

# **DEVELOPMENT APPLICATION ASSESSMENT REPORT**

Application Number:	DA2021/2027			
Responsible Officer:	Clare Costanzo			
Land to be developed (Address):	Lot 37 DP 5466, 1 Surfers Parade FRESHWATER NSW 2096			
Proposed Development:	Alterations and additions to a dwelling house			
Zoning:	Warringah LEP2011 - Land zoned R2 Low Density Residential			
Development Permissible:	Yes			
Existing Use Rights:	No			
Consent Authority:	Northern Beaches Council			
Land and Environment Court Action:	: No			
Owner:	Andrew Michael Hurst Natalie Emma Hurst			
Applicant:	Andrew Michael Hurst			
Application Lodged:	03/11/2021			
Integrated Development:	No			
Designated Development:	No			
State Reporting Category:	Residential - Alterations and additions			
Notified:	11/11/2021 to 25/11/2021			
Advertised:	Not Advertised			
Submissions Received:	1			
Clause 4.6 Variation:	Nil			

#### Estimated Cost of Works: \$ 663,185.70

# PROPOSED DEVELOPMENT IN DETAIL

Recommendation:

The proposal comprises of the following alterations and additions to an existing dwelling:

Approval

- Demolition works to part of the ground level
- Construction of a new porch
- Internal reconfiguration to ground level
- New screening along the eastern and western side of the existing rear deck
- New first floor addition comprising of a master bedroom with ensuite and walk in robe, three bedrooms and a bathroom

DA2021/2027 Page 1 of 28

#### ASSESSMENT INTRODUCTION

The application has been assessed in accordance with the requirements of the Environmental Planning and Assessment Act 1979 and the associated Regulations. In this regard:

- An assessment report and recommendation has been prepared (the subject of this report) taking into account all relevant provisions of the Environmental Planning and Assessment Act 1979, and the associated regulations;
- A site inspection was conducted and consideration has been given to the impacts of the development upon the subject site and adjoining, surrounding and nearby properties;
- Notification to adjoining and surrounding properties, advertisement (where required) and referral
  to relevant internal and external bodies in accordance with the Act, Regulations and relevant
  Development Control Plan:
- A review and consideration of all submissions made by the public and community interest groups in relation to the application;
- A review and consideration of all documentation provided with the application (up to the time of determination);
- A review and consideration of all referral comments provided by the relevant Council Officers, State Government Authorities/Agencies and Federal Government Authorities/Agencies on the proposal.

#### SUMMARY OF ASSESSMENT ISSUES

Warringah Development Control Plan - B3 Side Boundary Envelope

Warringah Development Control Plan - B7 Front Boundary Setbacks

Warringah Development Control Plan - D1 Landscaped Open Space and Bushland Setting

Warringah Development Control Plan - D8 Privacy

Warringah Development Control Plan - D13 Front Fences and Front Walls

#### SITE DESCRIPTION

Property Description:	Lot 37 DP 5466, 1 Surfers Parade FRESHWATER NSW 2096
Detailed Site Description:	The subject site consists of one (1) allotment located on the northern side of Surfers Parade, Freshwater.
	The site is regular in shape with a frontage of 10.06m along Surfers Parade and a depth of 40.23m. The site has a surveyed area of 404.6m <sup>2</sup> .
	The site is located within the R2 Low Density Residential zone and accommodates a single storey brick dwelling with a tile roof. There is an in ground swimming pool within the rear of the site. Vehicular access to an attached single garage via a concrete driveway is available from Surfers Parade.
	The site is relatively flat.
	The site is characterised by some small shrubs and lawn
1	I

DA2021/2027 Page 2 of 28

area. There is a large street tree along the road reserve to the south of the site.

# **Detailed Description of Adjoining/Surrounding Development**

Adjoining and surrounding development is characterised by a mix of detached residential dwellings and residential flat buildings within the immediate vicinity. There is a small primary school located directly to the north on the corner of Johnson Street and Oliver Street.

#### SITE HISTORY

The land has been used for residential purposes for an extended period of time. A search of Council's records has revealed the following relevant history:

- CDC2012/0407 was issued on the 12 November 2012 for alterations and additions to existing dwelling, extension of rear of house to provide new living area and lock up garage
- DA2013/0775 was approved by Council under delegation on the 9 July 2013 for tree removal
- MOD2013/0259 was issued on the 3 December 2013 for modification to CDC2012/0407 for alterations and additions to existing dwelling, extension of rear of house to provide new living area and lock up garage
- CDC2015/0559 was issued on the 13 October 2015 for the construction of an in ground swimming pool

# **ENVIRONMENTAL PLANNING AND ASSESSMENT ACT, 1979 (EPAA)**

The relevant matters for consideration under the Environmental Planning and Assessment Act, 1979,

DA2021/2027 Page 3 of 28

# are:

Section 4.15 Matters for Consideration	Comments
Section 4.15 (1) (a)(i) – Provisions of any environmental planning instrument	See discussion on "Environmental Planning Instruments" in this report.
Section 4.15 (1) (a)(ii) – Provisions of any draft environmental planning instrument	Draft State Environmental Planning Policy (Remediation of Land) seeks to replace the existing SEPP No. 55 (Remediation of Land). Public consultation on the draft policy was completed on 13 April 2018. The subject site has been used for residential purposes for an extended period of time. The proposed development retains the residential use of the site, and is not considered a contamination risk.
Section 4.15 (1) (a)(iii) – Provisions of any development control plan	Warringah Development Control Plan applies to this proposal.
Section 4.15 (1) (a)(iiia) – Provisions of any planning agreement	None applicable.
Section 4.15 (1) (a)(iv) – Provisions of the Environmental Planning and Assessment Regulation 2000 (EP&A Regulation 2000)	<u>Division 8A</u> of the EP&A Regulation 2000 requires the consent authority to consider "Prescribed conditions" of development consent. These matters have been addressed via a condition of consent.
	Clause 50(1A) of the EP&A Regulation 2000 requires the submission of a design verification certificate from the building designer at lodgement of the development application. This clause is not relevant to this application.
	Clauses 54 and 109 of the EP&A Regulation 2000 allow Council to request additional information. No additional information was requested in this case.
	Clause 92 of the EP&A Regulation 2000 requires the consent authority to consider AS 2601 - 1991: The Demolition of Structures. This matter has been addressed via a condition of consent.
	Clauses 93 and/or 94 of the EP&A Regulation 2000 requires the consent authority to consider the upgrading of a building (including fire safety upgrade of development). This matter has been addressed via a condition of consent.
	Clause 98 of the EP&A Regulation 2000 requires the consent authority to consider insurance requirements under the Home Building Act 1989. This matter has been addressed via a condition of consent.
	Clause 98 of the EP&A Regulation 2000 requires the consent authority to consider the provisions of the Building Code of Australia (BCA). This matter has been addressed via a condition of consent.
I	l

DA2021/2027 Page 4 of 28

Section 4.15 Matters for Consideration	Comments
	<u>Clause 143A</u> of the EP&A Regulation 2000 requires the submission of a design verification certificate from the building designer prior to the issue of a Construction Certificate. This clause is not relevant to this application.
Section 4.15 (1) (b) – the likely impacts of the development, including environmental impacts on the natural and built environment and social and	(i) Environmental Impact The environmental impacts of the proposed development on the natural and built environment are addressed under the Warringah Development Control Plan section in this report.
economic impacts in the locality	(ii) Social Impact The proposed development will not have a detrimental social impact in the locality considering the character of the proposal.  (iii) Economic Impact
	The proposed development will not have a detrimental economic impact on the locality considering the nature of the existing and proposed land use.
Section 4.15 (1) (c) – the suitability of the site for the development	The site is considered suitable for the proposed development.
Section 4.15 (1) (d) – any submissions made in accordance with the EPA Act or EPA Regs	See discussion on "Notification & Submissions Received" in this report.
Section 4.15 (1) (e) – the public interest	No matters have arisen in this assessment that would justify the refusal of the application in the public interest.

#### **EXISTING USE RIGHTS**

Existing Use Rights are not applicable to this application.

#### **BUSHFIRE PRONE LAND**

The site is not classified as bush fire prone land.

# **NOTIFICATION & SUBMISSIONS RECEIVED**

The subject development application has been publicly exhibited from 11/11/2021 to 25/11/2021 in accordance with the Environmental Planning and Assessment Act 1979, Environmental Planning and Assessment Regulation 2000 and the Community Participation Plan.

As a result of the public exhibition process council is in receipt of 1 submission/s from:

Name:	Address:
Mr John Patrick Brannan	15 Soldiers Avenue FRESHWATER NSW 2096

The matter raised within the submission is addressed as follows:

DA2021/2027 Page 5 of 28

#### Earthworks

# Comment:

A submission has been received by the adjoining property owner raising concern that previous earthworks and fill within the rear of the site has pushed soil up against the adjoining boundary fencing. The subject development application relates to alterations and additions to the existing dwelling and no earthworks are proposed as part of this application.

Any unauthorised building and earthworks are dealt with separate to this development application. Council has been in contact with the owner of the adjoining properties at 48 and 50 Oliver Road advising their options for resolution moving forward.

#### **REFERRALS**

Internal Referral Body	Comments
Landscape Officer	This application is for the alterations and additions to an existing residential dwelling. Alterations include the minor demolition of site structures in order to facilitate internal layout changes, with additions inclusive of a new porch at the front of the site, with a new first floor accommodating additional bedrooms and bathrooms.
	Councils Landscape Referral section has considered the application against the Warringah Local Environmental Plan, and the following Warringah DCP 2011 controls:
	<ul> <li>D1 Landscaped Open Space and Bushland Setting</li> <li>E1 Preservation of Trees or Bushland Vegetation</li> </ul>
	The Statement of Environmental Effects provided with the application notes that no significant trees or vegetation is to be removed as a result of proposed works. This statement is largely supported by the Architectural Plans as it is evident that no trees are shown to be removed. It is noted there are a number of trees in adjoining properties, within the road reserve at the front of the site, as well as within the site itself, all of which are in close proximity to proposed works. For this reason, an Arboricultural Impact Assessment has been provided.
	This Arboricultural Impact Assessment has identified a total of eight individual trees, and one tree group. Of these trees identified, three trees are located in the adjoining properties to the east, one tree group within the property to the west, one tree within the road reserve, with the remaining four trees located towards the rear of the site within the boundary. Majority of these trees/tree groups are not expected to be impacted, with Trees No. 3, 4, 6, 7, 8, and Tree Group 1, not anticipated to be impacted at all. Trees No. 2 and 5 are expected to be impacted with a total Tree Protection Zone (TPZ) encroachment of 2% and 1% respectively. Considering this minor encroachment, no negative impacts are expected and no concerns are raised. The remaining tree, Tree No. 1, is a significant canopy street tree located

DA2021/2027 Page 6 of 28

Internal Referral Body	Comments
	to the east of the existing and proposed driveway. The Arboricultural Impact Assessment has noted that proposed works are to encroach into the TPZ of this tree by a total of 11% which is technically deemed major according to AS4970-2009, albeit by 1%. Although this is the case, the Arboricultural Impact Assessment has noted that the proposed driveway is largely confined to the existing driveway footprint, hence the proposed driveway is not likely to create any further impact that that already exhibited by the existing driveway. Subject to tree protection measures and sensitive construction, it has been noted Tree No. 1 is viable for retention. For this reason, the Arborists recommendations are supported. The retention of all trees identified is vital to satisfy control E1, as key objectives of this control include "to protect and enhance the urban forest of the Northern Beaches", "to effectively manage the risks that come with an established urban forest through the professional management of trees", as well as "to protect and enhance the scenic value and character that trees and/or bushland vegetation provide".
the built form, slight concern dominate the site and negative locality. For this reason, planting be incorporated into built form. Rather than the rineed for this planting can be consent. The completion of satisfy control D1, as key of planting to maintain and enlandscaped open space with the establishment of low lying canopy trees of a size and of	
	The landscape component of the proposal is therefore supported subject to the protection of existing trees and vegetation, as well as the completion of the required screen planting.
NECC (Development Engineering)	Development Engineering has no objection to the application subject to the following conditions of consent.

External Referral Body	Comments
	The proposal was referred to Ausgrid who provided a response stating that the proposal is acceptable subject to compliance with the relevant Ausgrid Network Standards and SafeWork NSW Codes of Practice. These recommendations will be included as a condition of consent.

# **ENVIRONMENTAL PLANNING INSTRUMENTS (EPIS)\***

All, Environmental Planning Instruments (SEPPs, REPs and LEPs), Development Controls Plans and Council Policies have been considered in the merit assessment of this application.

DA2021/2027 Page 7 of 28

In this regard, whilst all provisions of each Environmental Planning Instruments (SEPPs, REPs and LEPs), Development Controls Plans and Council Policies have been considered in the assessment, many provisions contained within the document are not relevant or are enacting, definitions and operational provisions which the proposal is considered to be acceptable against.

As such, an assessment is provided against the controls relevant to the merit consideration of the application hereunder.

# State Environmental Planning Policies (SEPPs) and State Regional Environmental Plans (SREPs)

#### **SEPP 55 - Remediation of Land**

Clause 7 (1) (a) of SEPP 55 requires the Consent Authority to consider whether land is contaminated. Council records indicate that the subject site has been used for residential purposes for a significant period of time with no prior land uses. In this regard it is considered that the site poses no risk of contamination and therefore, no further consideration is required under Clause 7 (1) (b) and (c) of SEPP 55 and the land is considered to be suitable for the residential land use.

# SEPP (Building Sustainability Index: BASIX) 2004

A BASIX certificate has been submitted with the application (see Certificate No. A421351\_02 dated 29 October 2021).

A condition has been included in the recommendation of this report requiring compliance with the commitments indicated in the BASIX Certificate.

#### SEPP (Infrastructure) 2007

#### Ausgrid

Clause 45 of the SEPP requires the Consent Authority to consider any development application (or an application for modification of consent) for any development carried out:

- within or immediately adjacent to an easement for electricity purposes (whether or not the
  electricity infrastructure exists).
- immediately adjacent to an electricity substation.
- within 5.0m of an overhead power line.
- includes installation of a swimming pool any part of which is: within 30m of a structure supporting an overhead electricity transmission line and/or within 5.0m of an overhead electricity power line.

#### Comment:

The proposal was referred to Ausgrid who provided a response stating that the proposal is acceptable subject to compliance with the relevant Ausgrid Network Standards and SafeWork NSW Codes of Practice. These recommendations will be included as a condition of consent.

DA2021/2027 Page 8 of 28

# Warringah Local Environmental Plan 2011

Is the development permissible?	Yes		
After consideration of the merits of the proposal, is the development consistent with:			
aims of the LEP?			
zone objectives of the LEP?	Yes		

Principal Development Standards

Standard	Requirement	Proposed	% Variation	Complies
Height of Buildings:	8.5m	8.3m	N/A	Yes

**Compliance Assessment** 

Clause	Compliance with Requirements
2.7 Demolition requires consent	Yes
4.3 Height of buildings	Yes
5.3 Development near zone boundaries	Yes
6.2 Earthworks	Yes
6.4 Development on sloping land	Yes

# **Warringah Development Control Plan**

#### **Built Form Controls**

Built Form Control	Requirement	Proposed	% Variation*	Complies
B1 Wall height	7.2m	E: 6.7m W: 6.2m	N/A N/A	Yes Yes
B3 Side Boundary Envelope	5m	E: not within	N/A	No
	5m	W: not within	N/A	No
B5 Side Boundary Setbacks	0.9m	E: 1.3m (ground floor), 1.5m (first floor)	N/A	Yes
	0.9m	W: 1m (ground floor), 1.3m (first floor)	N/A	Yes
B7 Front Boundary Setbacks	6.5m	5.2m (porch)	20%	No
B9 Rear Boundary Setbacks	6m	10.6m	N/A	Yes
D1 Landscaped Open Space (LOS) and Bushland Setting	40%	24% or 98m <sup>2</sup>	40%	No

<sup>\*</sup>Note: The percentage variation is calculated on the *overall* numerical variation (ie: for LOS - Divide the proposed area by the numerical requirement then multiply the proposed area by 100 to equal X, then 100 minus X will equal the percentage variation. Example:  $38/40 \times 100 = 95$  then 100 - 95 = 5% variation)

DA2021/2027 Page 9 of 28

**Compliance Assessment** 

Clause	Compliance with Requirements	
A.5 Objectives	Yes	Yes
B1 Wall Heights	Yes	Yes
B3 Side Boundary Envelope	No	Yes
B5 Side Boundary Setbacks	Yes	Yes
B7 Front Boundary Setbacks	No	Yes
B9 Rear Boundary Setbacks	Yes	Yes
C2 Traffic, Access and Safety	Yes	Yes
C3 Parking Facilities	Yes	Yes
C4 Stormwater	Yes	Yes
C7 Excavation and Landfill	Yes	Yes
C8 Demolition and Construction	Yes	Yes
C9 Waste Management	Yes	Yes
D1 Landscaped Open Space and Bushland Setting	No	Yes
D2 Private Open Space	Yes	Yes
D3 Noise	Yes	Yes
D6 Access to Sunlight	Yes	Yes
D7 Views	Yes	Yes
D8 Privacy	Yes	Yes
D9 Building Bulk	Yes	Yes
D10 Building Colours and Materials	Yes	Yes
D11 Roofs	Yes	Yes
D12 Glare and Reflection	Yes	Yes
D13 Front Fences and Front Walls	No	Yes
D14 Site Facilities	Yes	Yes
D15 Side and Rear Fences	Yes	Yes
D20 Safety and Security	Yes	Yes
D21 Provision and Location of Utility Services	Yes	Yes
D22 Conservation of Energy and Water	Yes	Yes
E1 Preservation of Trees or Bushland Vegetation	Yes	Yes
E2 Prescribed Vegetation	Yes	Yes
E6 Retaining unique environmental features	Yes	Yes
E10 Landslip Risk	Yes	Yes

# **Detailed Assessment**

# **B3 Side Boundary Envelope**

# Description of non-compliance

The proposed eaves of the first floor roof addition encroach into the side boundary envelope and

DA2021/2027 Page 10 of 28

therefore present a non compliance to this control.

# Merit consideration

With regard to the consideration for a variation, the development is considered against the underlying Objectives of the Control as follows:

• To ensure that development does not become visually dominant by virtue of its height and bulk.

#### Comment:

The proposed development remains compliant with the maximum building height control and side setback control. The first floor addition is compatible with that of similar development within the immediate vicinity and is not expected to have any unreasonable bulk and scale impacts as a result of a high level of visual articulation when viewed from the streetscape and surrounding properties.

• To ensure adequate light, solar access and privacy by providing spatial separation between buildings.

#### Comment:

The proposed first floor addition is located to the south of the site and is not expected to result in any unreasonable overshadowing. The proposal complies with the relevant side setback controls and will continue to allow for a reasonable level of solar access for adjoining properties.

• To ensure that development responds to the topography of the site.

#### Comment:

The development is considered to respond to the topography of the site.

Having regard to the above assessment, it is concluded that the proposed development is consistent with the relevant objectives of WDCP and the objectives specified in s1.3 of the Environmental Planning and Assessment Act, 1979. Accordingly, this assessment finds that the proposal is supported, in this particular circumstance.

## **B7 Front Boundary Setbacks**

# Description of non-compliance

The proposal presents a setback of 5.2m to the front boundary, which is a 20% non compliance to the control requiring a 6m setback.

It should be noted the existing garage does not comply with the front setback control.

#### Merit consideration:

With regard to the consideration for a variation, the development is considered against the underlying

DA2021/2027 Page 11 of 28

# Objectives of the Control as follows:

To create a sense of openness.

#### Comment:

The proposed new entry porch does not comply with the front setback control. The entry porch is an open roofed structure and will create a sense of openness when viewed from Surfers Parade and surrounding properties.

• To maintain the visual continuity and pattern of buildings and landscape elements.

### Comment:

The proposed works will retain a similar setback to that of the existing dwelling and adjoining sites. Some new plantings will be incorporated into the front setback to maintain visual continuity.

To protect and enhance the visual quality of streetscapes and public spaces.

#### Comment:

The proposed porch will provide for additional visual articulation to enhance the visual quality of the dwelling when viewed from the streetscape and public spaces. Additionally new plantings have been included as a condition of consent to soften the built form when viewed from Surfers Parade.

To achieve reasonable view sharing.

# Comment:

Reasonable view sharing will be retained.

Having regard to the above assessment, it is concluded that the proposed development is consistent with the relevant objectives of WDCP and the objectives specified in s1.3 of the Environmental Planning and Assessment Act, 1979. Accordingly, this assessment finds that the proposal is supported, in this particular circumstance.

#### **D1 Landscaped Open Space and Bushland Setting**

#### Description of non-compliance

The proposal comprises of  $98m^2$  or 24% of the total site area of numerically compliant landscaped area. This is a 40% non compliance to the minimum control requiring a landscaped area of  $161m^2$  or 40% of the total site area.

It should be noted the existing landscaped area on site is 112.7m<sup>2</sup> or 27% of the total site area.

The proposal therefore comprises of a deficit of 14.7m<sup>2</sup> or 3% of landscaped area. This is a result of the new porch and extension to the front of the dwelling resulting in the removal of some landscaped area.

DA2021/2027 Page 12 of 28

# Merit consideration

With regard to the consideration for a variation, the development is considered against the underlying Objectives of the Control as follows:

• To enable planting to maintain and enhance the streetscape.

#### Comment:

Although the proposal seeks to remove some of the landscaped area along the Surfers Parade frontage a condition has been included requiring tree plantings within the front setback. This will be an improvement on the current Surfers Parade vista where there are no trees or shrubs within the front setback.

The condition has been included to meet the objectives of D1 Landscape Open Space and Bushland Setting of the WDCP.

• To conserve and enhance indigenous vegetation, topographical features and habitat for wildlife.

#### Comment:

The proposal does not seek to remove any indigenous vegetation and will provide some habitat for wildlife. There are no significant topographical features on site.

To provide for landscaped open space with dimensions that are sufficient to enable the
establishment of low lying shrubs, medium high shrubs and canopy trees of a size and density
to mitigate the height, bulk and scale of the building.

#### Comment:

A condition has been included requiring the applicant to provide planting to comprise of native species capable of attaining a height of 2 metres at maturity to mitigate the height, bulk and scale of the proposed alterations and additions and maintain environmental amenity. A condition has also been included requiring the retention of existing vegetation and the protection of the existing street tree.

To enhance privacy between buildings.

#### Comment:

A condition has been included to retain all existing trees within the rear of the site to ensure a reasonable level of privacy is maintained.

 To accommodate appropriate outdoor recreational opportunities that meet the needs of the occupants.

# Comment:

Sufficient outdoor recreational opportunities are available within the rear of the site.

To provide space for service functions, including clothes drying.

DA2021/2027 Page 13 of 28

#### Comment:

There is sufficient landscaped area in the rear of the site for service functions.

To facilitate water management, including on-site detention and infiltration of stormwater.

#### Comment:

A condition has been included to ensure appropriate stormwater management on site.

Having regard to the above assessment, it is concluded that the proposed development is consistent with the relevant objectives of WDCP and the objectives specified in s1.3 of the Environmental Planning and Assessment Act, 1979. Accordingly, this assessment finds that the proposal is supported, in this particular circumstance.

### **D8 Privacy**

### Merit consideration

The proposal comprises of the construction of a new first floor addition. It is not expected there will be any unreasonable privacy impacts as a result of new windows along each elevation and the new balcony fronting Surfers Parade.

The development is considered against the underlying Objectives of the Control as follows:

• To ensure the siting and design of buildings provides a high level of visual and acoustic privacy for occupants and neighbours.

#### Comment:

The proposed first floor addition is compliant with the side boundary setback controls and wall height and is considered to provide a reasonable level of privacy for occupants and neighbours. The proposed new south facing balcony will not have any direct lines of sight into habitable rooms of adjoining dwellings and will provide for increased casual surveillance.

The louvered and double hung windows along the eastern and western elevations are not expected to have any unreasonable visual privacy impacts.

• To encourage innovative design solutions to improve the urban environment.

#### Comment:

The first floor addition has been designed to harmonise with the character of the surrounding locality and provide for visual interest when viewed from Surfers Parade.

To provide personal and property security for occupants and visitors.

#### Comment:

The proposal will provide for an increased level of casual surveillance to provide personal and property security for occupants and visitors.

Having regard to the above assessment, it is concluded that the proposed development is consistent

DA2021/2027 Page 14 of 28

with the relevant objectives of WDCP and the objectives specified in s1.3 of the Environmental Planning and Assessment Act, 1979. Accordingly, this assessment finds that the proposal is supported, in this particular circumstance.

#### **D13 Front Fences and Front Walls**

The proposed front fence is 1.8m. The height of the front fence does not allow for casual surveillance or complement the existing streetscape.

A condition has been included to limit the height of the front fence to 1.5m to ensure the fence will be compatible with the character of the surrounding locality. A condition has also been included to ensure all gates shall be opened within the property boundary and will not obstruct the road reserve.

# THREATENED SPECIES, POPULATIONS OR ECOLOGICAL COMMUNITIES

The proposal will not significantly affect threatened species, populations or ecological communities, or their habitats.

#### CRIME PREVENTION THROUGH ENVIRONMENTAL DESIGN

The proposal is consistent with the principles of Crime Prevention Through Environmental Design.

#### **POLICY CONTROLS**

#### Northern Beaches Section 7.12 Contributions Plan 2021

The proposal is subject to the application of Northern Beaches Section 7.12 Contributions Plan 2021.

A monetary contribution of \$6,632 is required for the provision of new and augmented public infrastructure. The contribution is calculated as 1% of the total development cost of \$663,186.

#### CONCLUSION

The site has been inspected and the application assessed having regard to all documentation submitted by the applicant and the provisions of:

- Environmental Planning and Assessment Act 1979;
- Environmental Planning and Assessment Regulation 2000;
- All relevant and draft Environmental Planning Instruments;
- Warringah Local Environment Plan;
- Warringah Development Control Plan; and
- Codes and Policies of Council.

This assessment has taken into consideration the submitted plans, Statement of Environmental Effects, all other documentation supporting the application and public submissions, and does not result in any unreasonable impacts on surrounding, adjoining, adjacent and nearby properties subject to the conditions contained within the recommendation.

In consideration of the proposal and the merit consideration of the development, the proposal is considered to be:

DA2021/2027 Page 15 of 28

- Consistent with the objectives of the DCP
- Consistent with the zone objectives of the LEP
- Consistent with the aims of the LEP
- Consistent with the objectives of the relevant EPIs
- Consistent with the objects of the Environmental Planning and Assessment Act 1979

It is considered that the proposed development satisfies the appropriate controls and that all processes and assessments have been satisfactorily addressed.

#### RECOMMENDATION

THAT Council as the consent authority grant Development Consent to DA2021/2027 for Alterations and additions to a dwelling house on land at Lot 37 DP 5466, 1 Surfers Parade, FRESHWATER, subject to the conditions printed below:

# **DEVELOPMENT CONSENT OPERATIONAL CONDITIONS**

# 1. Approved Plans and Supporting Documentation

The development must be carried out in compliance (except as amended by any other condition of consent) with the following:

#### a) Approved Plans

Architectural Plans - Endorsed with Council's stamp			
Drawing No.	Dated	Prepared By	
DA04 Site/Roof/Sediment Erosion/Waste Management/Stormwater Concept Plan - Rev C	29 October 2021	Action Plans

In the event of any inconsistency between conditions of this consent and the drawings/documents referred to above, the conditions of this consent will prevail.

Reason: To ensure the work is carried out in accordance with the determination of Council and approved plans.

# 2. Compliance with Other Department, Authority or Service Requirements

The development must be carried out in compliance with all recommendations and requirements, excluding general advice, within the following:

Other Department, Authority or Service	EDMS Reference	Dated
Ausgrid	Ausgrid - Referral Response	01/12/2021

(NOTE: For a copy of the above referenced document/s, please see Application Tracking on Council's website <a href="https://www.northernbeaches.nsw.gov.au">www.northernbeaches.nsw.gov.au</a>)

Reason: To ensure the work is carried out in accordance with the determination and the statutory requirements of other departments, authorities or bodies.

#### 3. **Prescribed Conditions**

- (a) All building works must be carried out in accordance with the requirements of the Building Code of Australia (BCA).
- (b) BASIX affected development must comply with the schedule of BASIX commitments specified within the submitted BASIX Certificate (demonstrated compliance upon plans/specifications is required prior to the issue of the Construction Certificate);
- (c) A sign must be erected in a prominent position on any site on which building work, subdivision work or demolition work is being carried out:
  - (i) showing the name, address and telephone number of the Principal Certifying Authority for the work, and
  - (ii) showing the name of the principal contractor (if any) for any building work and a telephone number on which that person may be contacted outside working hours, and
  - (iii) stating that unauthorised entry to the work site is prohibited.

    Any such sign is to be maintained while the building work, subdivision work or

DA2021/2027 Page 17 of 28

demolition work is being carried out, but must be removed when the work has been completed.

- (d) Residential building work within the meaning of the Home Building Act 1989 must not be carried out unless the Principal Certifying Authority for the development to which the work relates (not being the Council) has given the Council written notice of the following information:
  - (i) in the case of work for which a principal contractor is required to be appointed:
    - A. the name and licence number of the principal contractor, and
    - B. the name of the insurer by which the work is insured under Part 6 of that Act.
  - (ii) in the case of work to be done by an owner-builder:
    - A. the name of the owner-builder, and
    - B. if the owner-builder is required to hold an owner-builder permit under that Act, the number of the owner-builder permit.

If arrangements for doing the residential building work are changed while the work is in progress so that the information notified under becomes out of date, further work must not be carried out unless the Principal Certifying Authority for the development to which the work relates (not being the Council) has given the Council written notice of the updated information.

- (e) Development that involves an excavation that extends below the level of the base of the footings of a building on adjoining land, the person having the benefit of the development consent must, at the person's own expense:
  - (i) protect and support the adjoining premises from possible damage from the excavation, and
  - (ii) where necessary, underpin the adjoining premises to prevent any such damage.
  - (iii) must, at least 7 days before excavating below the level of the base of the footings of a building on an adjoining allotment of land, give notice of intention to do so to the owner of the adjoining allotment of land and furnish particulars of the excavation to the owner of the building being erected or demolished.
  - (iv) the owner of the adjoining allotment of land is not liable for any part of the cost of work carried out for the purposes of this clause, whether carried out on the allotment of land being excavated or on the adjoining allotment of land.

In this clause, allotment of land includes a public road and any other public place.

Reason: Legislative requirement.

# 4. General Requirements

(a) Unless authorised by Council:

Building construction and delivery of material hours are restricted to:

- 7.00 am to 5.00 pm inclusive Monday to Friday,
- 8.00 am to 1.00 pm inclusive on Saturday,
- No work on Sundays and Public Holidays.

Demolition and excavation works are restricted to:

8.00 am to 5.00 pm Monday to Friday only.

DA2021/2027 Page 18 of 28

(Excavation work includes the use of any excavation machinery and the use of jackhammers, rock breakers, excavators, loaders and the like, regardless of whether the activities disturb or alter the natural state of the existing ground stratum or are breaking up/removing materials from the site).

- (b) Should any asbestos be uncovered on site, its demolition and removal must be carried out in accordance with WorkCover requirements and the relevant Australian Standards.
- (c) At all times after the submission the Notice of Commencement to Council, a copy of the Development Consent and Construction Certificate is to remain onsite at all times until the issue of a final Occupation Certificate. The consent shall be available for perusal of any Authorised Officer.
- (d) Where demolition works have been completed and new construction works have not commenced within 4 weeks of the completion of the demolition works that area affected by the demolition works shall be fully stabilised and the site must be maintained in a safe and clean state until such time as new construction works commence.
- (e) Onsite toilet facilities (being either connected to the sewer or an accredited sewer management facility) for workers are to be provided for construction sites at a rate of 1 per 20 persons.
- (f) Prior to the release of the Construction Certificate, payment of the Long Service Levy is required. This payment can be made at Council or to the Long Services Payments Corporation. Payment is not required where the value of the works is less than \$25,000. The Long Service Levy is calculated on 0.35% of the building and construction work. The levy rate and level in which it applies is subject to legislative change. The applicable fee at the time of payment of the Long Service Levy will apply.
- (g) The applicant shall bear the cost of all works associated with the development that occurs on Council's property.
- (h) No skip bins, building materials, demolition or excavation waste of any nature, and no hoist, plant or machinery (crane, concrete pump or lift) shall be placed on Council's footpaths, roadways, parks or grass verges without Council Approval.
- (i) Demolition materials and builders' wastes are to be removed to approved waste/recycling centres.
- (j) No trees or native shrubs or understorey vegetation on public property (footpaths, roads, reserves, etc.) or on the land to be developed shall be removed or damaged during construction unless specifically approved in this consent including for the erection of any fences, hoardings or other temporary works.
- (k) Prior to the commencement of any development onsite for:
  - i) Building/s that are to be erected
  - ii) Building/s that are situated in the immediate vicinity of a public place and is dangerous to persons or property on or in the public place
  - iii) Building/s that are to be demolished
  - iv) For any work/s that is to be carried out
  - v) For any work/s that is to be demolished

The person responsible for the development site is to erect or install on or around the development area such temporary structures or appliances (wholly within the development site) as are necessary to protect persons or property and to prevent unauthorised access to the site in order for the land or premises to be maintained in a safe or healthy condition. Upon completion of the development, such temporary structures or appliances are to be removed within 7 days.

DA2021/2027 Page 19 of 28

- (I) A "Road Opening Permit" must be obtained from Council, and all appropriate charges paid, prior to commencement of any work on Council property. The owner/applicant shall be responsible for all public utilities and services in the area of the work, shall notify all relevant Authorities, and bear all costs associated with any repairs and/or adjustments as those Authorities may deem necessary.
- (m) The works must comply with the relevant Ausgrid Network Standards and SafeWork NSW Codes of Practice.
- (n) Requirements for new swimming pools/spas or existing swimming pools/spas affected by building works.
  - (1) Child resistant fencing is to be provided to any swimming pool or lockable cover to any spa containing water and is to be consistent with the following;

Relevant legislative requirements and relevant Australian Standards (including but not limited) to:

- (i) Swimming Pools Act 1992
- (ii) Swimming Pools Amendment Act 2009
- (iii) Swimming Pools Regulation 2018
- (iv) Australian Standard AS1926 Swimming Pool Safety
- (v) Australian Standard AS1926.1 Part 1: Safety barriers for swimming pools
- (vi) Australian Standard AS1926.2 Part 2: Location of safety barriers for swimming pools.
- (2) A 'KEEP WATCH' pool safety and aquatic based emergency sign, issued by Royal Life Saving is to be displayed in a prominent position within the pool/spa area.
- (3) Filter backwash waters shall be conveyed to the Sydney Water sewerage system in sewered areas or managed on-site in unsewered areas in a manner that does not cause pollution, erosion or run off, is separate from the irrigation area for any wastewater system and is separate from any onsite stormwater management system.
- (4) Swimming pools and spas must be registered with the Division of Local Government.

Reason: To ensure that works do not interfere with reasonable amenity expectations of residents and the community.

# FEES / CHARGES / CONTRIBUTIONS

# 5. **Policy Controls**

Northern Beaches 7.12 Contributions Plan 2021

A monetary contribution of \$6,631.86 is payable to Northern Beaches Council for the provision of local infrastructure and services pursuant to section 7.12 of the Environmental Planning & Assessment Act 1979 and the Northern Beaches Section 7.12 Contributions Plan 2021. The monetary contribution is based on a development cost of \$663,185.70.

The monetary contribution is to be paid prior to the issue of the first Construction Certificate or Subdivision Certificate whichever occurs first, or prior to the issue of the Subdivision Certificate where no Construction Certificate is required. If the monetary contribution (total or in part) remains unpaid after the financial quarter that the development consent is issued, the amount

DA2021/2027 Page 20 of 28

unpaid (whether it be the full cash contribution or part thereof) will be adjusted on a quarterly basis in accordance with the applicable Consumer Price Index. If this situation applies, the cash contribution payable for this development will be the total unpaid monetary contribution as adjusted.

The proponent shall provide to the Certifying Authority written evidence (receipt/s) from Council that the total monetary contribution has been paid.

The Northern Beaches Section 7.12 Contributions Plan 2021 may be inspected at 725 Pittwater Rd, Dee Why and at Council's Customer Service Centres or alternatively, on Council's website at www.northernbeaches.nsw.gov.au

This fee must be paid prior to the issue of the Construction Certificate. Details demonstrating compliance are to be submitted to the Principal Certifying Authority.

Reason: To provide for contributions in accordance with the Contribution Plan to fund the provision of new or augmented local infrastructure and services.

# 6. Security Bond

A bond (determined from cost of works) of \$2,000 and an inspection fee in accordance with Council's Fees and Charges paid as security are required to ensure the rectification of any damage that may occur to the Council infrastructure contained within the road reserve adjoining the site as a result of construction or the transportation of materials and equipment to and from the development site.

An inspection fee in accordance with Council adopted fees and charges (at the time of payment) is payable for each kerb inspection as determined by Council (minimum (1) one inspection).

All bonds and fees shall be deposited with Council prior to Construction Certificate or demolition work commencing, and details demonstrating payment are to be submitted to the Certifying Authority prior to the issue of the Construction Certificate.

To process the inspection fee and bond payment a Bond Lodgement Form must be completed with the payments (a copy of the form is attached to this consent and alternatively a copy is located on Council's website at www.northernbeaches.nsw.gov.au).

Reason: To ensure adequate protection of Council's infrastructure.

# CONDITIONS TO BE SATISFIED PRIOR TO THE ISSUE OF THE CONSTRUCTION CERTIFICATE

# 7. Stormwater Disposal from Low Level Property

The applicant is to demonstrate how stormwater from the new development within this consent shall be disposed of to an existing approved system or in accordance with Northern Beaches Council's Water Management For Development Policy in particular the section of Stormwater Drainage from Low Level Properties. Details demonstrating that the existing approved system can accommodate the additional flows or compliance with the Northern Beaches Council's Water Management For Development Policy are to be submitted to the Certifying Authority for approval prior to the issue of the Construction Certificate.

Reason: To ensure appropriate provision for disposal and stormwater management arising from the development.

DA2021/2027 Page 21 of 28

# 8. **Boundary Identification Survey**

A boundary identification survey, prepared by a Registered Surveyor, is to be prepared in respect of the subject site.

The plans submitted for the Construction Certificate are to accurately reflect the property boundaries as shown on the boundary identification survey, with setbacks between the property boundaries and the approved works consistent with those nominated on the Approved Plans of this consent.

Details demonstrating compliance are to be submitted to the Certifying Authority prior to the issue of any Construction Certificate.

Reason: To ensure all approved works are constructed within the subject site and in a manner anticipated by the development consent.

#### 9. Compliance with Standards

The development is required to be carried out in accordance with all relevant Australian Standards.

Details demonstrating compliance with the relevant Australian Standard are to be submitted to the Certifying Authority prior to the issue of the Construction Certificate.

Reason: To ensure the development is constructed in accordance with appropriate standards.

#### 10. Sydney Water "Tap In"

The approved plans must be submitted to the Sydney Water Tap in service, prior to works commencing, to determine whether the development will affect any Sydney Water assets and/or easements. The appropriately stamped plans must then be submitted to the Certifying Authority demonstrating the works are in compliance with Sydney Water requirements.

Please refer to the website www.sydneywater.com.au for:

- o "Tap in" details see http://www.sydneywater.com.au/tapin
- Guidelines for Building Over/Adjacent to Sydney Water Assets.

Or telephone 13 000 TAP IN (1300 082 746).

Reason: To ensure compliance with the statutory requirements of Sydney Water.

#### 11. Front Fence and Gate

The height of any front fence and/or gate is restricted to 1.5m in height.

Reason: To maintain residential amenity.

# CONDITIONS THAT MUST BE ADDRESSED PRIOR TO ANY COMMENCEMENT

# 12. **Project Arborist**

A Project Arborist with minimum AQF Level 5 in arboriculture shall be engaged to provide tree protection measures in accordance with Australian Standard 4970-2009 Protection of Trees on Development Sites. The Project Arborist is to specify and oversee all tree protection measures such as tree protection fencing, trunk and branch protection, and ground protection.

The Project Arborist is to supervise all demolition, excavation and construction works near all

DA2021/2027 Page 22 of 28

trees to be retained, including construction methods near the existing trees to protect tree roots, trunks, branches and canopy. Where required, manual excavation is to occur ensuring no tree root at or >25mm (Ø) is damaged by works, unless approved by the Project Arborist.

Existing ground levels shall be maintained within the tree protection zone of trees to be retained, unless authorised by the Project Arborist.

The Project Arborist shall be in attendance and supervise all works as nominated in the Arboricultural Impact Assessment, including:

- i) the installation of tree protection measures,
- ii) all demolition, excavation and potential root pruning within the TPZ's and SRZ's of trees to be retained.
- iii) any tree pruning to take place.

All tree protection measures specified must:

- a) be in place before work commences on the site, and
- b) be maintained in good condition during the construction period, and
- c) remain in place for the duration of the construction works.

The Project Arborist shall provide certification to the Certifying Authority that all recommendations listed for the protection of the existing tree(s) have been carried out satisfactorily to ensure no impact to the health of the tree(s). Photographic documentation of the condition of all trees to be retained shall be recorded, including at commencement, during the works and at completion.

#### Note:

- i) A separate permit or development consent may be required if the branches or roots of a protected tree on the site or on an adjoining site are required to be pruned or removed.
- ii) Any potential impact to trees as assessed by the Project Arborist will require redesign of any approved component to ensure existing trees upon the subject site and adjoining properties are preserved and shall be the subject of a modification application where applicable.

Reason: Tree protection.

# CONDITIONS TO BE COMPLIED WITH DURING DEMOLITION AND BUILDING WORK

#### 13. Protection of Existing Street Trees

All existing street trees in the vicinity of the works shall be retained during all construction stages, and the street trees fronting the development site shall be protected by tree protection fencing in accordance with Australian Standard 4687-2007 Temporary Fencing and Hoardings, and in accordance with Section 4 of Australian Standard 4970-2009 Protection of Trees on Development Sites.

As a minimum the tree protection fencing for street tree(s) fronting the development site shall consist of standard 2.4m panel length to four sides, unless otherwise directed by an Arborist with minimum AQF Level 5 in arboriculture.

All fencing shall be located to allow for unrestricted and safe pedestrian access upon the road verge.

Should any problems arise with regard to the existing or proposed trees on public land during construction, Council's Tree Services section is to be contacted immediately to resolve the matter to Council's satisfaction and at the cost of the applicant.

DA2021/2027 Page 23 of 28

Reason: Tree protection.

# 14. Tree and Vegetation Protection

- a) Existing trees and vegetation shall be retained and protected, including:
- i) all trees and vegetation within the site not approved for removal, excluding exempt trees and vegetation under the relevant planning instruments of legislation,
- ii) all trees and vegetation located on adjoining properties,
- iii) all road reserve trees and vegetation.
- b) Tree protection shall be undertaken as follows:
- i) tree protection shall be in accordance with Australian Standard 4970-2009 Protection of Trees on Development Sites, including the provision of temporary fencing to protect existing trees within 5 metres of development,
- ii) existing ground levels shall be maintained within the tree protection zone of trees to be retained, unless authorised by an Arborist with minimum AQF Level 5 in arboriculture,
- iii) removal of existing tree roots at or >25mm ( $\emptyset$ ) diameter is not permitted without consultation with an Arborist with minimum AQF Level 5 in arboriculture,
- iv) no excavated material, building material storage, site facilities, nor landscape materials are to be placed within the canopy dripline of trees and other vegetation required to be retained,
- v) structures are to bridge tree roots at or >25mm ( $\emptyset$ ) diameter unless directed by an Arborist with minimum AQF Level 5 in arboriculture on site,
- vi) excavation for stormwater lines and all other utility services is not permitted within the tree protection zone, without consultation with an Arborist with minimum AQF Level 5 in arboriculture including advice on root protection measures,
- vii) should either or all of v), vi) and vii) occur during site establishment and construction works, an Arborist with minimum AQF Level 5 in arboriculture shall provide recommendations for tree protection measures. Details including photographic evidence of works undertaken shall be submitted by the Arborist to the Certifying Authority,
- viii) any temporary access to, or location of scaffolding within the tree protection zone of a protected tree or any other tree to be retained during the construction works is to be undertaken using the protection measures specified in sections 4.5.3 and 4.5.6 of Australian Standard 4970-2009 Protection of Trees on Development Sites,
- ix) the activities listed in section 4.2 of Australian Standard 4970-2009 Protection of Trees on Development Sites shall not occur within the tree protection zone of any tree on the lot or any tree on an adjoining site,
- x) tree pruning from within the site to enable approved works shall not exceed 10% of any tree canopy, and shall be in accordance with Australian Standard 4373-2007 Pruning of Amenity Trees,
- xi) the tree protection measures specified in this clause must: i) be in place before work commences on the site, and ii) be maintained in good condition during the construction period, and iii) remain in place for the duration of the construction works.
- c) Tree protection shall specifically be undertaken in accordance with the recommendations in the Arboricultural Impact Assessment, as listed in the following sections:
- i) Section 8 Conclusions,
- ii) Section 9 Recommendations,
- iii) Section 10 Arboricultural Work Method Statement (AMS) and Tree Protection Requirements,
- iv) Section 11 Hold Points,
- v) Appendix 1B Proposed Site Plan and Tree Protection Plan.

The Certifying Authority must ensure that:

DA2021/2027 Page 24 of 28

- d) The arboricultural works listed in c) are undertaken and certified by an Arborist as compliant to the recommendations of the Arboricultural Impact Assessment.
- e) The activities listed in section 4.2 of Australian Standard 4970-2009 Protection of Trees on Development Sites, do not occur within the tree protection zone of any tree, and any temporary access to, or location of scaffolding within the tree protection zone of a protected tree, or any other tree to be retained on the site during the construction, is undertaken using the protection measures specified in sections 4.5.3 and 4.5.6 of that standard.

Note: All street trees within the road verge and trees within private property are protected under Northern Beaches Council development control plans, except where Council's written consent for removal has been obtained. The felling, lopping, topping, ringbarking, or removal of any tree (s) is prohibited.

Reason: Tree and vegetation protection.

#### 15. Road Reserve

The applicant shall ensure the public footways and roadways adjacent to the site are maintained in a safe condition at all times during the course of the work.

Reason: Public safety.

# 16. Removing, Handling and Disposing of Asbestos

Any asbestos material arising from the demolition process shall be removed and disposed of in accordance with the following requirements:

- Work Health and Safety Act;
- Work Health and Safety Regulation;
- Code of Practice for the Safe Removal of Asbestos [NOHSC:2002 (1998)];
- Guide to the Control of Asbestos Hazards in Buildings and Structures [NOHSC: 3002 (1998);
- Clause 42 of the Protection of the Environment Operations (Waste) Regulation 2005;
   and
- The demolition must be undertaken in accordance with Australian Standard AS2601 The Demolition of Structures.

Reason: For the protection of the environment and human health.

### 17. Survey Certificate

A survey certificate prepared by a Registered Surveyor is to be provided demonstrating all perimeter walls columns and or other structural elements, floor levels and the finished roof/ridge height are in accordance with the approved plans.

Details demonstrating compliance are to be submitted to the Principal Certifying Authority.

Reason: To demonstrate the proposal complies with the approved plans.

#### 18. Installation and Maintenance of Sediment Control

Prior to any works commencing on site, including demolition, sediment and erosion controls must be installed in accordance with Landcom's 'Managing Urban Stormwater: Soils and Construction' (2004). Techniques used for erosion and sediment control on site are to be adequately maintained and monitored at all times, particularly after periods of rain, and shall remain in proper operation until all development activities have been completed and the site is sufficiently stabilised with vegetation.

DA2021/2027 Page 25 of 28

Reason: To protect the surrounding environment from the effects of sedimentation and erosion from the site.

# 19. Waste Management During Development

The reuse, recycling or disposal of waste during works must be done generally in accordance with the Waste Management Plan for this development.

Details demonstrating compliance must be submitted to the Principal Certifying Authority.

Reason: To ensure demolition and construction waste is recycled or reused and to limit landfill.

# CONDITIONS WHICH MUST BE COMPLIED WITH PRIOR TO THE ISSUE OF THE OCCUPATION CERTIFICATE

# 20. Required Screen Planting

Screen planting shall be planted in accordance with the following:

i) at minimum, 4x screening shrubs are required to be planted within the front setback, adjacent to the southern boundary. Suggested species include: *Acmena smithii 'Firescreen', Acmena smithii 'Minor'*, or *Syzygium Cascade'*.

The selected planting is to comprise of native species capable of attaining a height of 2 metres at maturity.

Plants are to be installed at minimum 1 metre intervals and be of a minimum container size of 200mm at planting in a garden bed prepared with a suitable free draining soil mix and minimum 50mm depth of mulch.

Reason: To maintain environmental amenity.

# 21. Condition of Retained Vegetation - Project Arborist

Prior to the issue of an Occupation Certificate, a report prepared by the project arborist shall be submitted to the Certifying Authority, assessing the health and impact on all existing trees required to be retained, including the following information:

- a) compliance to any Arborist recommendations for tree protection generally and during excavation works.
- b) extent of damage sustained by vegetation as a result of the construction works,
- c) any subsequent remedial works required to ensure the long term retention of the vegetation.

Reason: Tree protection.

#### 22. Stormwater Disposal

The stormwater drainage works shall be certified as compliant with all relevant Australian Standards and Codes by a suitably qualified person. Details demonstrating compliance are to be submitted to the Principal Certifying Authority prior to the issue of any interim / final Occupation Certificate.

Reason: To ensure appropriate provision for the disposal of stormwater arising from the development.

# 23. Removal of All Temporary Structures/Material and Construction Rubbish

Once construction has been completed all silt and sediment fences, silt, rubbish, building debris, straw bales and temporary fences are to be removed from the site.

DA2021/2027 Page 26 of 28

Details demonstrating compliance are to be submitted to the Principal Certifying Authority prior to the issue of any interim / final Occupation Certificate.

Reason: To ensure bushland management. (DACPLF01)

#### 24. House / Building Number

House/building number is to be affixed to the building to be readily visible from the public domain.

Details demonstrating compliance are to be submitted to the Principal Certifying Authority prior to the issue of any interim / final Occupation Certificate.

Reason: Proper identification of buildings.

# ON-GOING CONDITIONS THAT MUST BE COMPLIED WITH AT ALL TIMES

#### 25. Landscape Maintenance

If any landscape materials/components or planting under this consent fails, they are to be replaced with similar materials/components. Trees, shrubs and groundcovers required to be planted under this consent are to be mulched, watered and fertilised as required at the time of planting.

If any tree, shrub or groundcover required to be planted under this consent fails, they are to be replaced with similar species to maintain the landscape theme and be generally in accordance with the approved Landscape Plan and any conditions of consent.

All weeds are to be removed and controlled in accordance with the NSW Biosecurity Act 2015.

Reason: To maintain local environmental amenity.

#### 26. Undesirable Trees

Leighton Green Cypress *Cupressocyparis leylandii* or any of its cultivars, or any other Undesirable Trees identified by Council, must not be planted on the site for the life of the development.

In the event of any inconsistency between this condition and the development application documents, this condition will prevail to the extent of the inconsistency.

Reason: To reduce the potential for adverse amenity effects such as overshadowing, loss of views and loss of plant diversity.

#### 27. Front Gates

All front gates shall open wholly onto the property boundary. For the avoidance of doubt no gates are permitted to open into the road reserve.

Reason: To maintain safety and residential amenity.

In signing this report, I declare that I do not have a Conflict of Interest.

#### Signed
