RE: DA2020/1756 - 353 Barrenjoey Road NEWPORT NSW 2106

There needs to be more town planning for Newport. Robertson road The only street that has some sort of character for small businesses to thrive and have a community feel. As a drive through suburb it is worth noting that taking away the only road that could achieve a more coherent and friendly environment with street appeal will be changed forever with driveways and housing adding no worth to the overall possible character that could be achieved with more town planning.
Why are these lifeless ugly buildings continually being built?
More effort should be made with making newport have a village like feel.
