**RE: DA2019/1447 - 27 Alan Avenue SEAFORTH NSW 2092**

Our home shares the back boundary with 27 Alan Avenue. Our main objection with this development is that the 2 pool filter boxes will be on our back boundary. My wife and I spend most of our day in our back garden and we don't think it's fair that we will have the continuous noise from both filters.

Our home was built close to the back boundary and so the noise will also be heard from indoors. Mr Phillip Lane visited our home today, which provided him with a clear understanding of our concerns. We indicated an alternative location for the pool filter boxes which is more considerate.

Regards, Don Ferragina
