RE: DA2020/1233 - 68 - 90 Evans Street FRESHWATER NSW 2096

We are devastated to hear of the proposed development of a bowling green at our parents retirement home. This has caused significant stress and worry, not only to our parents, but to numerous other elderly residents. The noise is only one issue of many. These vulnerable members of our community are concerned for their safety as many members of the public will be accessing their quiet and protected sanctuary. The introduction of a bar could result in disorderly and noisy behaviour. The proposed site is currently an area where residents socialise regularly to access fresh sea air, conversation, community events. This proposal is totally inappropriate and completely opposed by many. We urge consideration to protect our elderly parents and fellow residents.

Yours sincerely
Jeff and Joni Taylor
