RE: PEX2024/0002 - 10 - 12 Dee Why Parade DEE WHY NSW 2099

I strongly object to any building project being afforded any extension of height of buildings in Dee Why. it is not appropriate in our residential environment to construct buildings whose height increase alters the fabric of our community. Northern beaches residents and ratepayers do not want Dee Why to become a Chatswood, with hemmed in, skyscrapers that do not represent or reflect the Northern beaches community and are beyond ugliness and a jarring effect on humans' connection to nature and the environment.

In addition, for nearby residents, they will lose their views, their sun, their solar panel use and gain much congestion.

The congestion and traffic in the area is at breaking point already - to deliberately increase that congestion is a ludicrous notion to the residents of the Northern beaches..
