

## **Appendix 16 - On-site Detention Checklist**

This checklist is to be used to determine the on-site stormwater disposal requirement for developments and must be completed and included with the submission of any development application for these works. Please read this form carefully for its notes, guidelines, definition and relevant policies.

For assistance and support, please contact Council's Development Engineering and Certification team on 1300 434 434.

Part 1 Location	of the Property					
House Humber			Legal Property Description			
Street			Lot			
Suburb			Section			
Postcode			DP			
Part 2 Site Detai	ils					
Northern Beaches Stormwater Regions (refer to Map 2 of Northern Beaches Council's Water Management for Development policy)			Total Site Area			
Pre-Development Impervious Area			Post-Development Impervi Area	ious		
	Is the site of the development located within an established Flood Prone Land as referred to Council's Local Environmental Plans?					No □
If yes, On-site stormwater Detention system (OSD) is not required and please proceed to part 5 of this checklist If no, please proceed to part 3 of this checklist.						
Part 3: Northern Beaches Stormwater Regions (refer to Map 2 of Northern Beaches Council's Water Management for Development policy)						
If the site of the de	velopment located withi	n Region 1	, please proceed to the part	4.1 of 1	this check	list
If the site of the de	velopment located withi	n Region 2	, please proceed to the part	4.2 of 1	this check	list
If the site of the development located within Region 3, please proceed to the part 4.3 of this checklist						
If the site of the de	•	n Region 4	, please refer to Council's W	/arriewo	ood Valley	/ Water

## Part 4 Determination of OSD Requirements

Part 4.1 Northern Beaches Stormwater Region 1			
Is the additional impervious area of the development more than 50 m <sup>2</sup> on a cumulative basis since February 1996?	Yes □ No □		
If yes, OSD is required and please refer to section 9.3.1 of Council's Water Management for Development Policy If no, OSD is not required and please proceed to the part 5 of this checklist			

Part 4.2 Northern Beaches Stormwater Region	2
---	---

## Part 4.2.1 Description of Work

Residential flat building, commercial, industrial, multiple occupancy development and subdivisions resulting in the creation of three lots or more, will require OSD in all case. Please provide a design in accordance with the section 9.3.2 of Council's Water Management for Development Policy. Any single residential building development, please proceed to part 4.2.2 of this checklist.

Part 4.2.2 Exemption				
Is the site area less th	Yes □ No □			
Does the site of the de to pass through a drai and gutter or natural c	Yes □ No □			
Is it an alternation and addition development to the existing dwellings? Yes □ No □				
If yes to any of the above questions, OSD is not required. If no to all the above questions, proceed to part 4.2.3				
Part 4.2.3 Determination of OSD Requirements				
Calculation	a) Site area m² x 0.40 (40%) =			
	OSD will not be required when (a) is greater than (b) Is OSD required for this development (tick one only)  Yes □ No □			
	If yes, provide a design in accordance with the section 9.3.2 of Council's Water Management for Development Policy.  If no, OSD is not required and please proceed to part 5 of this checklist.			

## Part 4.3 Northern Beaches Stormwater Region 3 Part 4.3.1 Stormwater Zone In the region, the method of stormwater control to be applied shall depend on the location of the site. Please refer to Map 3 of Northern Beaches Council's Water Management for Development policy. If the site of the development located within stormwater zone 1, please proceed to the part 4.3.2 of this checklist If the site of the development located within stormwater zone 2, please provide a design in accordance with the section 9.3.3.3 of Council's Water Management for Development Policy. If the site of the development located within stormwater zone 3, please provide a design in accordance with the section 9.3.3.4 of Council's Water Management for Development Policy. If the site of the development located within stormwater zone 4, please provide a design in accordance with the section 9.3.3.5 of Council's Water Management for Development Policy. Part 4.3.2 Determination of OSD requirements in Stormwater Zone 1 Part 4.3.2.1 For A New Building Yes □ No □ 1) Exemption a) Is the site area less than 400? Yes □ No □ b) Is the post-development impervious area less than 190 m<sup>2</sup>? If yes to both questions, OSD is not required. If no to any of the above questions, please process to calculation 2) Calculation $m^2 \times 0.35 =$ $m^2 + 50 =$ b) Post- development impervious area m<sup>2</sup> OSD will not be required when (b) is less than 250 m<sup>2</sup> and (a) is greater than (b) Is OSD required for this development? Yes □ No □ If yes, provide a design in accordance with the section 9.3.3.2 of Council's Water Management for Development Policy. If no, OSD is not required and please proceed to part 5. Part 4.3.2.2 For Alterations and Additions If the current impervious area of the site is more than 60% of the site area, OSD will be required. Alternatively, please proceed to the next calculation section. 1) Calculation Is the post development impervious area increased by less than 50 m<sup>2</sup>? Yes □ No □ Is the post development impervious area less than 60% of the site area? Yes $\square$ No $\square$ If yes to both questions, OSD is not required. If no to any of the above questions, provide a design in accordance with section 9.3.3.2 of Council's Water Management for Development Policy

Part 5 Disposal of Stormwater		
Does the site fall naturally towards the street? Yes $\square$ No $\square$		
If yes, provide a design in accordance with section 5.1 of Council's Water Management for Development Policy.  If no, provide a design in accordance with section 5.5 of Council's Water Management for Development		
Policy.		

Definitions	
Designed to help you fill out this application	Site area: This refers to the area of the land bounded by its existing or proposed boundaries.  Impervious area: This refers to driveways, parking spaces, pathways, paved areas, hardstand areas, roofed areas, garages and outbuildings.  Pre Development Impervious area: This refers all impervious areas of the site before the development.  Post Development Impervious areas: This refers all the impervious areas within the site after the development is completed.
