RE: DA2019/0200 - 130 Old Pittwater Road BROOKVALE NSW 2100

I object to the destruction of yet, even MORE bushland, I object to the endangerment of threatened species and native wildlife. This area is home to many species of native fauna including wallabies, echidnas and breeding pairs of the Powerful Owl which is listed on the New South Wales Threatened Species Conservation Act as Vulnerable. There are also tributaries from here leading to the ocean, which, in turn, when contaminated (as they will be) will further threaten even more animals.

This development will impact directly on not only the homes backing onto the wildlife corridor but closes the corridor which connects through to Manly Dam. There is also a bush fire thread with light industry beside the bush (presuming you allow any to be retained in our local area).

Please consider the reason the beaches are so lovely, we have the bush near the ocean, we have had enough destruction of animals and bush with the development of the hospital and Manly Vale School. The area needs protecting.

Regards

Christine
