RE: DA2020/0838 - 86 Quirk Street DEE WHY NSW 2099

Hello, we live across the street from 86. The size of the dwelling does not appear to directly affect us, but I am very concerned about this application. It shows absolutely no regard for the neighbours on either side. Boxing one in and taking the entire sea view from the other. This design will line the pockets of a developer while drastically reducing the property values For these hardworking families who are unlucky enough to live next door. It is not a fair or respectful application and I would not like to see a precedent set where we do not care about our neighbours.
