RE: DA2024/0622 - 292 Condamine Street NORTH MANLY NSW 2100

The council has approved DA2022/2084 after having considered all relevant matters such as noise parking traffic and the environment.

The new clubhouse which is part of a wider facility which includes tennis and squash courts will be a community asset (not just for golfers) well into the future.

With this in mind DA 2024/0622 proposes to establish a cafe and restaurant facility set in a visually pleasant location and will be for the enjoyment of the wider community.

As a member of Warringah Golf Club and also a long term member of the local area I wholly endorse the DA referred to above noting that such a facility has been missing from our area and I believe it will be well partonised.
