RE: DA2020/0393 - 28 Lockwood Avenue BELROSE NSW 2085

I don't see a need for 51 dwellings, another gym etc. Increasing the building height creates a precedent for this area and paves the way for more similar buildings. The road and transport systems are already overloaded, hence there is no capacity for higher density property development in this area. Do not approve this proposal unless it is modified to be within the existing limitations.
