Lot 10 DP 27133 10 Taminga Street Bayview**

Submission from 11 Taminga Street Bayview

Dear Megan,

Following my phone call on 10 October, and your site visit on 18 October, I wish to make this submission about privacy issues at my house as a result of the proposed building modifications to 10 Taminga Street, next door to me.

Specifically, on the entry level, the proposed walk-in-pantry windows are directly overlooking the whole entry to my front door and my only outdoor living area.

I understand these windows are proposed to be 1.6m, but this height is too low to not see a person in there from my side. From the size of the windows, the inside of the walk-in-pantry will appear very public to me. The entirety of my accessible outdoor area will be exposed.

For privacy reasons, these windows on the east side should be glazed with frosted glass and above eye height. Can you please consider this request when assessing the modification.

Kind regards,

Jill Murray
