RE: DA2020/1063 - 2 / 0 Bennett Street CURL CURL NSW 2096

My family and I strongly oppose the proposed development at John Fisher Park.

The hypocrisy of this DA submission is incredible, the proposal is to expand the oval from 2 to 4 playing fields, and extend the operating hours to 9:30pm at night, yet no traffic, parking or acoustic reports have been provided.

When I recently submitted a DA for a change of use in the neighbouring industrial area of Brookvale, I was forced to prove that the impact of the DA would not adversely effect neighbouring businesses, and residents (who are 500m away).

The top of the list of impacts was traffic, parking and noise.

It seems as though there's one rule for council, and another rule for everyone else!

This DA cannot be approved unless the parking and noise impact are properly assessed.

Traffic, parking and noise will have a very serious impact on all neighbouring residents, all one has to do is attempt to drive down one of our streets when sport is in progress. It's not uncommon to become completely stuck as parents and players try to navigate through small residential streets to find a car space or pick up their children.
