RE: DA2019/0195 - 54 Irrubel Road NEWPORT NSW 2106

Main concern is the colour of this building from South and East sides.

Can I request it is changed to same colour as roof, Monument. Reason, over the years enjoy the back of my property which was secluded from any buildings, beautiful native forest. This neighbour has cut cabbage trees and turpentine from the back of their property, even cut my trees to obtain sunlight on the back of this property, they have built retaining wall gardens, at back boundary, which now I can see their house on Irrubel and don't want to see this building, as well. Can you check the BAL rating on this land as it should be a BAL FZ not BAL19. Where is the sewerage connected from? Why is this build so close to the back of property?
