**RE: DA2021/1314 - 33 Oaks Avenue DEE WHY NSW 2099**

We Live directly across from the new medical centre and being on level 3 eye level with the signage. All of our bedrooms/windows are facing oaks ave and are very concerned with our quality of sleep with the lighting for the signage. We have already had to deal with months and months of Wheatley wake up due to construction way before 7am.

Please reconsider as we have young children.

We love it here the building is amazing and whilst across the road defiantly needs a spuce up not a bright blue sign lighted up is what is needed. We are owners so this need to be reconsidered. We pay premium to live here and wish that this is all considered in the outcome.

Many Thanks

Lauren
