RE: DA2020/0111 - 5 Waterview Street MONA VALE NSW 2103

I am concerned as direct neighbor we didn't receive any notification of this development. There is only a battle ax drive (no 3) between us and this development. I am concerned mostly that this development now directly overlooks our back yard and the higher deck may impact our privacy and add additional noise into the back of our house . I am not able to clearly understand the new plans Versus the existing area.so it may be that my concerns are unfounded. Is someone from council able to talk me through this . Can you also advise why we not notified of this proposed development when we would be the closest house impacted by this .

Thank you
Teresa Eastwood
