RE: DA2019/1119 - 4 / 0 Bennett Street CURL CURL NSW 2096

The current market helps drive people into freshwater and they don't have stall holders that conflict with surrounding business which is truly a community run market. The organisers are locals trying to support locals. I don't think another market is necessary as the hard work that's gone into building the organic scarecrow markets buzz and vibe will be deflated and another market hinders the growth of an already legitimate market. Does freshwater need another market further away from the community centre? No is my answer
