RE: DA2021/1522 - 189 Riverview Road AVALON BEACH NSW 2107

I have lived in Avalon since 1987 and cannot believe this plan is even being considered . It will have serious environmental and aesthetic effects on the area. Will dominate the landscape and any native vegetation will be destroyed by the construction. This area is beautiful because of all the trees and bush. Why do people want to move in and destroyed this amazing suburb. If you don't want to live with trees move somewhere else as we don't want you.
