With the recent expansions including El Camino and Sake there have been no increases in public amenities such as toilets, parking and transport. Plus no increase in security and policing to make sure that the area remains safe late at night. The impact on immediate residents has already increased negatively and increased late night noise. An outdoor seating area, let alone for over 400 people is excessive and a huge impost on Manly residents and the general relaxed and happy vibe of Manly. Please do not let business expansion override and destroy the beauty and facilities of Manly.
