Subject: Re: Submission Acknowledgement Letter

Can you please add this to my DA submission and note the name on my submission is Tanya Grayson, not Tanya Catelli.

I would also like to add my suggestions for the block of land at 27 Redman Road, Dee Why.

Council purchase the land from the owner of 27 Redman Road and turn it into a nature reserve for the wildlife and community. There are not many parks around this side of Pittwater Road.

If it is to be approved for development only approved for a single story dwelling, one house only as what was originally there.

Please send confirmation that you have received this email and attached it to my submission.

Regards

Tanya Grayson
