

**GEOTECHNICAL RISK MANAGEMENT POLICY FOR PITTWATER
FORM NO. 1 – To be submitted with Development Application**

Development Application for	<u>Gilbert Ponlot</u>
	Name of Applicant
Address of site	<u>19 Waterview Street, Mona Vale</u>

Declaration made by geotechnical engineer or engineering geologist or coastal engineer (where applicable) as part of a geotechnical report

I, Garth Hodgson on behalf of Hodgson Consulting Engineers Pty Ltd
(insert name) (Trading or Company Name)

on this the 8th August, 2019 certify that I am a geotechnical engineer or engineering geologist or coastal engineer as defined by the Geotechnical Risk Management Policy for Pittwater - 2009 and I am authorised by the above organisation/company to issue this document and to certify that the organisation/company has a current professional indemnity policy of at least \$2million.

Please mark appropriate box

- ☐ Prepared the detailed Geotechnical Report referenced below in accordance with the Australia Geomechanics Society's Landslide Risk Management Guidelines (AGS 2007) and the Geotechnical Risk Management Policy for Pittwater - 2009
- ☐ I am willing to technically verify that the detailed Geotechnical Report referenced below has been prepared in accordance with the Australian Geomechanics Society's Landslide Risk Management Guidelines (AGS 2007) and the Geotechnical Risk Management Policy for Pittwater - 2009
- ☐ Have examined the site and the proposed development in detail and have carried out a risk assessment in accordance with paragraph 6.0 of the Geotechnical Risk Management Policy for Pittwater - 2009. I confirm the results of the risk assessment for the proposed development are in compliance with the Geotechnical Risk Management Policy for Pittwater - 2009 and further detailed geotechnical reporting is not required for the subject site.
- ☐ Have examined the site and the proposed development/alteration in detail and am of the opinion that the Development Application only involves Minor Development/Alterations that do not require a Detailed Geotechnical Risk Assessment and hence my report is in accordance with the Geotechnical Risk Management Policy for Pittwater – 2009 requirements for Minor Development/Alterations.
- ☒ Have examined the site and the proposed development/alteration is separate form and not affected by a Geotechnical Hazard and does not require a Geotechnical report or Risk Assessment and hence my Report is in accordance with the Geotechnical Risk Management Policy for Pittwater – 2009 requirements
- ☐ Provided the coastal process and coastal forces analysis for inclusion in the Geotechnical Report

Geotechnical Report Details:

Report Title: 19 WATERVIEW STREET, MONA VALE. Geotechnical letter for proposed swimming pool– PX 00018
Report Date: 8 th August, 2019
Author : Garth Hodgson
Author's Company/Organisation : HODGSON CONSULTING ENGINEERS PTY LTD

Documentation which relate to or are relied upon in report preparation:

Drawings prepared by Freedom Pools Job No: FP 14-19, Sheets S1 to S4, Issue A and dated 1st August, 2019

I am aware that the above Geotechnical Report, prepared for the abovementioned site is to be submitted in support of a Development Application for this site and will be relied on by Pittwater Council as the basis for ensuring that the Geotechnical Risk Management aspects of the proposed development have been adequately addressed to achieve an "Acceptable Risk Management" level for the life of the structure, taken as at least 100 years unless otherwise stated and justified in the Report and that reasonable and practical measures have been identified to remove foreseeable risk.

Dear Sir,

19 WATERVIEW STREET, MONA VALE.
Geotechnical letter for proposed swimming pool

A Geotechnical Site Inspection was carried out at the subject address on the 8th August, 2019. No subsurface investigation was undertaken. The site is mapped by the Northern Beaches Council 'Pittwater LEP 2014' Geotechnical Hazard Map with no part of the site in a Hazard category, Figure 1.

Figure 1

The proposed works will comprise of the construction of a new swimming pool near the north eastern corner of the existing residence and rear deck. The proposed swimming pool is away from the eastern side boundary. Excavation is only required for the proposed swimming pool. Details of the proposed alteration and additions are shown on the plans prepared by Freedom Pools Job No: FP 14-19, Sheets S1 to S4, Issue A and dated 1st August, 2019.

The site is on the low side of the Waterview Street and is accessed by a mixed surface material driveway on south western corner of the site. The slope falls predominately to the north with a slight cross fall to the west at an average angel of 10 to 15 degree. The neighbouring properties have similar elevation and geomorphology to the subject property. No significant movement attributed slope instability was observed in the existing buildings.

We recommend where the existing rear deck post foundations are close to the proposed swimming pool excavation that investigation into the these footings depths being undertaken before excavation to ensure these existing footing are not in the zone influence of the proposed swimming pool excavation. If any footings are found to be in the zone influence then appropriate action is to be sort from and supervised by the structural engineer.

The proposed development is to be constructed with only the excavations required for the proposed swimming pool.

The property appears stable by inspection and accordingly the proposed development will have an Acceptable Risk Level in accordance with the 2009 Geotechnical Risk Management Policy for Northern Beaches Council – Pittwater subject to good engineering practice for the structural design and construction methods.
