RE: DA2019/1260 - 29 North Avalon Road AVALON BEACH NSW 2107

It appears the State Government make the decisions on applications such as this one. Their policy is to cram as much development into each suburb as possible, regardless of local council and residents objections. What is the point of "Have Your Say", when absolutely no notice is taken of objections, and the destruction of our leafy suburbs.

The two adjacent blocks in question, were already partially cleared last week, of a substantial amount of bushland. Why is this happening before a decision has been made?

This is not what local residents want in their Avalon Beach suburb.

Please keep our large ambience bushy blocks, for our wildlife, our families, and future inhabitants.
