Subject: 532 Pittwater road

We are disputing the building application for a boarding house on this property which is close to where we live.

The area is home to many young families, the impact on a development like this to the area, parking, noise and the amount of people they are trying to fit in the development is not acceptable.

We have lived in the area for 30 years. This type of development isn't necessary and can be veiled as affordable housing but it is just trying to fit as many people as humanly possible in one development.

We will band together with the area and families to speak with the council to fight a fair development. Not this.
