Att : Penny Wood

Regrettably I mis-recorded the last day for submissions in the above regard, as 13 Mar 2019.  
Sorry for my error.

I did however, as an affected neighbour, telephone the Council today and was told that my concerns would be considered.

Those concerns are threefold:

*Overshading* : The area of our property which appears will be affected is that part of our property (currently unaffected) where our washing-line is located, as well as an outdoor eating/entertaining/BBQ area.

*Dirt/dust* : The whole of our outdoor, inground pool and surrounding tile area together with the western, 2-storey portion of our house is directly down wind (in prevailing westerly winds - from SW through W through NW) from the proposed development.
