**RE: PEX2020/0009 - 150 Darley Road MANLY NSW 2095**

I note that all the documents refer to "to amend the Manly Local Environmental Plan to permit additional permitted uses at the former Manly Hospital site at 150 Darley Road, Manly."  
Is there somewhere that describes exactly what these additional permitted uses are ? Without that, the submission is excessively vague and could include almost anything,
