Subject: DA 2021/1620

Dear council,

I have missed the submission date but still want to register a concern.

This application raised huge concerns due to the likely noise reverberating across the Freshwater basin.

Loud music, outdoor parties, sometimes fireworks reverberate and bounce back & forth & is very disturbing.

There are already 2 outdoor balconies which are noisy so any expansion will be terrible for our community, 7 days a week.

Parking could also be an issue with increased patronage.

Our relaxed lifestyle and amenity will be severely impacted.

Please consider my submission.
