

DEVELOPMENT APPLICATION ASSESSMENT REPORT

Application Number:	DA2021/1152
----------------------------	-------------

Responsible Officer:	Thomas Burns
Land to be developed (Address):	Lot 5 DP 168232, 10 Rosedale Avenue FAIRLIGHT NSW 2094
Proposed Development:	Alterations and additions to a dwelling house including a swimming pool
Zoning:	Manly LEP2013 - Land zoned R1 General Residential
Development Permissible:	Yes
Existing Use Rights:	No
Consent Authority:	Northern Beaches Council
Land and Environment Court Action:	No
Owner:	Thomas Lennon Clare Elizabeth Lennon
Applicant:	Thomas Lennon

Application Lodged:	23/07/2021
Integrated Development:	No
Designated Development:	No
State Reporting Category:	Residential - Alterations and additions
Notified:	04/08/2021 to 18/08/2021
Advertised:	Not Advertised
Submissions Received:	0
Clause 4.6 Variation:	Nil
Recommendation:	Approval

Estimated Cost of Works:	\$ 100,000.00
---------------------------------	---------------

PROPOSED DEVELOPMENT IN DETAIL

The applicant seeks development consent for alterations and additions to an existing dwelling house, which includes:

- New in-ground swimming pool and associated fencing within the rear yard.
- Extension to balcony on the front façade of the first floor.

AMENDED PLANS

The applicant submitted revised plans reducing the size of the proposed balcony extension. The

amended plans constitute a reduced environmental impact and therefore, were not required to be re-notified, in accordance with the Northern Beaches Community Participation Plan.

ASSESSMENT INTRODUCTION

The application has been assessed in accordance with the requirements of the Environmental Planning and Assessment Act 1979 and the associated Regulations. In this regard:

- An assessment report and recommendation has been prepared (the subject of this report) taking into account all relevant provisions of the Environmental Planning and Assessment Act 1979, and the associated regulations;
- A site inspection was conducted and consideration has been given to the impacts of the development upon the subject site and adjoining, surrounding and nearby properties;
- Notification to adjoining and surrounding properties, advertisement (where required) and referral to relevant internal and external bodies in accordance with the Act, Regulations and relevant Development Control Plan;
- A review and consideration of all submissions made by the public and community interest groups in relation to the application;
- A review and consideration of all documentation provided with the application (up to the time of determination);
- A review and consideration of all referral comments provided by the relevant Council Officers, State Government Authorities/Agencies and Federal Government Authorities/Agencies on the proposal.

SUMMARY OF ASSESSMENT ISSUES

Manly Development Control Plan - 4.1.4 Setbacks (front, side and rear) and Building Separation

Manly Development Control Plan - 4.1.5 Open Space and Landscaping

Manly Development Control Plan - 4.1.9 Swimming Pools, Spas and Water Features

Manly Development Control Plan - 4.4.5 Earthworks (Excavation and Filling)

SITE DESCRIPTION

Property Description:	Lot 5 DP 168232 , 10 Rosedale Avenue FAIRLIGHT NSW 2094
Detailed Site Description:	<p>The subject site consists of one allotment located on the north-eastern side of Rosedale Avenue, Fairlight.</p> <p>The site is regular in shape with a frontage of 12.19m along Rosedale Avenue and a depth of 32.615m. The site has a surveyed area of 397.5sqm.</p> <p>The site is located within the R1 General Residential zone pursuant to Manly LEP 2013 and accommodates a two storey dwelling house with a basement garage below.</p> <p>The site is devoid of native canopy trees and contains numerous shrubs, exotic trees and a sandstone rock face approximately 4m in height within the rear yard.</p> <p>The site experiences a fall of approximately 11.4m that</p>

slopes away from the rear boundary towards the frontage. This represents an approximate slope of 34.95%.

Description of Surrounding Development

The surrounding built environment comprises a mix of residential land uses, including dwelling houses, dual occupancies and residential flat buildings. The scale of development is typically 2-3 storeys in height.

Map:

SITE HISTORY

The land has been used for residential purposes for an extended period of time. A search of Council's records has revealed the following relevant history:

- Complying Development Certificate CDC2020/0758 for Internal alterations to existing dwelling and modifications to existing doors and windows approved by a Private Certifier on 14 October 2020.

APPLICATION HISTORY

The Assessment Officer examined the subject site and its surrounds on 26 August 2021.

ENVIRONMENTAL PLANNING AND ASSESSMENT ACT, 1979 (EPAA)

The relevant matters for consideration under the Environmental Planning and Assessment Act, 1979, are:

Section 4.15 Matters for Consideration'	Comments
Section 4.15 (1) (a)(i) – Provisions	See discussion on "Environmental Planning Instruments" in this

Section 4.15 Matters for Consideration'	Comments
of any environmental planning instrument	report.
Section 4.15 (1) (a)(ii) – Provisions of any draft environmental planning instrument	Draft State Environmental Planning Policy (Remediation of Land) seeks to replace the existing SEPP No. 55 (Remediation of Land). Public consultation on the draft policy was completed on 13 April 2018. The subject site has been used for residential purposes for an extended period of time. The proposed development retains the residential use of the site, and is not considered a contamination risk.
Section 4.15 (1) (a)(iii) – Provisions of any development control plan	Manly Development Control Plan 2013 applies to this proposal.
Section 4.15 (1) (a)(iiia) – Provisions of any planning agreement	None applicable.
Section 4.15 (1) (a)(iv) – Provisions of the Environmental Planning and Assessment Regulation 2000 (EP&A Regulation 2000)	<p><u>Division 8A</u> of the EP&A Regulation 2000 requires the consent authority to consider "Prescribed conditions" of development consent. These matters have been addressed via a condition of consent.</p> <p><u>Clause 98</u> of the EP&A Regulation 2000 requires the consent authority to consider insurance requirements under the Home Building Act 1989. This matter has been addressed via a condition of consent.</p> <p><u>Clause 98</u> of the EP&A Regulation 2000 requires the consent authority to consider the provisions of the Building Code of Australia (BCA). This matter has been addressed via a condition of consent.</p>
Section 4.15 (1) (b) – the likely impacts of the development, including environmental impacts on the natural and built environment and social and economic impacts in the locality	<p>(i) Environmental Impact The environmental impacts of the proposed development on the natural and built environment are addressed under the Manly Development Control Plan 2013 section in this report.</p> <p>(ii) Social Impact The proposed development will not have a detrimental social impact in the locality considering the character of the proposal.</p> <p>(iii) Economic Impact The proposed development will not have a detrimental economic impact on the locality considering the nature of the existing and proposed land use.</p>
Section 4.15 (1) (c) – the suitability of the site for the development	The site is considered suitable for the proposed development.
Section 4.15 (1) (d) – any submissions made in accordance with the EPA Act or EPA Regs	No submissions were received.

Section 4.15 Matters for Consideration'	Comments
Section 4.15 (1) (e) – the public interest	No matters have arisen in this assessment that would justify the refusal of the application in the public interest.

EXISTING USE RIGHTS

Existing Use Rights are not applicable to this application.

BUSHFIRE PRONE LAND

The site is not classified as bush fire prone land.

NOTIFICATION & SUBMISSIONS RECEIVED

The subject development application has been publicly exhibited from 04/08/2021 to 18/08/2021 in accordance with the Environmental Planning and Assessment Act 1979, Environmental Planning and Assessment Regulation 2000 and the Community Participation Plan.

As a result of the public exhibition of the application Council received no submissions.

REFERRALS

External Referral Body	Comments
Ausgrid: (SEPP Infra.)	The proposal was referred to Ausgrid who provided a response stating that the proposal is acceptable. No conditions were recommended.

ENVIRONMENTAL PLANNING INSTRUMENTS (EPIs)*

All, Environmental Planning Instruments (SEPPs, REPs and LEPs), Development Controls Plans and Council Policies have been considered in the merit assessment of this application.

In this regard, whilst all provisions of each Environmental Planning Instruments (SEPPs, REPs and LEPs), Development Controls Plans and Council Policies have been considered in the assessment, many provisions contained within the document are not relevant or are enacting, definitions and operational provisions which the proposal is considered to be acceptable against.

As such, an assessment is provided against the controls relevant to the merit consideration of the application hereunder.

State Environmental Planning Policies (SEPPs) and State Regional Environmental Plans (SREPs)

SEPP 55 - Remediation of Land

Clause 7 (1) (a) of SEPP 55 requires the Consent Authority to consider whether land is contaminated. Council records indicate that the subject site has been used for residential purposes for a significant period of time with no prior land uses. In this regard it is considered that the site poses no risk of contamination and therefore, no further consideration is required under Clause 7 (1) (b) and (c) of SEPP 55 and the land is considered to be suitable for the residential land use.

SEPP (Building Sustainability Index: BASIX) 2004

A BASIX Certificate has been submitted with the application (see Certificate No. A402510_02 dated 21 June 2021). A condition has been included in the recommendation of this report requiring compliance with the commitments indicated in the BASIX Certificate.

SEPP (Infrastructure) 2007

Ausgrid

Clause 45 of the SEPP requires the Consent Authority to consider any development application (or an application for modification of consent) for any development carried out:

- within or immediately adjacent to an easement for electricity purposes (whether or not the electricity infrastructure exists).
- immediately adjacent to an electricity substation.
- within 5.0m of an overhead power line.
- includes installation of a swimming pool any part of which is: within 30m of a structure supporting an overhead electricity transmission line and/or within 5.0m of an overhead electricity power line.

Comment:

The proposal was referred to Ausgrid who provided a response stating that the proposal is acceptable. No conditions were recommended.

Sydney Regional Environmental Plan (Sydney Harbour Catchment) 2005

The subject property is located within the Sydney Harbour Catchment and therefore, the provisions of this plan apply to this development.

An assessment of the proposal against Clause 2(1) (aims of the SREP), Clause 13 (nominated planning principles) and Clause 21 (relating to biodiversity, ecology and environmental protection) has been undertaken. The proposal is considered to be consistent with the above provisions of the SREP. Given the scale of the proposed modification and the works proposed referral to the Foreshores and Waterways Planning and Development Advisory Committee was not considered necessary.

Manly Local Environmental Plan 2013

Is the development permissible?	Yes
After consideration of the merits of the proposal, is the development consistent with:	
aims of the LEP?	Yes
zone objectives of the LEP?	Yes

Principal Development Standards

Standard	Requirement	Proposed	% Variation	Complies
Height of Buildings:	8.5m	6.9m	-	Yes
Floor Space Ratio	FSR: 0.6:1	FSR: no change	N/A	N/A

Compliance Assessment

Clause	Compliance with Requirements
4.3 Height of buildings	Yes
6.2 Earthworks	Yes
6.9 Foreshore scenic protection area	Yes
6.12 Essential services	Yes

Mainly Development Control Plan

Built Form Controls

Built Form Controls - Site Area: 397.5sqm	Requirement	Proposed	% Variation*	Complies
4.1.4.1 Street Front Setbacks	Prevailing building line	Consistent with prevailing setback	-	Yes
4.1.4.2 Side Setbacks and Secondary Street Frontages (for dwelling only)	NW: 2.68m (1/3 of wall height)	5.3m	-	Yes
	SE: 2.68m (1/3 of wall height)	1.5m	44.03%	No
	Windows: 3m from side boundaries	no windows within 3m of side boundaries	-	Yes
4.1.4.4 Rear Setbacks (for dwelling only)	8m	balcony setback over 8m from rear boundary	-	Yes
4.1.5.1 Minimum Residential Total Open Space Requirements Residential Open Space Area: OS3	Open space 55% (218.63sqm) of site area	50.77% (201.8sqm) - no change	7.7%	No
	Open space above ground 25% (50.45sqm) of total open space	18.93% 38.2sqm	-	Yes
4.1.5.2 Landscaped Area	Landscaped area 35% (70.63sqm) of open space	66.8% (134.8sqm)	-	Yes
	1 native tree	no native canopy trees	100%	No
4.1.5.3 Private Open Space	18sqm	> 18sqm	-	Yes
4.1.9 Swimming Pools, Spas and Water Features	1m height above ground	0.25m	-	Yes
	Curtilage: 1m from side and rear boundaries	0.88m	12%	No

	Water line: 1.5m from side and rear boundaries	1m	33.33%	No
--	--	----	--------	-----------

***Note:** The percentage variation is calculated on the *overall* numerical variation (ie: for LOS - Divide the proposed area by the numerical requirement then multiply the proposed area by 100 to equal X, then 100 minus X will equal the percentage variation. Example: $38/40 \times 100 = 95$ then $100 - 95 = 5\%$ variation)

Compliance Assessment

Clause	Compliance with Requirements	Consistency Aims/Objectives
3.1 Streetscapes and Townscapes	Yes	Yes
3.1.1 Streetscape (Residential areas)	Yes	Yes

4.4.5 Earthworks (Excavation and Filling)	No	Yes
5 Special Character Areas and Sites	Yes	Yes
5.4.1 Foreshore Scenic Protection Area	Yes	Yes

Detailed Assessment

4.1.4 Setbacks (front, side and rear) and Building Separation

Description of non-compliance

The control requires development to be setback at least 1/3 of the maximum adjacent wall height (2.68m from SE boundary) from side boundaries. The proposed deck extension is setback 1.5m from

the south-eastern side boundary, which does not satisfy the numeric requirement.

Merit consideration:

With regard to the consideration for a variation, the development is considered against the underlying objectives of the control as follows:

Objective 1) To maintain and enhance the existing streetscape including the desired spatial proportions of the street, the street edge and the landscape character of the street.

Comment:

The minor deck extension does not alter the existing front building line of the dwelling house, nor does the deck extension result in the removal of vegetation. Furthermore, the minor addition does not exacerbate the visual bulk of the existing dwelling house and therefore, will not detract from the visual qualities of the streetscape.

Objective 2) To ensure and enhance local amenity by:

- *providing privacy;*
- *providing equitable access to light, sunshine and air movement; and*
- *facilitating view sharing and maintaining adequate space between buildings to limit impacts on views and vistas from private and public spaces.*
- *defining and adding character to the streetscape including the provision of adequate space between buildings to create a rhythm or pattern of spaces; and*
- *facilitating safe and adequate traffic conditions including levels of visibility around corner lots at the street intersection.*

Comment:

The deck is orientated towards the street and includes a 'splayed corner' to provide greater separation from the south-eastern adjacent site (No. 8). The minor addition will not significantly exacerbate existing overlooking impacts from the subject dwelling house. Furthermore, the balcony addition is sited below the ridge line of the dwelling house and adheres to the existing south-eastern side building line. Therefore, the proposal will not compromise existing view lines towards the Sydney Harbour Catchment from surrounding properties. It is further noted that the balcony extension will not result in significant overshadowing of the south-eastern adjacent site. The proposal is considered to achieve this objective.

Objective 3) To promote flexibility in the siting of buildings.

Comment:

Flexibility is afforded in this circumstance as the maintenance of existing non-compliant side setback will not result in adverse streetscape or amenity impacts.

Objective 4) To enhance and maintain natural features by:

- *accommodating planting, including deep soil zones, vegetation consolidated across sites, native vegetation and native trees;*
- *ensuring the nature of development does not unduly detract from the context of the site and particularly in relation to the nature of any adjoining Open Space lands and National Parks; and*
- *ensuring the provisions of State Environmental Planning Policy No 19 - Urban Bushland are*

satisfied.

Comment:

The minor balcony extension will not result in the removal of landscaping.

Objective 5) To assist in appropriate bush fire asset protection zones.

Comment:

The site is not bushfire prone.

Conclusion

Having regard to the above assessment, it is concluded that the objectives of the control are achieved. Therefore, the application is supported on merit in this particular circumstance.

4.1.5 Open Space and Landscaping

4.1.5.1 Minimum Residential Total Open Space Requirements

The control requires at least 55% (218.63sqm) of the site to consist of total open space. The existing total open space is non-compliant at 50.77% (201.8sqm), which fails to achieve the numeric requirement.

In assessing this application, it is noted that the existing total open space is not reduced as a result of the proposed development. Swimming pools can be included as total open space, provided the pool occupies 30% or less of the total open space. The proposed swimming pool occupies 6% (12.1sqm) of the total open space and therefore, is included in the calculations.

In considering that the existing total open space is altered, Council is satisfied that the objectives of the control are maintained.

4.1.5.2 Landscaped Area

The control requires at least one (1) native canopy tree to be planted on the site. The site does not currently contain a native canopy tree, nor does the proposal include native canopy planting. Due to existing development and the large rock face within the rear yard, there are limited opportunities to provide canopy planting on the site. The proposal is considered to achieve the objectives of this control, given:

- The in-ground swimming pool and deck extension does not result in the removal of important landscape features;
- There is sufficient planting in the rear yard to allow for an appropriate landscape outcome;
- The pool and deck extension does not result in adverse amenity impacts (i.e. overshadowing, view loss or privacy impacts);
- The proposal complies with the 35% of open space landscaped area requirement;
- There is sufficient soft landscaping to assist in water infiltration;
- The works will not lead to the significant spread of weeds; and
- The works will not impact upon wildlife habitat.

4.1.9 Swimming Pools, Spas and Water Features

Description of non-compliance

The control requires swimming pools to be setback as follows from side and rear boundaries:

- Water line: 1.5m from side and rear boundaries.
- Pool curtilage: 1m from side and rear boundaries.

The proposed swimming pool is setback as follows:

- Water line: 1m from south-eastern side boundary.
- Pool curtilage: 880mm from south-eastern side boundary.

The proposal therefore fails to satisfy the prerequisites.

Merit consideration

With regard to the consideration of a variation, the proposed development is considered against the underlying objectives of the control as follows:

Objective 1) To be located and designed to maintain the privacy (visually and aurally) of neighbouring properties and to minimise the impact of filter noise on neighbouring properties;

Comment:

The swimming pool is located 250mm above ground level and therefore, the existing boundary fencing and landscaping on the adjacent site (No. 8) will prevent direct overlooking into the adjoining property. Furthermore, a condition has been included with this consent limiting the noise of sound producing plant to no more than 5dB (A) above the background level, which will minimise the impact of the filter noise on adjoining properties. Overall, the proposal meets this objective.

Objective 2) To be appropriately located so as not to adversely impact on the streetscape or the established character of the locality.

Comment:

The swimming pool is sited in the rear yard and will not be visible from the street frontage. Therefore, the proposal will not detract from the visual qualities of the streetscape.

Objective 3) To integrate landscaping.

Comment:

Adequate landscaping is incorporated into the development.

Objective 4) To become an emergency water resource in bush fire prone areas.

Comment:

The site is not bushfire prone.

Conclusion

Having regard to the above assessment, it is concluded that the objectives of the control have been achieved. Therefore, the application is supported on merit in this particular circumstance.

4.4.5 Earthworks (Excavation and Filling)

Description of non-compliance

The control states that natural and undisturbed ground level must be maintained within 900mm of side and rear boundaries. The proposal involves excavation 880mm from the south-eastern side boundary and therefore, fails to satisfy the prescribed requirement.

Merit consideration

With regard to the consideration for a variation, the proposal is considered against the underlying objectives of the control as follows:

Objective 1) To retain the existing landscape character and limit change to the topography and vegetation of the Manly Local Government Area by:

- *Limiting excavation, “cut and fill” and other earthworks;*
- *Discouraging the alteration of the natural flow of ground and surface water;*
- *Ensuring that development not cause sedimentation to enter drainage lines (natural or otherwise) and waterways; and*
- *Limiting the height of retaining walls and encouraging the planting of native plant species to soften their impact.*

Comment:

The excavation works within 900mm from the side boundary is required to facilitate the proposed in-ground swimming pool. Due to the existing site constraints, which includes a large rock face, the level lawn area where the pool is proposed is the only feasible location to construct the swimming pool. The proposal is supported by a Geotechnical Report, prepared by White Geotechnical Group (dated December, 2020), which stipulates that the proposal will not impact upon existing ground and surface water flows. A condition has been included with this consent which requires sediment and erosion control fencing to be installed on site prior to the commencement of works, which will prevent sediment migration into adjoining lands. Furthermore, the swimming pool will be reasonably screened from adjoining private and public land.

Conclusion

Having regard to the above assessment, it is concluded that the objectives of the control have been achieved. Therefore, the application is supported on merit in this particular circumstance.

THREATENED SPECIES, POPULATIONS OR ECOLOGICAL COMMUNITIES

The proposal will not significantly affect threatened species, populations or ecological communities, or their habitats.

CRIME PREVENTION THROUGH ENVIRONMENTAL DESIGN

The proposal is consistent with the principles of Crime Prevention Through Environmental Design.

POLICY CONTROLS

Northern Beaches Section 7.12 Contributions Plan 2021

As the estimated cost of works is less than \$100,001.00 the policy is not applicable to the assessment of this application.

CONCLUSION

The site has been inspected and the application assessed having regard to all documentation submitted by the applicant and the provisions of:

- Environmental Planning and Assessment Act 1979;
- Environmental Planning and Assessment Regulation 2000;
- All relevant and draft Environmental Planning Instruments;
- Manly Local Environment Plan;
- Manly Development Control Plan; and
- Codes and Policies of Council.

This assessment has taken into consideration the submitted plans, Statement of Environmental Effects, all other documentation supporting the application and public submissions, and does not result in any unreasonable impacts on surrounding, adjoining, adjacent and nearby properties subject to the conditions contained within the recommendation.

In consideration of the proposal and the merit consideration of the development, the proposal is considered to be:

- Consistent with the objectives of the DCP
- Consistent with the zone objectives of the LEP
- Consistent with the aims of the LEP
- Consistent with the objectives of the relevant EPIs
- Consistent with the objects of the Environmental Planning and Assessment Act 1979

It is considered that the proposed development satisfies the appropriate controls and that all processes and assessments have been satisfactorily addressed.

RECOMMENDATION

THAT Council as the consent authority grant Development Consent to DA2021/1152 for Alterations and additions to a dwelling house including a swimming pool on land at Lot 5 DP 168232, 10 Rosedale Avenue, FAIRLIGHT, subject to the conditions printed below:

DEVELOPMENT CONSENT OPERATIONAL CONDITIONS

1. **Approved Plans and Supporting Documentation**

The development must be carried out in compliance (except as amended by any other condition of consent) with the following:

a) Approved Plans

Architectural Plans - Endorsed with Council's stamp		
Drawing No.	Dated	Prepared By
DA3 - Site Plan	23/08/2021	Sketch Arc
DA4 - Garage Floor Plan	23/08/2021	Sketch Arc
DA5 - Ground Floor Plan	23/08/2021	Sketch Arc
DA6 - First Floor Plan	23/08/2021	Sketch Arc
DA7 - Roof Plan	23/08/2021	Sketch Arc
DA8 - North and South Elevations	23/08/2021	Sketch Arc
DA9 - East and West Elevations	23/08/2021	Sketch Arc
DA10 - Sections	23/08/2021	Sketch Arc

Reports / Documentation – All recommendations and requirements contained within:		
Report No. / Page No. / Section No.	Dated	Prepared By
BASIX Certificate No. A402510_02	21/06/2021	Phil Brown Drafting
Preliminary Geotechnical Assessment Ref. J3159	23/12/2021	White Geotechnical Group

b) Any plans and / or documentation submitted to satisfy the Conditions of this consent.

c) The development is to be undertaken generally in accordance with the following:

Landscape Plans		
Drawing No.	Dated	Prepared By
DA13 - Landscaping Plan	21/06/2021	Sketch Arc

Waste Management Plan		
Drawing No/Title.	Dated	Prepared By
Waste Management Plan	June 2021	Nolan Planning Consultants

In the event of any inconsistency between conditions of this consent and the drawings/documents referred to above, the conditions of this consent will prevail.

Reason: To ensure the work is carried out in accordance with the determination of Council and approved plans.

2. **Prescribed Conditions**

- (a) All building works must be carried out in accordance with the requirements of the Building Code of Australia (BCA).
- (b) BASIX affected development must comply with the schedule of BASIX commitments

specified within the submitted BASIX Certificate (demonstrated compliance upon plans/specifications is required prior to the issue of the Construction Certificate);

- (c) A sign must be erected in a prominent position on any site on which building work, subdivision work or demolition work is being carried out:
 - (i) showing the name, address and telephone number of the Principal Certifying Authority for the work, and
 - (ii) showing the name of the principal contractor (if any) for any building work and a telephone number on which that person may be contacted outside working hours, and
 - (iii) stating that unauthorised entry to the work site is prohibited.

Any such sign is to be maintained while the building work, subdivision work or demolition work is being carried out, but must be removed when the work has been completed.
- (d) Residential building work within the meaning of the Home Building Act 1989 must not be carried out unless the Principal Certifying Authority for the development to which the work relates (not being the Council) has given the Council written notice of the following information:
 - (i) in the case of work for which a principal contractor is required to be appointed:
 - A. the name and licence number of the principal contractor, and
 - B. the name of the insurer by which the work is insured under Part 6 of that Act,
 - (ii) in the case of work to be done by an owner-builder:
 - A. the name of the owner-builder, and
 - B. if the owner-builder is required to hold an owner-builder permit under that Act, the number of the owner-builder permit.

If arrangements for doing the residential building work are changed while the work is in progress so that the information notified under becomes out of date, further work must not be carried out unless the Principal Certifying Authority for the development to which the work relates (not being the Council) has given the Council written notice of the updated information.
- (e) Development that involves an excavation that extends below the level of the base of the footings of a building on adjoining land, the person having the benefit of the development consent must, at the person's own expense:
 - (i) protect and support the adjoining premises from possible damage from the excavation, and
 - (ii) where necessary, underpin the adjoining premises to prevent any such damage.
 - (iii) must, at least 7 days before excavating below the level of the base of the footings of a building on an adjoining allotment of land, give notice of intention to do so to the owner of the adjoining allotment of land and furnish particulars of the excavation to the owner of the building being erected or demolished.
 - (iv) the owner of the adjoining allotment of land is not liable for any part of the cost of work carried out for the purposes of this clause, whether carried out on the allotment of land being excavated or on the adjoining allotment of land.

In this clause, allotment of land includes a public road and any other public place.

Reason: Legislative requirement.

3. General Requirements

- (a) Unless authorised by Council:
Building construction and delivery of material hours are restricted to:

- 7.00 am to 5.00 pm inclusive Monday to Friday,
- 8.00 am to 1.00 pm inclusive on Saturday,
- No work on Sundays and Public Holidays.

Demolition and excavation works are restricted to:

- 8.00 am to 5.00 pm Monday to Friday only.

(Excavation work includes the use of any excavation machinery and the use of jackhammers, rock breakers, excavators, loaders and the like, regardless of whether the activities disturb or alter the natural state of the existing ground stratum or are breaking up/removing materials from the site).

- (b) Should any asbestos be uncovered on site, its demolition and removal must be carried out in accordance with WorkCover requirements and the relevant Australian Standards.
- (c) At all times after the submission the Notice of Commencement to Council, a copy of the Development Consent and Construction Certificate is to remain onsite at all times until the issue of a final Occupation Certificate. The consent shall be available for perusal of any Authorised Officer.
- (d) Where demolition works have been completed and new construction works have not commenced within 4 weeks of the completion of the demolition works that area affected by the demolition works shall be fully stabilised and the site must be maintained in a safe and clean state until such time as new construction works commence.
- (e) Onsite toilet facilities (being either connected to the sewer or an accredited sewer management facility) for workers are to be provided for construction sites at a rate of 1 per 20 persons.
- (f) Prior to the release of the Construction Certificate, payment of the Long Service Levy is required. This payment can be made at Council or to the Long Services Payments Corporation. Payment is not required where the value of the works is less than \$25,000. The Long Service Levy is calculated on 0.35% of the building and construction work. The levy rate and level in which it applies is subject to legislative change. The applicable fee at the time of payment of the Long Service Levy will apply.
- (g) The applicant shall bear the cost of all works associated with the development that occurs on Council's property.
- (h) No skip bins, building materials, demolition or excavation waste of any nature, and no hoist, plant or machinery (crane, concrete pump or lift) shall be placed on Council's footpaths, roadways, parks or grass verges without Council Approval.
- (i) Demolition materials and builders' wastes are to be removed to approved waste/recycling centres.
- (j) No trees or native shrubs or understorey vegetation on public property (footpaths, roads, reserves, etc.) or on the land to be developed shall be removed or damaged during construction unless specifically approved in this consent including for the erection of any fences, hoardings or other temporary works.
- (k) Prior to the commencement of any development onsite for:

- i) Building/s that are to be erected
- ii) Building/s that are situated in the immediate vicinity of a public place and is dangerous to persons or property on or in the public place
- iii) Building/s that are to be demolished
- iv) For any work/s that is to be carried out
- v) For any work/s that is to be demolished

The person responsible for the development site is to erect or install on or around the development area such temporary structures or appliances (wholly within the development site) as are necessary to protect persons or property and to prevent unauthorised access to the site in order for the land or premises to be maintained in a safe or healthy condition. Upon completion of the development, such temporary structures or appliances are to be removed within 7 days.

- (l) A "Road Opening Permit" must be obtained from Council, and all appropriate charges paid, prior to commencement of any work on Council property. The owner/applicant shall be responsible for all public utilities and services in the area of the work, shall notify all relevant Authorities, and bear all costs associated with any repairs and/or adjustments as those Authorities may deem necessary.
- (m) The works must comply with the relevant Ausgrid Network Standards and SafeWork NSW Codes of Practice.
- (n) Requirements for new swimming pools/spas or existing swimming pools/spas affected by building works.

- (1) Child resistant fencing is to be provided to any swimming pool or lockable cover to any spa containing water and is to be consistent with the following;

Relevant legislative requirements and relevant Australian Standards (including but not limited) to:

- (i) Swimming Pools Act 1992
- (ii) Swimming Pools Amendment Act 2009
- (iii) Swimming Pools Regulation 2018
- (iv) Australian Standard AS1926 Swimming Pool Safety
- (v) Australian Standard AS1926.1 Part 1: Safety barriers for swimming pools
- (vi) Australian Standard AS1926.2 Part 2: Location of safety barriers for swimming pools.
- (2) A 'KEEP WATCH' pool safety and aquatic based emergency sign, issued by Royal Life Saving is to be displayed in a prominent position within the pool/spa area.
- (3) Filter backwash waters shall be conveyed to the Sydney Water sewerage system in sewered areas or managed on-site in unsewered areas in a manner that does not cause pollution, erosion or run off, is separate from the irrigation area for any wastewater system and is separate from any onsite stormwater management system.
- (4) Swimming pools and spas must be registered with the Division of Local Government.

Reason: To ensure that works do not interfere with reasonable amenity expectations of residents and the community.

FEES / CHARGES / CONTRIBUTIONS

4. Security Bond

A bond (determined from cost of works) of \$1,500 and an inspection fee in accordance with Council's Fees and Charges paid as security are required to ensure the rectification of any damage that may occur to the Council infrastructure contained within the road reserve adjoining the site as a result of construction or the transportation of materials and equipment to and from the development site.

An inspection fee in accordance with Council adopted fees and charges (at the time of payment) is payable for each kerb inspection as determined by Council (minimum (1) one inspection).

All bonds and fees shall be deposited with Council prior to Construction Certificate or demolition work commencing, and details demonstrating payment are to be submitted to the Certifying Authority prior to the issue of the Construction Certificate.

To process the inspection fee and bond payment a Bond Lodgement Form must be completed with the payments (a copy of the form is attached to this consent and alternatively a copy is located on Council's website at www.northernbeaches.nsw.gov.au).

Reason: To ensure adequate protection of Council's infrastructure.

CONDITIONS TO BE SATISFIED PRIOR TO THE ISSUE OF THE CONSTRUCTION CERTIFICATE

5. Compliance with Standards

The development is required to be carried out in accordance with all relevant Australian Standards.

Details demonstrating compliance with the relevant Australian Standard are to be submitted to the Certifying Authority prior to the issue of the Construction Certificate.

Reason: To ensure the development is constructed in accordance with appropriate standards.

6. Sydney Water "Tap In"

The approved plans must be submitted to the Sydney Water Tap in service, prior to works commencing, to determine whether the development will affect any Sydney Water assets and/or easements. The appropriately stamped plans must then be submitted to the Certifying Authority demonstrating the works are in compliance with Sydney Water requirements.

Please refer to the website www.sydneywater.com.au for:

- "Tap in" details - see <http://www.sydneywater.com.au/tapin>
- Guidelines for Building Over/Adjacent to Sydney Water Assets.

Or telephone 13 000 TAP IN (1300 082 746).

Reason: To ensure compliance with the statutory requirements of Sydney Water.

CONDITIONS TO BE COMPLIED WITH DURING DEMOLITION AND BUILDING WORK

7. Survey Certificate

A survey certificate prepared by a Registered Surveyor is to be provided demonstrating all perimeter walls columns and or other structural elements, floor levels and the finished roof/ridge height are in accordance with the approved plans.

Details demonstrating compliance are to be submitted to the Principal Certifying Authority.

Reason: To demonstrate the proposal complies with the approved plans.

8. Installation and Maintenance of Sediment Control

Prior to any works commencing on site, including demolition, sediment and erosion controls must be installed in accordance with Landcom's 'Managing Urban Stormwater: Soils and Construction' (2004). Techniques used for erosion and sediment control on site are to be adequately maintained and monitored at all times, particularly after periods of rain, and shall remain in proper operation until all development activities have been completed and the site is sufficiently stabilised with vegetation.

Reason: To protect the surrounding environment from the effects of sedimentation and erosion from the site.

9. Waste Management During Development

The reuse, recycling or disposal of waste during works must be done generally in accordance with the Waste Management Plan for this development.

Details demonstrating compliance must be submitted to the Principal Certifying Authority.

Reason: To ensure demolition and construction waste is recycled or reused and to limit landfill.

CONDITIONS WHICH MUST BE COMPLIED WITH PRIOR TO THE ISSUE OF THE OCCUPATION CERTIFICATE

10. Swimming Pool Requirements

The Swimming Pool shall not be filled with water nor be permitted to retain water until:

(a) All required safety fencing has been erected in accordance with and all other requirements have been fulfilled with regard to the relevant legislative requirements and relevant Australian Standards (including but not limited) to:

- (i) Swimming Pools Act 1992;
- (ii) Swimming Pools Amendment Act 2009;
- (iii) Swimming Pools Regulation 2008
- (iv) Australian Standard AS1926 Swimming Pool Safety
- (v) Australian Standard AS1926.1 Part 1: Safety barriers for swimming pools
- (vi) Australian Standard AS1926.2 Part 2: Location of safety barriers for swimming pools

(b) A certificate of compliance prepared by the manufacturer of the pool safety fencing, shall be submitted to the Principal Certifying Authority, certifying compliance with Australian Standard 1926.

(c) Filter backwash waters shall be discharged to the Sydney Water sewer mains in accordance with Sydney Water's requirements. Where Sydney Water mains are not available in rural areas, the backwash waters shall be managed onsite in a manner that does not cause pollution, erosion or run off, is separate from the irrigation area for any wastewater system and is separate from any onsite stormwater management system. Appropriate instructions of artificial resuscitation methods.

(d) A warning sign stating '**YOUNG CHILDREN SHOULD BE SUPERVISED WHEN USING THIS POOL**' has been installed.

(e) Signage showing resuscitation methods and emergency contact

(f) All signage shall be located in a prominent position within the pool area.

(g) Swimming pools and spas must be registered with the *Division of Local Government*.

Details demonstrating compliance are to be submitted to the Certifying Authority prior to the issue of an Interim / Final Occupation Certificate.

Reason: To protect human life (DACPLF09)

ON-GOING CONDITIONS THAT MUST BE COMPLIED WITH AT ALL TIMES

11. **Pool Filter Noise**

All sound producing plant, equipment, machinery or fittings and the use will not exceed more than 5dB (A) above the background level when measured from any property boundary and/or habitable room(s) consistent with the Environment Protection Authority's NSW Industrial Noise Policy and/or Protection of the Environment Operations Act 1997.

Reason: To ensure an appropriate level of residential amenity.

In signing this report, I declare that I do not have a Conflict of Interest.

Signed

Thomas Burns, Planner
