RE: DA2019/1475 - 22 Victoria Parade MANLY NSW 2095

Hello,
I would like to advise of my objection to this development.

I love living in the Isthmus and can appreciate why someone would apply to build a hotel here. I'd like to know whether this application is in keeping with development for our suburb.

This amount of traffic and parking issues we already experience here greatly impact on the quality of life for residents. Manly is already serviced by a number of large hotels and there would be hundreds of Air BNBs available.

We've just had months of the new apartment block being constructed with noise carrying into all neighbours houses.

Please consider the above when reviewing the application for this development.
