Subject: DA2020/1489 Submission

I refer to DA 2020/1489 Subdivision - Demolition works and the subdivision of one lot into 3 Torrens Title lots to include a 19 lot Community Title Scheme within proposed Lot 1 and associated civil works

The developer needs to adhere to the Land and Environment court ruling that the existing original farmhouse be renovated and retained. The fact that the developers turned a blind eye to the vandalism of this historic building was deliberate and quite disgusting.
