To the team at Manly council,

As a long standing customer of Hugos in Manly, I'm writing to support the new proposal for the expansion of seating to the restaurant.

I believe this will be a positive addition to the venue & the community, with the design & function fitting in beautifully with the surrounding area.

This will not only benefit the many local customers of the venue (families, businesses etc) but also be a plus for the many visitors to our region with the addition of the upgrade & extended outdoor seating on the wharf.

Kindest regards,  
Claire Carroll
