RE: DA2020/1063 - 2 / 0 Bennett Street CURL CURL NSW 2096

My family and I strongly oppose the proposed development at John Fisher Park.

The hypocrisy of this DA submission is incredible, the proposal is to expand the oval from 2 to 4 playing fields, and extend the operating hours to 9:30pm at night, yet no traffic, parking or acoustic reports have been provided.
We have a toddler who had sleeping difficulties as it is let alone without the addition of lighting, noise pollution and people yelling and returning to their vehicles up to 9:30pm at night. This would severely impact our mental health and wellbeing.
I don't understand how you are able to put such a request in where there are ample playing field nearby (with lighting) that do not have the same residential exposure. Apart from the cost to tax payers (me) who strongly oppose the additional lighting and extended playing field times it just seems like a waste of time and money.

This DA cannot be approved. Its not supported by LOCAL residents- its been noted that outside submissions have been made from people in Mosman and North Sydney?? who are not directly effected by any of the issues we have. I'm not sure why their opinion matters? when its us that are being effected.

Traffic, parking and noise will have a very serious impact on all neighbouring residents, all one has to do is attempt to drive down one of our streets when sport is in progress. It's not uncommon to become completely stuck as parents and players try to navigate through small residential streets to find a car space or pick up their children.

Also, has an environmental report been carried out to protect the local animals and wildlife- surely this has a negative impact on them.

This can not go ahead. Our mental health will be impacted negatively and lives get put at risk from increased cars to the area. This is NOT supported by me.
