---------------------------------	---------------

### PROPOSED DEVELOPMENT IN DETAIL

The application seeks development consent for alterations and additions to an existing residential flat building .

Specifically, the works comprise of:

- The refurbishment of an existing swimming pool and surrounding concrete slab due to deterioration; and
- The construction of a new concrete shell within the existing pool shell, with a new water holding capacity of 37, 779 L.

It is noted that the proposed pool will be in the same position and location as the existing pool and will

only be 200mm above the existing level of the concrete slab.

Herein this report these works are described as the 'development'.

## ASSESSMENT INTRODUCTION

The application has been assessed in accordance with the requirements of the Environmental Planning and Assessment Act 1979 and the associated Regulations. In this regard:

- An assessment report and recommendation has been prepared (the subject of this report) taking into account all relevant provisions of the Environmental Planning and Assessment Act 1979, and the associated regulations;
- A site inspection was conducted and consideration has been given to the impacts of the development upon the subject site and adjoining, surrounding and nearby properties;
- Notification to adjoining and surrounding properties, advertisement (where required) and referral to relevant internal and external bodies in accordance with the Act, Regulations and relevant Development Control Plan;
- A review and consideration of all submissions made by the public and community interest groups in relation to the application;
- A review and consideration of all documentation provided with the application (up to the time of determination);
- A review and consideration of all referral comments provided by the relevant Council Officers, State Government Authorities/Agencies and Federal Government Authorities/Agencies on the proposal.

## SUMMARY OF ASSESSMENT ISSUES

Pittwater Local Environmental Plan 2014 - 7.8 Limited development on foreshore area

Pittwater 21 Development Control Plan - C1.5 Visual Privacy

Pittwater 21 Development Control Plan - D10.8 Side and rear building line (excluding Newport Commercial Centre)

Pittwater 21 Development Control Plan - D10.13 Landscaped Area - Environmentally Sensitive Land

## SITE DESCRIPTION

<b>Property Description:</b>	Lot CP SP 4658 , 10 Kalinya Street NEWPORT NSW 2106 Lot CP SP 4658 , 10 Kalinya Street NEWPORT NSW 2106
<b>Detailed Site Description:</b>	<p>The subject site consists of one (1) allotment located on the western side of Kalinya Street.</p> <p>The site is irregular in shape with a frontage of 20.115m and a depth of 67.815m. The site has a surveyed area of approximately 1362 m<sup>2</sup>.</p> <p>The site is located within the R3 Medium Density Residential zone and accommodates a three storey residential flat building (consisting of 12 apartments), carpark level and swimming pool.</p> <p>The site topography slopes downwards from the eastern</p>

boundary towards Pittwater to the west. The site consists of landscaping predominantly to the east, west and southern ends of the site, consisting of various shrubs and trees.

**Detailed Description of Adjoining/Surrounding Development**

Adjoining and surrounding development is characterised by both residential flat buildings and dwelling house in the immediate area. Commercial buildings and B1 Neighbourhood Centre zoning located to the east, with RE1 Public Recreation zoning (public reserve) located to the north of the subject site.

Map:

**SITE HISTORY**

A search of Council’s records has revealed that there are no recent or relevant applications for this site. The land has been used for residential purposes for an extended period of time.

**ENVIRONMENTAL PLANNING AND ASSESSMENT ACT, 1979 (EPAA)**

The relevant matters for consideration under the Environmental Planning and Assessment Act, 1979, are:

Section 4.15 Matters for Consideration	Comments
Section 4.15 (1) (a)(i) – Provisions of any environmental planning instrument	See discussion on “Environmental Planning Instruments” in this report.
Section 4.15 (1) (a)(ii) – Provisions of any draft environmental planning	Draft State Environmental Planning Policy (Remediation of Land) seeks to replace the existing SEPP No. 55 (Remediation of

Section 4.15 Matters for Consideration	Comments
instrument	Land). Public consultation on the draft policy was completed on 13 April 2018. The subject site has been used for residential purposes for an extended period of time. The proposed development retains the residential use of the site, and is not considered a contamination risk.
Section 4.15 (1) (a)(iii) – Provisions of any development control plan	Pittwater 21 Development Control Plan applies to this proposal.
Section 4.15 (1) (a)(iiiia) – Provisions of any planning agreement	None applicable.
Section 4.15 (1) (a)(iv) – Provisions of the Environmental Planning and Assessment Regulation 2000 (EP&A Regulation 2000)	<p><u>Division 8A</u> of the EP&amp;A Regulation 2000 requires the consent authority to consider "Prescribed conditions" of development consent. These matters have been addressed via a condition of consent.</p> <p><u>Clause 50(1A)</u> of the EP&amp;A Regulation 2000 requires the submission of a design verification certificate from the building designer at lodgement of the development application. This clause is not relevant to this application.</p> <p><u>Clauses 54 and 109</u> of the EP&amp;A Regulation 2000 allow Council to request additional information. No additional information was requested in this case.</p> <p><u>Clause 92</u> of the EP&amp;A Regulation 2000 requires the consent authority to consider AS 2601 - 1991: The Demolition of Structures. This matter has been addressed via a condition of consent.</p> <p><u>Clauses 93 and/or 94</u> of the EP&amp;A Regulation 2000 requires the consent authority to consider the upgrading of a building (including fire safety upgrade of development). This clause is not relevant to this application.</p> <p><u>Clause 98</u> of the EP&amp;A Regulation 2000 requires the consent authority to consider insurance requirements under the Home Building Act 1989. This clause is not relevant to this application.</p> <p><u>Clause 98</u> of the EP&amp;A Regulation 2000 requires the consent authority to consider the provisions of the Building Code of Australia (BCA). This matter has been addressed via a condition of consent.</p> <p><u>Clause 143A</u> of the EP&amp;A Regulation 2000 requires the submission of a design verification certificate from the building designer prior to the issue of a Construction Certificate. This clause is not relevant to this application.</p>
Section 4.15 (1) (b) – the likely impacts of the development,	(i) <b>Environmental Impact</b> The environmental impacts of the proposed development on the

Section 4.15 Matters for Consideration	Comments
including environmental impacts on the natural and built environment and social and economic impacts in the locality	<p>natural and built environment are addressed under the Pittwater 21 Development Control Plan section in this report.</p> <p>(ii) <b>Social Impact</b> The proposed development will not have a detrimental social impact in the locality considering the character of the proposal.</p> <p>(iii) <b>Economic Impact</b> The proposed development will not have a detrimental economic impact on the locality considering the nature of the existing and proposed land use.</p>
Section 4.15 (1) (c) – the suitability of the site for the development	The site is considered suitable for the proposed development.
Section 4.15 (1) (d) – any submissions made in accordance with the EPA Act or EPA Regs	See discussion on “Notification & Submissions Received” in this report.
Section 4.15 (1) (e) – the public interest	No matters have arisen in this assessment that would justify the refusal of the application in the public interest.

## EXISTING USE RIGHTS

Existing Use Rights are not applicable to this application.

## BUSHFIRE PRONE LAND

The site is not classified as bush fire prone land.

## NOTIFICATION & SUBMISSIONS RECEIVED

The subject development application has been publicly exhibited from 02/05/2022 to 16/05/2022 in accordance with the Environmental Planning and Assessment Act 1979, Environmental Planning and Assessment Regulation 2000 and the Community Participation Plan.

As a result of the public exhibition of the application Council received no submissions.

## REFERRALS

Internal Referral Body	Comments
NECC (Bushland and Biodiversity)	The proposed pool renovation has no impacts upon local biodiversity values. No further assessment against biodiversity controls are considered necessary in relation to the proposal.
NECC (Coast and Catchments)	<p>The application has been assessed in consideration of the Coastal Management Act 2016, State Environmental Planning Policy (Resilience &amp; Hazards) 2021 and has also been assessed against requirements of the Pittwater LEP 2014 and Pittwater 21 DCP.</p> <p><b>Coastal Management Act 2016</b></p>

Internal Referral Body	Comments
	<p>The subject site has been identified as being within the coastal zone and therefore <i>Coastal Management Act 2016</i> is applicable to the proposed development. The proposed development is in line with the objects, as set out under Clause 3 of the <i>Coastal Management Act 2016</i>.</p> <p><b>State Environmental Planning Policy (Resilience &amp; Hazards) 2021</b></p> <p>The subject land has been included on the 'Coastal Environment Area' and 'Coastal Use Area' maps under the State Environmental Planning Policy (Resilience &amp; Hazards) 2021. Hence, Clauses 2.10, 2.11 and 2.12 of the CM (R &amp; H) apply for this DA.</p> <p><u>Comment</u></p> <p>On internal assessment, the DA satisfies requirements under clauses 2.10, 2.11 and 2.12 of the SEPP R&amp;H. As such, it is considered that the application does comply with the requirements of the State Environmental Planning Policy (Resilience &amp; Hazards) 2021.</p> <p><b>Pittwater LEP 2014 and Pittwater 21 DCP</b></p> <p><b>Estuarine Risk Management</b></p> <p>The subject property has also been identified as affected by estuarine wave action and tidal inundation on Council's Estuarine Hazard Mapping. As such, the Estuarine Risk Management Policy for Development in Pittwater (Appendix 7, Pittwater 21 DCP) and the relevant B3.7 Estuarine Hazard Controls will apply to any proposed development of the site.</p> <p>On internal assessment, the proposed developments are occurring above the applicable EPL for the site. The proposed development is therefore able to satisfy the relevant estuarine risk management requirements of P21 DCP.</p> <p><b>Development on Foreshore Area</b></p> <p>A section of the subject property is within the foreshore building line. Part 7, Clause 7.8 –Limited development on foreshore area of the Pittwater LEP 2014 applies for any development within the foreshore</p>

Internal Referral Body	Comments
	<p>area.</p> <p>The DA proposes renovation of an existing swimming pool already located within the foreshores area. The proposed works are consistent with Clause 7.8(2)(b).</p> <p>On internal assessment, the DA satisfies the objectives and requirements of Part 7, Clause 7.8 of the Pittwater LEP 2014.</p>
NECC (Riparian Lands and Creeks)	<p>This application has been assessed against relevant legislation and policy relating to waterways, riparian areas, and groundwater. The proposed development must not significantly impact on the biophysical, hydrological or ecological integrity of these waters, or on the quantity and quality of surface and ground water flows to Pittwater.</p> <p>Therefore, sediment and erosion controls must be installed prior to any disturbance of soil on site and maintained until all work is complete and groundcover re-established. The proposal, subject to conditions, is supported as it is unlikely to have an adverse effect on the integrity and resilience of the biophysical, ecological and hydrological environment of Pittwater and its surroundings if conditions are adhered to.</p>
NECC (Water Management)	No objections.
Parks, reserves, beaches, foreshore	<p>The development application is for alterations and refurbishment to an existing swimming pool.</p> <p>The property adjoins Pittwater waterway downslope. All development works must ensure that surface sediment runoff and/or erosion is controlled, managed and contained within the site boundaries and prevented from travelling across the boundary and into the Pittwater waterway, as conditioned by Riparian Lands and Creeks.</p> <p>No physical encroachments over the site boundaries are permitted, and structures and built elements are not permitted beyond the site boundaries. Public access to the waterway is not impacted by the proposed development and the development is not detrimental to the landscape character of the adjoining Pittwater waterway, and as such Parks, Reserves and Foreshores raise no concerns with the development proposal.</p>

## ENVIRONMENTAL PLANNING INSTRUMENTS (EPIs)\*

All, Environmental Planning Instruments (SEPPs, REPs and LEPs), Development Controls Plans and Council Policies have been considered in the merit assessment of this application.

In this regard, whilst all provisions of each Environmental Planning Instruments (SEPPs, REPs and LEPs), Development Controls Plans and Council Policies have been considered in the assessment, many provisions contained within the document are not relevant or are enacting, definitions and operational provisions which the proposal is considered to be acceptable against.

As such, an assessment is provided against the controls relevant to the merit consideration of the application hereunder.

## **State Environmental Planning Policies (SEPPs) and State Regional Environmental Plans (SREPs)**

### **SEPP 65 - Design Quality of Residential Apartment Development**

Clause 4 of State Environmental Planning Policy No. 65 – Design Quality for Residential Apartment Development (SEPP 65) stipulates that:

(1) This Policy applies to development for the purpose of a residential flat building, shop top housing or mixed use development with a residential accommodation component if:

(a) the development consists of any of the following:

- (i) the erection of a new building,
- (ii) the substantial redevelopment or the substantial refurbishment of an existing building,
- (iii) the conversion of an existing building, and

(b) the building concerned is at least 3 or more storeys (not including levels below ground level (existing) or levels that are less than 1.2 metres above ground level (existing) that provide for car parking), and

(c) the building concerned contains at least 4 or more dwellings.

As it is acknowledged that the subject site consists of an apartment building of 3 or more storeys, the proposed development will not alter the building its self, and will remain as existing. The proposed development is only for the refurbishment of an already existing swimming pool within the subject site.

As per the definition of a residential flat building and the provisions of Clause 4 outlining the application of the policy, the provisions of SEPP 65 are not applicable to the assessment of this application.

Accordingly, no further assessment is required with regard to the provisions of SEPP 65.

## **SEPP (Resilience and Hazards) 2021**

### **Chapter 2 – Coastal Management**

The site is subject to Chapter 2 of the SEPP. Accordingly, an assessment under Chapter 2 has been carried out as follows:

#### **Division 3 Coastal environment area**

##### **2.10 Development on land within the coastal environment area**

- 1) Development consent must not be granted to development on land that is within the coastal environment area unless the consent authority has considered whether the proposed development is likely to cause an adverse impact on the following:
  - a) the integrity and resilience of the biophysical, hydrological (surface and groundwater) and ecological environment,
  - b) coastal environmental values and natural coastal processes,
  - c) the water quality of the marine estate (within the meaning of the Marine Estate Management Act 2014), in particular, the cumulative impacts of the proposed development on any of the sensitive coastal lakes identified in Schedule 1,
  - d) marine vegetation, native vegetation and fauna and their habitats, undeveloped headlands and rock platforms,
  - e) existing public open space and safe access to and along the foreshore, beach, headland or rock platform for members of the public, including persons with a disability,
  - f) Aboriginal cultural heritage, practices and places,
  - g) the use of the surf zone.

#### Comment

This clause has been assessed against the subject site and the proposed development. The works are within the existing building footprint and will have no visual impact on the coastal area, topographical features or surrounding vegetation.

- 2) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that:
  - a) the development is designed, sited and will be managed to avoid an adverse impact referred to in subsection (1), or
  - b) if that impact cannot be reasonably avoided—the development is designed, sited and will be managed to minimise that impact, or
  - c) if that impact cannot be minimised—the development will be managed to mitigate that impact.

#### Comment

This clause has been assessed against the subject site and the proposed development. As the proposed development is a refurbishment of an existing swimming pool, with no additional development. It is unlikely to cause a coastal impact over and above that of what is currently existing.

## **Division 4 Coastal use area**

### **2.11 Development on land within the coastal use area**

- 1) Development consent must not be granted to development on land that is within the coastal use area unless the consent authority:
  - a) has considered whether the proposed development is likely to cause an adverse impact on the following:
    - i) existing, safe access to and along the foreshore, beach, headland or rock
    - ii) platform for members of the public, including persons with a disability,
    - iii) overshadowing, wind funnelling and the loss of views from public places to
    - iv) foreshores,
    - v) the visual amenity and scenic qualities of the coast, including coastal

headlands,  
Aboriginal cultural heritage, practices and places,  
cultural and built environment heritage, and

- b) is satisfied that:
- i) the development is designed, sited and will be managed to avoid an adverse impact referred to in paragraph (a), or
  - ii) if that impact cannot be reasonably avoided—the development is designed, sited and will be managed to minimise that impact, or
  - iii) if that impact cannot be minimised—the development will be managed to mitigate that impact, and
- c) has taken into account the surrounding coastal and built environment, and the bulk, scale and size of the proposed development.

Comment

This clause has been assessed against the subject site and the proposed development. The development is not considered to impact the visual amenity of the scenic coast, native foreshore vegetation or environmental heritage, other than what is existing. Public access to the foreshore will not be affected. The development does not result in unreasonable overshadowing to the foreshore area or contributes to further loss of valued public domain views to the foreshore.

**Division 5 General**

**2.12 Development in coastal zone generally—development not to increase risk of coastal hazards**

Development consent must not be granted to development on land within the coastal zone unless the consent authority is satisfied that the proposed development is not likely to cause increased risk of coastal hazards on that land or other land.

Comment

This clause has been assessed against the subject site and the proposed development. The refurbishment does not increase the scale or building footprint and is considered unlikely to increase the risks of coastal hazards.

As such, it is considered that the application complies with the requirements of Chapter 2 of the State Environmental Planning Policy (Resilience and Hazards) 2021.

**Chapter 4 – Remediation of Land**

Sub-section 4.6 (1)(a) of Chapter 4 requires the Consent Authority to consider whether land is contaminated. Council records indicate that the subject site has been used for residential purposes for a significant period of time with no prior land uses. In this regard it is considered that the site poses no risk of contamination and therefore, no further consideration is required under sub-section 4.6 (1)(b) and (c) of this Chapter and the land is considered to be suitable for the residential land use.

**Pittwater Local Environmental Plan 2014**

Is the development permissible?	Yes
After consideration of the merits of the proposal, is the development consistent with:	
aims of the LEP?	Yes

zone objectives of the LEP?	Yes
-----------------------------	-----

#### Principal Development Standards

Standard	Requirement	Proposed	% Variation	Complies
Height of Buildings:	8.5m	1.2m (Pool Fence)	-	Yes

#### Compliance Assessment

Clause	Compliance with Requirements
1.9A Suspension of covenants, agreements and instruments	Yes
4.3 Height of buildings	Yes
5.7 Development below mean high water mark	Yes
5.10 Heritage conservation	Yes
5.21 Flood planning	Yes
7.1 Acid sulfate soils	Yes
7.2 Earthworks	Yes
7.7 Geotechnical hazards	Yes
7.8 Limited development on foreshore area	Yes
7.10 Essential services	Yes

#### Detailed Assessment

##### 7.8 Limited development on foreshore area

Under Clause 7.8 Limited Development on Foreshore Area, development consent must not be granted for development on land in the foreshore area except for the following purposes:

- *the extension, alteration or rebuilding of an existing building wholly or partly in the foreshore area, but only if the development will not result in the footprint of the building extending further into the foreshore area,*
- *boat sheds, sea retaining walls, wharves, slipways, jetties, waterway access stairs, swimming pools, fences, cycleways, walking trails, picnic facilities or other recreation facilities (outdoors).*

#### Comment:

The proposed development is for the refurbishment of an already existing swimming pool within the foreshore area, which is therefore compliant with this clause. The residential flat building will remain as existing, with no proposed changes to the building itself.

Development consent must not be granted under this clause unless the consent authority is satisfied that:

- *the development will contribute to achieving the objectives for the zone in which the land is located, and*
- *the appearance of any proposed structure, from both the waterway and adjacent foreshore areas, will be compatible with the surrounding area, and*
- *the development will not cause environmental harm such as:*

- *pollution or siltation of the waterway, or*
- *an adverse effect on surrounding uses, marine habitat, wetland areas, fauna and flora habitats, or*
- *an adverse effect on drainage patterns, or*
- *the removal or disturbance of remnant riparian vegetation, and*
- *the development will not cause congestion or generate conflict between people using open space areas or the waterway, and*
- *opportunities to provide continuous public access along the foreshore and to the waterway will not be compromised, and*
- *any historic, scientific, cultural, social, archaeological, architectural, natural or aesthetic significance of the land on which the development is to be carried out and of surrounding land will be maintained, and*
- *in the case of development for the alteration or rebuilding of an existing building wholly or partly in the foreshore area, the alteration or rebuilding will not have an adverse impact on the amenity or aesthetic appearance of the foreshore, and*
- *sea level rise, coastal erosion and recession, or change of flooding patterns as a result of climate change have been considered.*

Comment:

The proposed development is consistent with the objectives of the R3 zone. The appearance of the proposed development is compatible with the surrounding area. The proposed development will not cause environmental harm in relation to pollution, siltation, surrounding uses, marine habitat, wetland areas, flora or fauna habitats, drainage patterns or remnant riparian vegetation. The proposed development will not cause congestion or generate conflict between people using the adjacent open space or waterway. The proposed development retains public access along the foreshore. The proposed development will not result in adverse impacts to any historic, scientific, cultural, social, archaeological, architectural, natural or aesthetic significance of the land. The proposed development will not have an adverse impact on the amenity or aesthetic appearance of the foreshore. The proposed development will not impact upon sea level rise, coastal erosion or recession, or change flooding patterns.

In deciding whether to grant consent for development in the foreshore area, the consent authority must consider whether and to what extent the development would encourage the following:

- *continuous public access to and along the foreshore through or adjacent to the proposed development,*
- *public access to link with existing or proposed open space,*
- *public access to be secured by appropriate covenants, agreements or other instruments registered on the title to land,*
- *public access to be located above mean high water mark,*
- *the reinforcing of the foreshore character and respect for existing environmental conditions.*

Comment:

The proposed development will not impact on the existing public access arrangement to and along the foreshore. The proposed development is acceptable in relation to the foreshore character and the existing environmental conditions.

**Pittwater 21 Development Control Plan**

Built Form Controls

Built Form	Requirement	Proposed	%	Complies
------------	-------------	----------	---	----------

Control			Variation*	
Front Building Line	6.5m (Eastern Boundary)	> 6.5m	-	Yes

D15.14 Minimum frontage for waterfront development	Yes	Yes
D15.15 Waterfront development	Yes	Yes

### Detailed Assessment

#### **C1.5 Visual Privacy**

The proposed development consists only of the refurbishment of an already existing swimming pool within the same location and footprint.

Therefore, the current privacy levels between the adjoining properties will remain unchanged, and can be supported based on merit.

No objections have been received in relation to the refurbishment of the existing swimming pool.

### **D10.8 Side and rear building line (excluding Newport Commercial Centre)**

#### Merit Consideration

Clause D10.8 Side and Rear Building Line prescribes a side setback of 2.5m to one side and 1m to the other, with a rear setback of 6.5m. For this assessment, the 2.5m side building line is applied to the southern boundary and the 1m side building line applied to the northern boundary.

The plans propose no significant change to the existing side setbacks, maintaining the existing spatial characteristics of the existing swimming pool.

The proposed refurbishment of the swimming pool, is compliant with the southern side building line, presenting a setback of 3.3m - 5m. The northern side setback presents an existing non-compliance of nil - 0.4m from the concrete slab to the boundary, however the actual setback from the swimming pool presents a compliant 5m setback.

The existing layout of the swimming pool will remain substantially the same as the existing, and can be considered consistent with other residential flat buildings within the surrounding sites

With regard to the above, the relevant objectives of the control will therefore be satisfied. The retention of a non-compliant side setback to the northern boundary can therefore be supported on merit.

### **D10.13 Landscaped Area - Environmentally Sensitive Land**

#### Merit Consideration

The plans propose no significant change to the existing landscape, maintaining the landscape calculation of 496m<sup>2</sup> (36.5%).

While compliance with the 60% requirement will not be attained, the existing landscape layout of the site will otherwise remain unchanged. The site will therefore continue to provide for sufficient landscaping and deep soil areas within the front, side and rear setbacks and can be considered consistent with other residential flat buildings within the surrounding sites

Noting that no objection is raised by Council's Landscape or Biodiversity Officers, with regard to the above, the relevant objectives of the control will therefore be satisfied. The retention of a non-compliant landscape area can therefore be supported on merit.

### **THREATENED SPECIES, POPULATIONS OR ECOLOGICAL COMMUNITIES**

The proposal will not significantly affect threatened species, populations or ecological communities, or their habitats.

### **CRIME PREVENTION THROUGH ENVIRONMENTAL DESIGN**

The proposal is consistent with the principles of Crime Prevention Through Environmental Design.

### **POLICY CONTROLS**

#### **Northern Beaches Section 7.12 Contributions Plan 2021**

The proposal is subject to the application of Northern Beaches Section 7.12 Contributions Plan 2021.

A monetary contribution of \$ 546 is required for the provision of new and augmented public infrastructure. The contribution is calculated as 0.5% of the total development cost of \$ 109,244.

**CONCLUSION**

The site has been inspected and the application assessed having regard to all documentation submitted by the applicant and the provisions of:

- Environmental Planning and Assessment Act 1979;
- Environmental Planning and Assessment Regulation 2000;
- All relevant and draft Environmental Planning Instruments;
- Pittwater Local Environment Plan;
- Pittwater Development Control Plan; and
- Codes and Policies of Council.

This assessment has taken into consideration the submitted plans, Statement of Environmental Effects, all other documentation supporting the application and public submissions, and does not result in any unreasonable impacts on surrounding, adjoining, adjacent and nearby properties subject to the conditions contained within the recommendation.

In consideration of the proposal and the merit consideration of the development, the proposal is considered to be:

- Consistent with the objectives of the DCP
- Consistent with the zone objectives of the LEP
- Consistent with the aims of the LEP
- Consistent with the objectives of the relevant EPIs
- Consistent with the objects of the Environmental Planning and Assessment Act 1979

It is considered that the proposed development satisfies the appropriate controls and that all processes and assessments have been satisfactorily addressed.

**RECOMMENDATION**

THAT Council as the consent authority grant Development Consent to DA2022/0380 for Alterations and refurbishment to an existing swimming pool on land at Lot CP SP 4658, 10 Kalinya Street, NEWPORT, Lot CP SP 4658, 10 Kalinya Street, NEWPORT, subject to the conditions printed below:

**DEVELOPMENT CONSENT OPERATIONAL CONDITIONS**

**1. Approved Plans and Supporting Documentation**

The development must be carried out in compliance (except as amended by any other condition of consent) with the following:

a) Approved Plans

<b>Architectural Plans - Endorsed with Council's stamp</b>
--

Drawing No.	Dated	Prepared By
P02 - Site Plan (Rev. A)	31 August 2021	Crystal Pools
P03 - Plan of Pool (Rev. A)	31 August 2021	Crystal Pools
P04 - Sections (Rev. A)	31 August 2021	Crystal Pools

Reports / Documentation – All recommendations and requirements contained within:		
Report No. / Page No. / Section No.	Dated	Prepared By
Ground Testing Report	9 September 2020	White Geotechnical Group

- b) Any plans and / or documentation submitted to satisfy the Conditions of this consent.
- c) The development is to be undertaken generally in accordance with the following:

Waste Management Plan		
Drawing No/Title.	Dated	Prepared By
Waste Management Plan	11 November 2020	Body Corporate Services

In the event of any inconsistency between conditions of this consent and the drawings/documents referred to above, the conditions of this consent will prevail.

Reason: To ensure the work is carried out in accordance with the determination of Council and approved plans.

## 2. Prescribed Conditions

- (a) All building works must be carried out in accordance with the requirements of the Building Code of Australia (BCA).
- (b) BASIX affected development must comply with the schedule of BASIX commitments specified within the submitted BASIX Certificate (demonstrated compliance upon plans/specifications is required prior to the issue of the Construction Certificate);
- (c) A sign must be erected in a prominent position on any site on which building work, subdivision work or demolition work is being carried out:
  - (i) showing the name, address and telephone number of the Principal Certifying Authority for the work, and
  - (ii) showing the name of the principal contractor (if any) for any building work and a telephone number on which that person may be contacted outside working hours, and
  - (iii) stating that unauthorised entry to the work site is prohibited.

Any such sign is to be maintained while the building work, subdivision work or demolition work is being carried out, but must be removed when the work has been completed.
- (d) Residential building work within the meaning of the Home Building Act 1989 must not be carried out unless the Principal Certifying Authority for the development to which the work relates (not being the Council) has given the Council written notice of the

following information:

- (i) in the case of work for which a principal contractor is required to be appointed:
  - A. the name and licence number of the principal contractor, and
  - B. the name of the insurer by which the work is insured under Part 6 of that Act,
- (ii) in the case of work to be done by an owner-builder:
  - A. the name of the owner-builder, and
  - B. if the owner-builder is required to hold an owner-builder permit under that Act, the number of the owner-builder permit.

If arrangements for doing the residential building work are changed while the work is in progress so that the information notified under becomes out of date, further work must not be carried out unless the Principal Certifying Authority for the development to which the work relates (not being the Council) has given the Council written notice of the updated information.

- (e) Development that involves an excavation that extends below the level of the base of the footings of a building on adjoining land, the person having the benefit of the development consent must, at the person's own expense:
  - (i) protect and support the adjoining premises from possible damage from the excavation, and
  - (ii) where necessary, underpin the adjoining premises to prevent any such damage.
  - (iii) must, at least 7 days before excavating below the level of the base of the footings of a building on an adjoining allotment of land, give notice of intention to do so to the owner of the adjoining allotment of land and furnish particulars of the excavation to the owner of the building being erected or demolished.
  - (iv) the owner of the adjoining allotment of land is not liable for any part of the cost of work carried out for the purposes of this clause, whether carried out on the allotment of land being excavated or on the adjoining allotment of land.

In this clause, allotment of land includes a public road and any other public place.

Reason: Legislative requirement.

### 3. **General Requirements**

- (a) Unless authorised by Council:  
Building construction and delivery of material hours are restricted to:

- 7.00 am to 5.00 pm inclusive Monday to Friday,
- 8.00 am to 1.00 pm inclusive on Saturday,
- No work on Sundays and Public Holidays.

Demolition and excavation works are restricted to:

- 8.00 am to 5.00 pm Monday to Friday only.

(Excavation work includes the use of any excavation machinery and the use of jackhammers, rock breakers, excavators, loaders and the like, regardless of whether the activities disturb or alter the natural state of the existing ground stratum or are

- breaking up/removing materials from the site).
- (b) Should any asbestos be uncovered on site, its demolition and removal must be carried out in accordance with WorkCover requirements and the relevant Australian Standards.
  - (c) At all times after the submission the Notice of Commencement to Council, a copy of the Development Consent and Construction Certificate is to remain onsite at all times until the issue of a final Occupation Certificate. The consent shall be available for perusal of any Authorised Officer.
  - (d) Where demolition works have been completed and new construction works have not commenced within 4 weeks of the completion of the demolition works that area affected by the demolition works shall be fully stabilised and the site must be maintained in a safe and clean state until such time as new construction works commence.
  - (e) Onsite toilet facilities (being either connected to the sewer or an accredited sewer management facility) for workers are to be provided for construction sites at a rate of 1 per 20 persons.
  - (f) Prior to the release of the Construction Certificate, payment of the Long Service Levy is required. This payment can be made at Council or to the Long Services Payments Corporation. Payment is not required where the value of the works is less than \$25,000. The Long Service Levy is calculated on 0.35% of the building and construction work. The levy rate and level in which it applies is subject to legislative change. The applicable fee at the time of payment of the Long Service Levy will apply.
  - (g) The applicant shall bear the cost of all works associated with the development that occurs on Council's property.
  - (h) No skip bins, building materials, demolition or excavation waste of any nature, and no hoist, plant or machinery (crane, concrete pump or lift) shall be placed on Council's footpaths, roadways, parks or grass verges without Council Approval.
  - (i) Demolition materials and builders' wastes are to be removed to approved waste/recycling centres.
  - (j) No trees or native shrubs or understorey vegetation on public property (footpaths, roads, reserves, etc.) or on the land to be developed shall be removed or damaged during construction unless specifically approved in this consent including for the erection of any fences, hoardings or other temporary works.
  - (k) Prior to the commencement of any development onsite for:
    - i) Building/s that are to be erected
    - ii) Building/s that are situated in the immediate vicinity of a public place and is dangerous to persons or property on or in the public place
    - iii) Building/s that are to be demolished
    - iv) For any work/s that is to be carried out
    - v) For any work/s that is to be demolished

The person responsible for the development site is to erect or install on or around the development area such temporary structures or appliances (wholly within the development site) as are necessary to protect persons or property and to prevent unauthorised access to the site in order for the land or premises to be maintained in a safe or healthy condition. Upon completion of the development, such temporary structures or appliances are to be removed within 7 days.

- (l) A "Road Opening Permit" must be obtained from Council, and all appropriate charges paid, prior to commencement of any work on Council property. The owner/applicant shall be responsible for all public utilities and services in the area of the work, shall notify all relevant Authorities, and bear all costs associated with any repairs and/or

adjustments as those Authorities may deem necessary.

- (m) The works must comply with the relevant Ausgrid Network Standards and SafeWork NSW Codes of Practice.
- (n) Requirements for new swimming pools/spas or existing swimming pools/spas affected by building works.
  - (1) Child resistant fencing is to be provided to any swimming pool or lockable cover to any spa containing water and is to be consistent with the following;  
  
Relevant legislative requirements and relevant Australian Standards (including but not limited) to:
    - (i) Swimming Pools Act 1992
    - (ii) Swimming Pools Amendment Act 2009
    - (iii) Swimming Pools Regulation 2018
    - (iv) Australian Standard AS1926 Swimming Pool Safety
    - (v) Australian Standard AS1926.1 Part 1: Safety barriers for swimming pools
    - (vi) Australian Standard AS1926.2 Part 2: Location of safety barriers for swimming pools.
  - (2) A 'KEEP WATCH' pool safety and aquatic based emergency sign, issued by Royal Life Saving is to be displayed in a prominent position within the pool/spa area.
  - (3) Filter backwash waters shall be conveyed to the Sydney Water sewerage system in sewered areas or managed on-site in unsewered areas in a manner that does not cause pollution, erosion or run off, is separate from the irrigation area for any wastewater system and is separate from any onsite stormwater management system.
  - (4) Swimming pools and spas must be registered with the Division of Local Government.

Reason: To ensure that works do not interfere with reasonable amenity expectations of residents and the community.

## FEES / CHARGES / CONTRIBUTIONS

### 4. Policy Controls

Northern Beaches 7.12 Contributions Plan 2021

A monetary contribution of \$546.22 is payable to Northern Beaches Council for the provision of local infrastructure and services pursuant to section 7.12 of the Environmental Planning & Assessment Act 1979 and the Northern Beaches Section 7.12 Contributions Plan 2021. The monetary contribution is based on a development cost of \$109,244.00.

The monetary contribution is to be paid prior to the issue of the first Construction Certificate or Subdivision Certificate whichever occurs first, or prior to the issue of the Subdivision Certificate where no Construction Certificate is required. If the monetary contribution (total or in part) remains unpaid after the financial quarter that the development consent is issued, the amount unpaid (whether it be the full cash contribution or part thereof) will be adjusted on a quarterly basis in accordance with the applicable Consumer Price Index. If this situation applies, the cash contribution payable for this development will be the total unpaid monetary contribution as adjusted.

The proponent shall provide to the Certifying Authority written evidence (receipt/s) from Council that the total monetary contribution has been paid.

The Northern Beaches Section 7.12 Contributions Plan 2021 may be inspected at 725 Pittwater Rd, Dee Why and at Council's Customer Service Centres or alternatively, on Council's website at [www.northernbeaches.nsw.gov.au](http://www.northernbeaches.nsw.gov.au)

This fee must be paid prior to the issue of the Construction Certificate. Details demonstrating compliance are to be submitted to the Principal Certifying Authority.

Reason: To provide for contributions in accordance with the Contribution Plan to fund the provision of new or augmented local infrastructure and services.

## 5. **Security Bond**

A bond (determined from cost of works) of \$1,500 and an inspection fee in accordance with Council's Fees and Charges paid as security are required to ensure the rectification of any damage that may occur to the Council infrastructure contained within the road reserve adjoining the site as a result of construction or the transportation of materials and equipment to and from the development site.

An inspection fee in accordance with Council adopted fees and charges (at the time of payment) is payable for each kerb inspection as determined by Council (minimum (1) one inspection).

All bonds and fees shall be deposited with Council prior to Construction Certificate or demolition work commencing, and details demonstrating payment are to be submitted to the Certifying Authority prior to the issue of the Construction Certificate.

To process the inspection fee and bond payment a Bond Lodgement Form must be completed with the payments (a copy of the form is attached to this consent and alternatively a copy is located on Council's website at [www.northernbeaches.nsw.gov.au](http://www.northernbeaches.nsw.gov.au)).

Reason: To ensure adequate protection of Council's infrastructure.

## **CONDITIONS TO BE SATISFIED PRIOR TO THE ISSUE OF THE CONSTRUCTION CERTIFICATE**

### 6. **Erosion and Sediment Control Plan**

An Erosion and Sediment Control Plan (ESCP) shall be prepared by an appropriately qualified person and implemented onsite prior to commencement. The ESCP must meet the requirements outlined in the Landcom publication *Managing Urban Stormwater: Soils and Construction - Volume 1, 4th Edition (2004)*. The ESCP must include the following as a minimum:

- Site Boundaries and contours
- Approximate location of trees and other vegetation, showing items for removal or retention (consistent with any other plans attached to the application)
- Location of site access, proposed roads and other impervious areas (e.g. parking areas and site facilities)
- Existing and proposed drainage patterns with stormwater discharge points
- Locations and methods of all erosion and sediment controls that must include sediment fences, stabilised site access, materials and waste stockpiles locations, location of any

- stormwater pits on the site and how they are going to be protected.
- North point and scale.

Details demonstrating compliance are to be submitted to the Certifying Authority for approval prior to the issue of the Construction Certificate.

Reason: Protection of the receiving environment.

**7. Compliance with Standards**

The development is required to be carried out in accordance with all relevant Australian Standards.

Details demonstrating compliance with the relevant Australian Standard are to be submitted to the Certifying Authority prior to the issue of the Construction Certificate.

Reason: To ensure the development is constructed in accordance with appropriate standards.

## CONDITIONS THAT MUST BE ADDRESSED PRIOR TO ANY COMMENCEMENT

**8. Protection of Trees Within Land Owned or Managed by Council**

Unless identified by the development consent, existing trees shall be protected in accordance with AS4970- 2009 Protection of Trees on Development Sites, with particular reference to Section 4, with no ground intrusion into the tree protection zone and no trunk, branch nor canopy disturbance.

Should any problems arise with regard to the existing trees on public land during the construction period, the applicant is to immediately contact Council's Tree Services section and resolve the matter to Council's satisfaction.

Reason: Tree protection and management.

## CONDITIONS TO BE COMPLIED WITH DURING DEMOLITION AND BUILDING WORK

**9. Installation and Maintenance of Sediment and Erosion Controls**

Council proactively regulates construction sites for sediment management.

Sediment and erosion controls must be installed in accordance with Landcom's 'Managing Urban Stormwater: Soils and Construction' (2004) and the Erosion and Sediment Control Plan prepared by the applicants consultant prior to commencement of any other works on site.

Erosion and sediment controls are to be adequately maintained and monitored at all times, particularly after periods of rain, and shall remain in proper operation until all development activities have been completed and vegetation cover has been re-established across 70 percent of the site, and the remaining areas have been stabilised with ongoing measures such as jute mesh or matting.

Reason: Protection of the receiving environment.

**10. No Access Through Land Owned or Managed by Council**

Site access is not approved for delivery of materials nor construction of the development through adjacent land owned or managed by Council, without the written approval of Council.

Reason: Public safety, landscape amenity and tree protection.

11. **Storage of Materials on Land Owned or Managed by Council Prohibited**

The dumping or storage of building materials, spoil, vegetation, green waste or any other material in land owned or managed by Council is prohibited.

Reason: Public safety and environmental protection.

12. **Protection of Council's Public Assets**

Any damage to Council's public assets shall be made good by the applicant, and/or the contractor, to the satisfaction of Council.

Council's public assets include, but is not limited to, the following: road, kerb and gutters, crossovers, crossings, paths, grass verge, open space and associated elements such as furniture, recreational facilities and the like, within the meaning of the Local Government Act 1993.

Existing trees shall be protected in accordance with AS4970-2009 Protection of Trees on Development Sites, with particular reference to Section 4, with no ground intrusion into the tree protection zone and no trunk, branch nor canopy disturbance.

Should any problems arise with regard to the existing trees on public land during the construction period, the applicant is to immediately contact Council's Tree Services section and resolve the matter to Council's satisfaction.

Reason: To protect and/or restore any damaged public asset.

13. **Survey Certificate**

A survey certificate prepared by a Registered Surveyor is to be provided demonstrating all perimeter walls columns and or other structural elements, floor levels and the finished roof/ridge height are in accordance with the approved plans.

Details demonstrating compliance are to be submitted to the Principal Certifying Authority.

Reason: To demonstrate the proposal complies with the approved plans.

**ON-GOING CONDITIONS THAT MUST BE COMPLIED WITH AT ALL TIMES**

14. **Swimming Pool/Spa Motor Noise**

The swimming pool / spa motor shall not produce noise levels that exceed 5dBA above the background noise when measured from the nearest property boundary.

Reason: To ensure that the development does not impact on the acoustic privacy of surrounding residential properties.

In signing this report, I declare that I do not have a Conflict of Interest.

**Signed**

**Brittany Harrison, Planner**

The application is determined on 07/06/2022, under the delegated authority of:
