

DEVELOPMENT APPLICATION ASSESSMENT REPORT

Application Number:	DA2024/0520
----------------------------	-------------

Responsible Officer:	Michael French
Land to be developed (Address):	Lot A DP 170912, 53 Addison Road MANLY NSW 2095
Proposed Development:	Alterations and additions to a dwelling house including a carport
Zoning:	Manly LEP2013 - Land zoned R1 General Residential
Development Permissible:	Yes
Existing Use Rights:	No
Consent Authority:	Northern Beaches Council
Land and Environment Court Action:	No
Owner:	Saw Bee Ooi
Applicant:	Saw Bee Ooi

Application Lodged:	06/05/2024
Integrated Development:	No
Designated Development:	No
State Reporting Category:	Residential - Alterations and additions
Notified:	15/05/2024 to 29/05/2024
Advertised:	Not Advertised
Submissions Received:	1
Clause 4.6 Variation:	Nil
Recommendation:	Approval

Estimated Cost of Works:	\$ 275,000.00
---------------------------------	---------------

PROPOSED DEVELOPMENT IN DETAIL

The applicant seeks development consent for the following:

Lower ground floor:

- Demolition works.
- Internal reconfiguration.
- Addition of an alfresco to the rear of the dwelling with an adjoining bathroom.

Ground floor:

- Demolition works including to the deck to the rear..
- Internal reconfiguration.
- Addition of a deck to the rear of the dwelling with a privacy screen along the northern and southern

elevations.

External

- New roof/awning schedule.

ASSESSMENT INTRODUCTION

The application has been assessed in accordance with the requirements of the Environmental Planning and Assessment Act 1979 and the associated Regulations. In this regard:

- An assessment report and recommendation has been prepared (the subject of this report) taking into account all relevant provisions of the Environmental Planning and Assessment Act 1979, and the associated regulations;
- A site inspection was conducted and consideration has been given to the impacts of the development upon the subject site and adjoining, surrounding and nearby properties;
- Notification to adjoining and surrounding properties, advertisement (where required) and referral to relevant internal and external bodies in accordance with the Act, Regulations and relevant Development Control Plan;
- A review and consideration of all submissions made by the public and community interest groups in relation to the application;
- A review and consideration of all documentation provided with the application (up to the time of determination);
- A review and consideration of all referral comments provided by the relevant Council Officers, State Government Authorities/Agencies and Federal Government Authorities/Agencies on the proposal.

SUMMARY OF ASSESSMENT ISSUES

Manly Local Environmental Plan 2013 - 6.9 Foreshore scenic protection area

Manly Development Control Plan - 4.1.4 Setbacks (front, side and rear) and Building Separation

Manly Development Control Plan - 4.1.5 Open Space and Landscaping

Manly Development Control Plan - 4.1.6 Parking, Vehicular Access and Loading (Including Bicycle Facilities)

SITE DESCRIPTION

Property Description:	Lot A DP 170912 , 53 Addison Road MANLY NSW 2095
Detailed Site Description:	<p>The subject site consists of one (1) allotment located on the northern side of Addison Road.</p> <p>The site is irregular in shape with a frontage of 11.375m along Addison Road and a depth of 39.52m. The site has a surveyed area of 433.1m².</p> <p>The site is located within the R1 General Residential zone pursuant to the Manly Development Control Plan and accommodates a two (2) storey dwelling.</p> <p>The site has a mild downward slope toward the rear of the site.</p>

The site has a mix of vegetation throughout. There are no details of any threatened species on site.

Detailed Description of Adjoining/Surrounding Development

Adjoining and surrounding development is characterised by a mix of dwellings within an R1 General Residential zone.

Map:

SITE HISTORY

A search of Council's records has revealed that there are no recent or relevant applications for this site.

The land has been used for residential purposes for an extended period of time.

ENVIRONMENTAL PLANNING AND ASSESSMENT ACT, 1979 (EPAA)

The relevant matters for consideration under the Environmental Planning and Assessment Act, 1979, are:

Section 4.15 Matters for Consideration	Comments
Section 4.15 (1) (a)(i) – Provisions of any environmental planning instrument	See discussion on “Environmental Planning Instruments” in this report.
Section 4.15 (1) (a)(ii) – Provisions of any draft environmental planning instrument	There are no current draft environmental planning instruments.

Section 4.15 Matters for Consideration	Comments
Section 4.15 (1) (a)(iii) – Provisions of any development control plan	Manly Development Control Plan applies to this proposal.
Section 4.15 (1) (a)(iiia) – Provisions of any planning agreement	None applicable.
Section 4.15 (1) (a)(iv) – Provisions of the Environmental Planning and Assessment Regulation 2021 (EP&A Regulation 2021)	<p>Part 4, <u>Division 2</u> of the EP&A Regulation 2021 requires the consent authority to consider "Prescribed conditions" of development consent. These matters have been addressed via a condition of consent.</p> <p><u>Clauses 36 and 94</u> of the EP&A Regulation 2021 allow Council to request additional information. No additional information was requested in this case.</p> <p><u>Clause 61</u> of the EP&A Regulation 2021 requires the consent authority to consider AS 2601 - 1991: The Demolition of Structures. This matter has been addressed via a condition of consent.</p> <p><u>Clause 69</u> of the EP&A Regulation 2021 requires the consent authority to consider insurance requirements under the Home Building Act 1989. This matter has been addressed via a condition of consent.</p> <p><u>Clause 69</u> of the EP&A Regulation 2021 requires the consent authority to consider the provisions of the Building Code of Australia (BCA). This matter has been addressed via a condition of consent.</p>
Section 4.15 (1) (b) – the likely impacts of the development, including environmental impacts on the natural and built environment and social and economic impacts in the locality	<p>(i) Environmental Impact The environmental impacts of the proposed development on the natural and built environment are addressed under the Manly Development Control Plan section in this report.</p> <p>(ii) Social Impact The proposed development will not have a detrimental social impact in the locality considering the character of the proposal.</p> <p>(iii) Economic Impact The proposed development will not have a detrimental economic impact on the locality considering the nature of the existing and proposed land use.</p>
Section 4.15 (1) (c) – the suitability of the site for the development	The site is considered suitable for the proposed development.
Section 4.15 (1) (d) – any submissions made in accordance with the EPA Act or EPA Regs	See discussion on "Notification & Submissions Received" in this report.
Section 4.15 (1) (e) – the public interest	No matters have arisen in this assessment that would justify the refusal of the application in the public interest.

EXISTING USE RIGHTS

Existing Use Rights are not applicable to this application.

BUSHFIRE PRONE LAND

The site is not classified as bush fire prone land.

NOTIFICATION & SUBMISSIONS RECEIVED

The subject application has been publicly exhibited from 15/05/2024 to 29/05/2024 in accordance with the Environmental Planning and Assessment Act 1979, Environmental Planning and Assessment Regulation 2021 and the Community Participation Plan.

As a result of the public exhibition process council is in receipt of 1 submission/s from:

Name:	Address:
Mrs Ingrid Maria Hunt Mr Lindsay Bruce Conway Hunt	8 Stuart Street MANLY NSW 2095

The following issues were raised in the submissions:

- Reflectivity
- Hedge Screening

The above issues are addressed as follows:

- **Reflectivity**

The submission raised concern about the potential reflectivity issues of the proposed Colorbond roofing for neighboring properties.

Comment:

This concern has been considered via the following condition:

External Finishes to Roofs

The external finish to the roof shall have a Solar Absorptance (SA) greater than 0.43 in accordance with the requirements of the BASIX Certificate to minimise solar reflections to neighbouring properties. Any roof with a reflective finish is not permitted.

Green roofs and areas where solar panels (PV) are installed are excluded from conforming to the SA range.

Details demonstrating compliance are to be submitted to the Certifier prior to the issue of the construction certificate.

Reason: To ensure that excessive glare or reflectivity nuisance does not occur as a result of the development.

- **Hedge Screening**

The submission raised concern that the health of the hedge screening adjacent to the common fence to the north of the subject site could be compromised by excavation within its root zone..

Comment:

This concern has been considered via the following condition:

Tree and Vegetation Protection

a) Existing trees and vegetation shall be retained and protected, including:

- i) all prescribed trees within the site, or otherwise existing trees nominated for retention on the approved plans,*
- ii) all trees and vegetation located on adjoining properties,*
- iii) all trees and vegetation within the road reserve.*

b) Tree and vegetation protection shall be undertaken as follows:

- i) tree protection shall be in accordance with AS4970-2009 Protection of trees on development sites,*
- ii) the following arboricultural requirements shall be adhered to unless authorised by an Arborist with minimum AQF level 5 qualifications: existing ground levels shall be maintained within the tree protection zone of trees and vegetation to be retained; removal of existing tree and vegetation roots at or >25mm (Ø) diameter is not permitted; no excavated material, building material storage, site facilities, nor landscape materials are to be placed within the canopy dripline of trees and other vegetation required to be retained; and structures are to bridge tree roots at or >25mm (Ø) diameter,*
- iii) the activities listed in section 4.2 of AS4970-2009 Protection of trees on development sites, shall not occur within the tree protection zone of any tree on the lot or any tree on an adjoining site,*
- iv) tree pruning from within the site to enable approved works shall not exceed 10% of any tree canopy, and shall be in accordance with AS4373-2007 Pruning of amenity trees,*
- v) the tree protection measures specified in this clause must: i) be in place before work commences on the site, and ii) be maintained in good condition during the construction period, and iii) remain in place for the duration of the construction works.*

The Principal Certifier must ensure that:

- c) The arboricultural works listed in a) and b) are undertaken as compliance to AS4970-2009 Protection of trees on development sites.*

Reason: Tree and vegetation protection.

REFERRALS

Internal Referral Body	Comments
Landscape Officer	<p>The proposed alterations and additions to the existing dwelling and a new carport are not in proximity to prescribed trees within adjoining residential properties or otherwise existing trees and vegetation within adjoining properties are protected by existing structures, retaining walls and hardstand. Standard Council conditions for tree and vegetation protection shall be imposed, including protection of the existing Callistemon sp. street tree.</p>
NECC (Bushland and Biodiversity)	<p>The comments in this referral relate to the following applicable controls and provisions:</p> <ul style="list-style-type: none"> • Manly LEP - Clause 6.5 Terrestrial Biodiversity • Manly DCP Clause 5.4.2 - Threatened Species and Critical Habitat Lands • Manly DCP Clause 3.3.1 - Landscaping in Bandicoot Habitat <p>The subject site is located within declared habitat for the endangered population of long-nosed bandicoot North Head. As such, a threatened species "test of significance" is required. This assessment has been conducted by a Council Biodiversity Officer and has concluded that no significant impacts would take place.</p> <p>Conditions will be applied to avoid and minimise potential impacts to the endangered bandicoot population.</p> <p>No native vegetation or fauna habitat would be impacted, the development is designed, sited and will be managed to avoid any significant adverse environmental impact.</p>
NECC (Development Engineering)	<p>The proposal is for alterations and additions to the existing dwelling including a carport over the existing hardstand and additions at the rear. The submitted stormwater plan is acceptable subject to conditions. No objections to approval subject to conditions as recommended.</p>
Strategic and Place Planning (Heritage Officer)	HERITAGE COMMENTS
	Discussion of reason for referral
	<p>The proposal has been referred to Heritage as the subject property in close proximity three heritage items, listed in Schedule 5 of the Manly LEP 2013.</p> <p>Item 12 - All stone kerbs - Manly municipal area</p> <p>Item 176 - Street trees - Addison Road (from Bruce Avenue to Reddall Street)</p> <p>Item 1227 - House - 8 Stuart Street</p>
	Details of heritage items affected
	<p>Details of the heritage items as contained within the Northern Beaches Heritage inventory are as follows:</p>

Internal Referral Body	Comments		
	Item I2 - All stone kerbs <u>Statement of significance:</u> Stone kerbs are heritage listed. <u>Physical description:</u> Sandstone kerbing to streets relating to paving and kerbing of streets in the nineteenth century. Mostly located within Manly Village area and adjacent lower slopes of Eastern Hill and Fairlight.		
	Item I76 - Street trees <u>Statement of significance:</u> Permanent mature street planting of late 19th century and early 20th century (from Bruce Avenue to Reddall Street). <u>Physical description:</u> Mixture of species planted in carriageway; includes Norfolk Island Pines, Port Jackson Figs, Ficus Hilli.		
	Item I227 - House <u>Statement of significance:</u> Its architectural detail unusual for the area - notably timber detailing. A good representative of a Federation Arts and Crafts style house with Art Nouveau style detailing to balconies. <u>Physical description:</u> (Now divided into two flats) Two storey brick residence re-roofed in concrete tiles. Significant timber detailing to balcony, including structural supports. Small diamond - pattern leadlight windows, to ground floor.		
	Other relevant heritage listings		
	SEPP (Biodiversity and Conservation) 2021	No	
	Australian Heritage Register	No	
	NSW State Heritage Register	No	
	National Trust of Aust (NSW) Register	No	
	RAIA Register of 20th Century Buildings of Significance	No	
	Other	No	
Consideration of Application			
The proposal seeks consent for alterations and additions to the existing building, including a rear extension, a new carport with a gabled roof and also an awning to the existing gable end along Addison Road.			
The subject site is not a listed heritage item under the Manly Local Environmental Plan 2013, however, it is noted that, the property is			

Internal Referral Body	Comments
	<p>a Federation era dwelling built in the early 1900s. The existing building makes a positive contribution to the streetscape and if the additions are sympathetic to the existing building this contribution will be enhanced. The proposed awning is considered to have a negative impact upon the style and character of the original building. The proposed new decorative elements to the existing front gable is not acceptable and existing half timbered effect in gable must be retained. The removal of the existing chimney, which is noted on the architectural drawings as <i>"Existing skylight opening to be infilled & made good; finish to match existing roof."</i>, is not supported as this is an important feature of the existing building.</p> <p>The rear additions are considered to not impact upon the significance of the heritage item at 8 Stuart Street due to the existing rear extensions of the heritage item and the physical separation afforded by the existing dense landscaping. Given the proposed works do not involve any works to the existing driveway crossover, there is no adverse impact upon the significance of the heritage listed street trees or the stone kerbs.</p> <p>Therefore, no objections are raised on heritage grounds subject to four conditions.</p> <p><u>Consider against the provisions of CL5.10 of Manly LEP 2013.</u> Is a Conservation Management Plan (CMP) Required? No Has a CMP been provided? No Is a Heritage Impact Statement required? No Has a Heritage Impact Statement been provided? No</p>

External Referral Body	Comments
Ausgrid - SEPP (Transport and Infrastructure) 2021, s2.48	The proposal was referred to Ausgrid who provided a response stating that the proposal is acceptable subject to compliance with the relevant Ausgrid Network Standards and SafeWork NSW Codes of Practice. These recommendations will be included as a condition of consent.

ENVIRONMENTAL PLANNING INSTRUMENTS (EPIs)*

All, Environmental Planning Instruments (SEPPs and LEPs), Development Controls Plans and Council Policies have been considered in the merit assessment of this application.

In this regard, whilst all provisions of each Environmental Planning Instruments (SEPPs and LEPs), Development Controls Plans and Council Policies have been considered in the assessment, many provisions contained within the document are not relevant or are enacting, definitions and operational provisions which the proposal is considered to be acceptable against.

As such, an assessment is provided against the controls relevant to the merit consideration of the application hereunder.

State Environmental Planning Policies (SEPPs) and State Regional Environmental Plans (SREPs)

SEPP (Sustainable Buildings) 2022

A BASIX certificate has been submitted with the application (see Certificate No.A1731040_02 dated 27 March 2024).

A condition has been included in the recommendation of this report requiring compliance with the commitments indicated in the BASIX Certificate.

SEPP (Transport and Infrastructure) 2021

Ausgrid

Section 2.48 of Chapter 2 requires the Consent Authority to consider any development application (or an application for modification of consent) for any development carried out:

- within or immediately adjacent to an easement for electricity purposes (whether or not the electricity infrastructure exists).
- immediately adjacent to an electricity substation.
- within 5.0m of an overhead power line.
- includes installation of a swimming pool any part of which is: within 30m of a structure supporting an overhead electricity transmission line and/or within 5.0m of an overhead electricity power line.

Comment:

The proposal was referred to Ausgrid who raised no objections.

SEPP (Resilience and Hazards) 2021

Chapter 4 – Remediation of Land

Sub-section 4.6 (1)(a) of Chapter 4 requires the Consent Authority to consider whether land is contaminated. Council records indicate that the subject site has been used for residential purposes for a significant period of time with no prior land uses. In this regard it is considered that the site poses no risk of contamination and therefore, no further consideration is required under sub-section 4.6 (1)(b) and (c) of this Chapter and the land is considered to be suitable for the residential land use.

Manly Local Environmental Plan 2013

Is the development permissible?	Yes
After consideration of the merits of the proposal, is the development consistent with:	
aims of the LEP?	Yes
zone objectives of the LEP?	Yes

Principal Development Standards

Standard	Requirement	Proposed	% Variation	Complies
Height of Buildings:	8.5m	7.4m	N/A	Yes
Floor Space Ratio	FSR: 0.6:1	FSR: 0.43:1 (189.31m ²)	N/A	Yes

Compliance Assessment

Clause	Compliance with Requirements
4.3 Height of buildings	Yes
4.4 Floor space ratio	Yes
4.5 Calculation of floor space ratio and site area	Yes
6.2 Earthworks	Yes
6.4 Stormwater management	Yes
6.5 Terrestrial biodiversity	Yes
6.8 Landslide risk	Yes
6.9 Foreshore scenic protection area	Yes
6.12 Essential services	Yes

Detailed Assessment

6.9 Foreshore scenic protection area

Under this clause, development consent must not be granted to development on land to which this clause applies unless the consent authority has considered the following matters:

- (a) impacts that are of detriment to the visual amenity of harbour or coastal foreshore, including overshadowing of the foreshore and any loss of views from a public place to the foreshore,
- (b) measures to protect and improve scenic qualities of the coastline,
- (c) suitability of development given its type, location and design and its relationship with and impact on the foreshore,
- (d) measures to reduce the potential for conflict between land-based and water-based coastal activities.

Comment:

The proposal has adequately considered the above-mentioned matters.

Mainly Development Control Plan

Built Form Controls

Built Form Controls - Site Area: 433.1m ²	Requirement	Proposed	% Variation*	Complies
4.1.2.1 Wall Height	N: 7.2m (based on gradient 1:9)	5.6m	N/A	Yes

	S: 7.4m (based on gradient 1:6.8)	5.2m	N/A	Yes

5 Special Character Areas and Sites	Yes	Yes
5.4.1 Foreshore Scenic Protection Area	Yes	Yes
5.4.2 Threatened Species and Critical Habitat Lands	Yes	Yes
Schedule 1 – Maps accompanying the DCP	Yes	Yes

Detailed Assessment

4.1.4 Setbacks (front, side and rear) and Building Separation

Description of non-compliance

Clause 4.1.4.2 Side setbacks and secondary street frontages requires that built structures are setback a minimum of one third of the height of the adjacent external wall of the proposed building.

The proposal requires a northern side setback of 1.9m. The development proposes a setback of 1.1m, causing a 42.1% variation.

The proposal requires a southern side setback of 1.7m. The development proposes a setback of 1.5m, causing an 11.8% variation.

The proposed works within the side setback area are considered to have an acceptable impact upon the streetscape character, as well up adjacent and surrounding dwellings. Given that the works forming a non-compliance are not deemed excessive and do not propose an unreasonable amenity impact in this instance, strict compliance with the requirements of this clause is not required, subject to the proposal meeting the objectives of the clause. In this regard, assessment against the objectives of this clause is conducted below.

Merit consideration:

With regard to the consideration for a variation, the development is considered against the underlying Objectives of the Control as follows:

Objective 1) To maintain and enhance the existing streetscape including the desired spatial proportions of the street, the street edge and the landscape character of the street.

Comment:

The proposal is considered to sufficiently maintain and enhance the existing streetscape, encompassing the desired spatial proportions of the street, street edge, and landscape character.

Objective 2) To ensure and enhance local amenity by:

- *providing privacy;*
- *providing equitable access to light, sunshine and air movement; and*
- *facilitating view sharing and maintaining adequate space between buildings to limit impacts on views and vistas from private and public spaces.*
- *defining and adding character to the streetscape including the provision of adequate space between buildings to create a rhythm or pattern of spaces; and*
- *facilitating safe and adequate traffic conditions including levels of visibility around corner lots at the street intersection.*

Comment:

The bulk and scale of the built form is minimised/softened by the site topography. The proposal does not unreasonably increase the bulk and scale of the dwelling, and as such, will not unreasonably minimise equitable access to light, sunshine and air movement. The siting of the proposed works provides sufficient space/screening to and from surrounding and adjacent properties. The proposed development is not considered to unreasonably impact view sharing. The proposed works will not adversely impact traffic conditions.

Objective 3) To promote flexibility in the siting of buildings.

Comment:

The development is not considered to have any impact on access within the site. The proposed works are not considered to unreasonably impact amenity.

Objective 4) To enhance and maintain natural features by:

- *accommodating planting, including deep soil zones, vegetation consolidated across sites, native vegetation and native trees;*
- *ensuring the nature of development does not unduly detract from the context of the site and particularly in relation to the nature of any adjoining Open Space lands and National Parks; and*
- *ensuring the provisions of State Environmental Planning Policy No 19 - Urban Bushland are satisfied.*

Comment:

All mature canopy trees and vegetation are proposed to remain on site. The nature of development is not considered to unduly detract from the context of the site. It is considered that the *provisions of State Environmental Planning Policy No 19 - Urban Bushland* have been adequately satisfied.

Objective 5) To assist in appropriate bush fire asset protection zones.

Comment:

The site is not within a bushfire zone. No further assessment is required.

Having regard to the above assessment, it is concluded that the proposed development is consistent with the relevant objectives of MLEP 2013 / MDCP and the objectives specified in section 1.3(a) of the Environmental Planning and Assessment Act, 1979. Accordingly, this assessment finds that the proposal is supported, in this particular circumstance.

4.1.5 Open Space and Landscaping

Description of non-compliance

Clause 4.1.5.1 Minimum Residential Total Open Space Requirements requires the following of sites within the OS3 zone:

- A minimum Total Open Space equating to 55% of the site area.

The development proposes a Total Open Space calculation of 38.2% (165.44m²).

It should be noted that the amount of Landscaped Area provided on site remains as existing. Nevertheless, as the proposal does not wholly comply with the requirements of the subject clause, assessment against the objectives of the clause has been outlined below.

Merit consideration:

With regard to the consideration for a variation, the development is considered against the underlying Objectives of the Control as follows:

Objective 1) To retain and augment important landscape features and vegetation including remnant populations of native flora and fauna.

Comment:

The proposal will adequately retain important landscape features and vegetation.

Objective 2) To maximise soft landscaped areas and open space at ground level, encourage

appropriate tree planting and the maintenance of existing vegetation and bushland.

Comment:

The site maintains adequate opportunity for the planting of trees and maintenance of existing vegetation.

Objective 3) To maintain and enhance the amenity (including sunlight, privacy and views) of the site, the streetscape and the surrounding area.

Comment:

The proposed development is not considered to impact view sharing, not interrupting any significant view corridors. Sunlight access, visual and acoustic privacy will be maintained by the proposal.

Objective 4) To maximise water infiltration on-site with porous landscaped areas and surfaces and minimise stormwater runoff.

Comment:

It is considered that the proposal will maintain the necessary permeable surfaces for water infiltration to the water table.

Objective 5) To minimise the spread of weeds and the degradation of private and public open space.

Comment:

The proposal is not expected to assist in the spread of weeds and the degradation of private and public open space.

Objective 6) To maximise wildlife habitat and the potential for wildlife corridors.

Comment:

The proposal is not expected to adversely impact wildlife habitat or the potential for wildlife corridors.

Having regard to the above assessment, it is concluded that the proposed development is consistent with the relevant objectives of MLEP 2013 / MDCP and the objectives specified in section 1.3(a) of the Environmental Planning and Assessment Act, 1979. Accordingly, this assessment finds that the proposal is supported, in this particular circumstance.

4.1.6 Parking, Vehicular Access and Loading (Including Bicycle Facilities)

Whilst the proposal is numerically inconsistent with Schedule 3 of MDCP 2013 that requires two (2) parking spaces, the provision of a second car parking space within the subject site is not achievable within the existing site context, nor do the proposed works generate a demand for additional car parking.

Additionally, it is considered that there is adequate on-street parking available to fulfil the needs of the residents.

In this regard, it is considered acceptable that the proposal does not increase the amount of parking available on the site.

THREATENED SPECIES, POPULATIONS OR ECOLOGICAL COMMUNITIES

The proposal will not significantly affect threatened species, populations or ecological communities, or their habitats.

CRIME PREVENTION THROUGH ENVIRONMENTAL DESIGN

The proposal is consistent with the principles of Crime Prevention Through Environmental Design.

POLICY CONTROLS

Northern Beaches Section 7.12 Contributions Plan 2022

The proposal is subject to the application of Northern Beaches Section 7.12 Contributions Plan 2022.

A monetary contribution of \$2,750 is required for the provision of new and augmented public infrastructure. The contribution is calculated as 1% of the total development cost of \$275,000.

CONCLUSION

The site has been inspected and the application assessed having regard to all documentation submitted by the applicant and the provisions of:

- Environmental Planning and Assessment Act 1979;
- Environmental Planning and Assessment Regulation 2021;
- All relevant and draft Environmental Planning Instruments;
- Manly Local Environment Plan;
- Manly Development Control Plan; and
- Codes and Policies of Council.

This assessment has taken into consideration the submitted plans, Statement of Environmental Effects, all other documentation supporting the application and public submissions, and does not result in any unreasonable impacts on surrounding, adjoining, adjacent and nearby properties subject to the conditions contained within the recommendation.

In consideration of the proposal and the merit consideration of the development, the proposal is considered to be:

- Consistent with the objectives of the DCP
- Consistent with the zone objectives of the LEP
- Consistent with the aims of the LEP
- Consistent with the objectives of the relevant EPIs
- Consistent with the objects of the Environmental Planning and Assessment Act 1979

It is considered that the proposed development satisfies the appropriate controls and that all processes and assessments have been satisfactorily addressed.

RECOMMENDATION

THAT Council as the consent authority grant Development Consent to DA2024/0520 for Alterations and additions to a dwelling house including a carport on land at Lot A DP 170912, 53 Addison Road,

MANLY, subject to the conditions printed below:

Terms and Reasons for Conditions

Under section 88(1)(c) of the EP&A Regulation, the consent authority must provide the terms of all conditions and reasons for imposing the conditions other than the conditions prescribed under section 4.17(11) of the EP&A Act. The terms of the conditions and reasons are set out below.

GENERAL CONDITIONS

1. Approved Plans and Supporting Documentation

Development must be carried out in accordance with the following approved plans (stamped by Council) and supporting documentation, except where the conditions of this consent expressly require otherwise.

Approved Plans			
Plan Number	Revision Number	Plan Title	Draw
DA03	A	SITE ANALYSIS	Action
DA04	A	SITE / ROOF / SEDIMENT EROSION /WASTE MANAGEMENT /STORMWATER CONCEPT PLAN	Action
DA05	A	EXISTING LOWER GROUND FLOOR PLAN	Action
DA06	A	EXISTING GROUND FLOOR PLAN	Action
DA07	A	PROPOSED LOWER GROUND FLOOR PLAN	Action
DA08	A	PROPOSED GROUND FLOOR PLAN	Action
DA09	A	NORTH / EAST ELEVATION	Action
DA10	A	SOUTH / WEST ELEVATION	Action
DA11	A	LONG / CROSS SECTION	Action

Approved Reports and Documentation	
Document Title	Version Number
Waste Management Plan	-
BASIX Certificate	A173

In the event of any inconsistency between the approved plans, reports and documentation, the approved plans prevail.

In the event of any inconsistency between the approved plans and a condition of this consent, the condition prevails.

Reason: To ensure all parties are aware of the approved plans and supporting documentation that applies to the development.

2. Compliance with Other Department, Authority or Service Requirements

The development must be carried out in compliance with all recommendations and requirements, excluding general advice, within the following:

Other Department, Authority or Service	EDMS Reference	Dated
Ausgrid	Ausgrid Referral Response	undated

(NOTE: For a copy of the above referenced document/s, please see Application Tracking on Council's website www.northernbeaches.nsw.gov.au)

Reason: To ensure the work is carried out in accordance with the determination and the statutory requirements of other departments, authorities or bodies.

3. Prescribed Conditions

- (a) All building works must be carried out in accordance with the requirements of the Building Code of Australia (BCA).
- (b) BASIX affected development must comply with the schedule of BASIX commitments specified within the submitted BASIX Certificate (demonstrated compliance upon plans/specifications is required prior to the issue of the Construction Certificate);
- (c) A sign must be erected in a prominent position on any site on which building work, subdivision work or demolition work is being carried out:
 - (i) showing the name, address and telephone number of the Principal Certifier for the work, and
 - (ii) showing the name of the principal contractor (if any) for any building work and a telephone number on which that person may be contacted outside working hours, and
 - (iii) stating that unauthorised entry to the work site is prohibited.

Any such sign is to be maintained while the building work, subdivision work or demolition work is being carried out, but must be removed when the work has been completed.
- (d) Residential building work within the meaning of the Home Building Act 1989 must not be carried out unless the Principal Certifier for the development to which the work relates (not being the Council) has given the Council written notice of the following information:
 - (i) in the case of work for which a principal contractor is required to be appointed:
 - A. the name and licence number of the principal contractor, and
 - B. the name of the insurer by which the work is insured under Part 6 of that Act,
 - (ii) in the case of work to be done by an owner-builder:
 - A. the name of the owner-builder, and
 - B. if the owner-builder is required to hold an owner-builder permit under that Act, the number of the owner-builder permit.

If arrangements for doing the residential building work are changed while the work is in progress so that the information notified under becomes out of date, further work must not be carried out unless the Principal Certifier for the development to which the work relates (not being the Council) has given the Council written notice of the updated information.

- (e) Development that involves an excavation that extends below the level of the base of the footings of a building on adjoining land, the person having the benefit of the development consent must, at the person's own expense:
 - (i) protect and support the adjoining premises from possible damage from the excavation, and
 - (ii) where necessary, underpin the adjoining premises to prevent any such damage.
 - (iii) must, at least 7 days before excavating below the level of the base of the footings of a building on an adjoining allotment of land, give notice of intention to do so to the owner of the adjoining allotment of land and furnish particulars of the excavation to the owner of the building being erected or demolished.
 - (iv) the owner of the adjoining allotment of land is not liable for any part of the cost of work carried out for the purposes of this clause, whether carried out on the allotment of land being excavated or on the adjoining allotment of land.

In this clause, allotment of land includes a public road and any other public place.

Reason: Legislative requirement.

4. General Requirements

- (a) Unless authorised by Council:
Building construction and delivery of material hours are restricted to:
 - 7.00 am to 5.00 pm inclusive Monday to Friday,
 - 8.00 am to 1.00 pm inclusive on Saturday,
 - No work on Sundays and Public Holidays.

Demolition and excavation works are restricted to:

- 8.00 am to 5.00 pm Monday to Friday only.

(Excavation work includes the use of any excavation machinery and the use of jackhammers, rock breakers, excavators, loaders and the like, regardless of whether the activities disturb or alter the natural state of the existing ground stratum or are breaking up/removing materials from the site).

- (b) Construction certificate plans are to be in accordance with all finished levels identified on approved plans. Notes attached to plans indicating tolerances to levels are not approved.
- (c) Should any asbestos be uncovered on site, its demolition and removal must be carried out in accordance with WorkCover requirements and the relevant Australian Standards.
- (d) At all times after the submission of the Notice of Commencement to Council, a copy of the Development Consent and Construction Certificate is to remain onsite at all times until the issue of an Occupation Certificate. The consent shall be available for perusal of any Authorised Officer.
- (e) Where demolition works have been completed and new construction works have not commenced within 4 weeks of the completion of the demolition works that area affected by the demolition works shall be fully stabilised and the site must be maintained in a safe and clean state until such time as new construction works commence.
- (f) Onsite toilet facilities (being either connected to the sewer or an accredited sewer management facility) for workers are to be provided for construction sites at a rate of 1

per 20 persons.

- (g) Prior to the release of the Construction Certificate, payment of the following is required:
 - i) Long Service Levy - Payment should be made to Service NSW (online or in person) or alternatively to Northern Beaches Council in person at a Customer Service Centre. Payment is not required where the value of the works is less than \$250,000. The Long Service Levy is calculated on 0.25% of the building and construction work. The levy rate and level in which it applies is subject to legislative change. The applicable fee at the time of payment of the Long Service Levy will apply.
 - ii) Section 7.11 or Section 7.12 Contributions Plan – Payment must be made to Northern Beaches Council. Where the subject land to which the development is proposed is subject to either a Section 7.11 or 7.12 Contributions Plan, any contribution to which the development is liable under the respective plan that applies is to be paid to Council. The outstanding contribution will be indexed at time of payment in accordance with the relevant Contributions Plan.
 - iii) Housing and Productivity Contribution - Payment must be made on the NSW Planning Portal for development to which this contribution applies. The amount payable is subject to indexation at the time of payment.
- (h) The applicant shall bear the cost of all works associated with the development that occurs on Council's property.
- (i) No skip bins, building materials, demolition or excavation waste of any nature, and no hoist, plant or machinery (crane, concrete pump or lift) shall be placed on Council's footpaths, roadways, parks or grass verges without Council Approval.
- (j) Demolition materials and builders' wastes are to be removed to approved waste/recycling centres.
- (k) No trees or native shrubs or understorey vegetation on public property (footpaths, roads, reserves, etc.), on the land to be developed, or within adjoining properties, shall be removed or damaged during excavation or construction unless specifically approved in this consent including for the erection of any fences, hoardings or other temporary works.
- (l) Prior to the commencement of any development onsite for:
 - i) Building/s that are to be erected
 - ii) Building/s that are situated in the immediate vicinity of a public place and is dangerous to persons or property on or in the public place
 - iii) Building/s that are to be demolished
 - iv) For any work/s that is to be carried out
 - v) For any work/s that is to be demolished

The person responsible for the development site is to erect or install on or around the development area such temporary structures or appliances (wholly within the development site) as are necessary to protect persons or property and to prevent unauthorised access to the site in order for the land or premises to be maintained in a safe or healthy condition. Upon completion of the development, such temporary structures or appliances are to be removed within 7 days.
- (m) A "Road Opening Permit" must be obtained from Council, and all appropriate charges paid, prior to commencement of any work on Council property. The owner/applicant shall be responsible for all public utilities and services in the area of the work, shall notify all relevant Authorities, and bear all costs associated with any repairs and/or adjustments as those Authorities may deem necessary.

- (n) The works must comply with the relevant Ausgrid Network Standards and SafeWork NSW Codes of Practice.
- (o) Requirements for new swimming pools/spas or existing swimming pools/spas affected by building works.
 - (1) Child resistant fencing is to be provided to any swimming pool or lockable cover to any spa containing water and is to be consistent with the following;

Relevant legislative requirements and relevant Australian Standards (including but not limited) to:

 - (i) Swimming Pools Act 1992
 - (ii) Swimming Pools Amendment Act 2009
 - (iii) Swimming Pools Regulation 2018
 - (iv) Australian Standard AS1926 Swimming Pool Safety
 - (v) Australian Standard AS1926.1 Part 1: Safety barriers for swimming pools
 - (vi) Australian Standard AS1926.2 Part 2: Location of safety barriers for swimming pools.
 - (2) A 'KEEP WATCH' pool safety and aquatic based emergency sign, issued by Royal Life Saving is to be displayed in a prominent position within the pool/spa area.
 - (3) Filter backwash waters shall be conveyed to the Sydney Water sewerage system in sewered areas or managed on-site in unsewered areas in a manner that does not cause pollution, erosion or run off, is separate from the irrigation area for any wastewater system and is separate from any onsite stormwater management system.
 - (4) Swimming pools and spas must be registered with the Division of Local Government.

Reason: To ensure that works do not interfere with reasonable amenity expectations of residents and the community.

FEES / CHARGES / CONTRIBUTIONS

5. Policy Controls

Northern Beaches Section 7.12 Contributions Plan 2022

A monetary contribution of \$2,750.00 is payable to Northern Beaches Council for the provision of local infrastructure and services pursuant to section 7.12 of the Environmental Planning & Assessment Act 1979 and the Northern Beaches Section 7.12 Contributions Plan (as amended).

The monetary contribution is based on a development cost of \$275,000.00.

The total amount payable will be adjusted at the time the payment is made, in accordance with the provisions of the Northern Beaches Section 7.12 Contributions Plan (as amended).

Details demonstrating compliance, by way of written receipts issued by Council, are to be submitted to the Certifier prior to issue of any Construction Certificate or, if relevant, the Subdivision Certificate (whichever occurs first).

A copy of the Contributions Plan is available for inspection at 725 Pittwater Road, Dee Why or on Council's website at Northern Beaches Council - Development Contributions.

Reason: To provide for contributions in accordance with the Contribution Plan to fund the provision of new or augmented local infrastructure and services.

6. Security Bond

A bond (determined from cost of works) of \$2,000 and an inspection fee in accordance with Council's Fees and Charges paid as security are required to ensure the rectification of any damage that may occur to the Council infrastructure contained within the road reserve adjoining the site as a result of construction or the transportation of materials and equipment to and from the development site.

An inspection fee in accordance with Council adopted fees and charges (at the time of payment) is payable for each kerb inspection as determined by Council (minimum (1) one inspection).

All bonds and fees shall be deposited with Council prior to Construction Certificate or demolition work commencing, and details demonstrating payment are to be submitted to the Certifier prior to the issue of the Construction Certificate.

To process the inspection fee and bond payment a Bond Lodgement Form must be completed with the payments (a copy of the form is attached to this consent and alternatively a copy is located on Council's website at www.northernbeaches.nsw.gov.au).

Reason: To ensure adequate protection of Council's infrastructure.

BUILDING WORK – BEFORE ISSUE OF A CONSTRUCTION CERTIFICATE

7. No Clearing of Vegetation

Unless otherwise exempt, no vegetation is to be cleared prior to issue of a Construction Certificate.

Details demonstrating compliance are to be submitted to the Certifier prior to issue of Construction Certificate.

Reason: To protect native vegetation.

8. Fencing for Wildlife Passage

Any new permanent fencing (with the exception of swimming pool fencing) is to be made passable to native fauna through the provision of access gaps or raised fencing to provide appropriate ground clearance. Any access gaps are to be a minimum of 150mm wide x 100mm high at ground level and distance between gaps is not to exceed more than 6 metres.

Any internal and/or boundary fencing and gates are to be designed to include 'access spaces' suitable for Long-nosed Bandicoots trying to access the property post-construction. These 'access spaces' are to be provided at intervals of no greater than 3m apart and are to be located at the bottom of the fencing/gate, being 300mm long and at least 150mm high and are not to be obstructed. Alternatively the length of the fence is to be raised 150mm off the ground. This condition does not apply to pool fencing.

Plans are to be certified as complying with this condition and provided to the Certifier prior to issue of the Construction Certificate.

Reason: To preserve wildlife corridors.

9. On-Site Stormwater Detention Details

The Applicant is to provide a certification of drainage plans detailing the provision of on-site stormwater detention in accordance with Northern Beaches Council's Water Management for Development Policy, and generally in accordance with the concept drainage plans prepared by Taylor Consulting, drawing number Storm -1, dated 20/3/2024. Detailed drainage plans are to be prepared by a suitably qualified Civil Engineer, who has membership to Engineers Australia, National Engineers Register (NER) or Professionals Australia (RPENG) and registered in the General Area of Practice for civil engineering.

Detailed drainage plans, including engineering certification, are to be submitted to the Certifier for approval prior to the issue of the Construction Certificate.

Reason: To ensure appropriate provision for the disposal of stormwater and stormwater management arising from the development.

10. Installation and Maintenance of Sediment Control

Prior to any works commencing on site, including demolition, an erosion and sediment control plan must be prepared by a suitably qualified person in accordance with the following documents and provided to the Principal Certifier:

1. Council's relevant development control plan,
2. The guidelines set out in the NSW Department of Housing manual 'Managing Urban Stormwater: Soils and Construction Certificate' (the Blue Book) (as amended from time to time), and
3. The 'Do it Right On-Site, Soil and Water Management for the Construction Industry' (Southern Sydney Regional Organisation of Councils and the Natural Heritage Trust) (as amended from time to time).

Techniques used for erosion and sediment control on site are to be adequately maintained and monitored at all times, particularly after periods of rain, and shall remain in proper operation until all development activities have been completed and the site is sufficiently stabilised with vegetation.

Reason: To ensure no substance other than rainwater enters the stormwater system and waterways.

11. Front gable and new front awning

The proposed awning is considered to have a negative impact upon the style and character of the original building. The proposed new decorative elements to the existing front gable is not acceptable and existing half timbered effect in gable must be retained. Details demonstration compliance with this condition are to be submitted to Council prior to the issue of the construction certificate.

Reason: To maintain the integrity of the existing building and its contribution to the streetscape.

12. Existing chimney

The existing chimney must be retained, as it is an important feature of the existing building. Details demonstration compliance with this condition are to be submitted to Council

prior to the issue of the construction certificate.

Reason: To maintain the integrity of the existing building and its contribution to the streetscape.

13. Waste Management Plan

A Waste Management Plan must be prepared for this development. The Plan must be in accordance with the Development Control Plan.

Details demonstrating compliance must be provided to the Certifier prior to the issue of the Construction Certificate.

Reason: To ensure that any demolition and construction waste, including excavated material, is reused, recycled or disposed of in an environmentally friendly manner.

14. Compliance with Standards

The development is required to be carried out in accordance with all relevant Australian Standards.

Details demonstrating compliance with the relevant Australian Standard are to be submitted to the Certifier prior to the issue of the Construction Certificate.

Reason: To ensure the development is constructed in accordance with appropriate standards.

15. Sydney Water "Tap In"

The approved plans must be submitted to the Sydney Water Tap in service, prior to works commencing, to determine whether the development will affect any Sydney Water assets and/or easements. The appropriately stamped plans must then be submitted to the Certifier demonstrating the works are in compliance with Sydney Water requirements.

Please refer to the website www.sydneywater.com.au for:

- "Tap in" details - see <http://www.sydneywater.com.au/tapin>
- Guidelines for Building Over/Adjacent to Sydney Water Assets.

Or telephone 13 000 TAP IN (1300 082 746).

Reason: To ensure compliance with the statutory requirements of Sydney Water.

16. External Finishes to Roof

The external finish to the roof shall have a Solar Absorptance (SA) greater than 0.43 in accordance with the requirements of the BASIX Certificate to minimise solar reflections to neighbouring properties. Any roof with a reflective finish is not permitted.

Green roofs and areas where solar panels (PV) are installed are excluded from conforming to the SA range.

Details demonstrating compliance are to be submitted to the Certifier prior to the issue of the construction certificate.

Reason: To ensure that excessive glare or reflectivity nuisance does not occur as a result of the development.

DURING BUILDING WORK

17. Protection of Existing Street Trees

All existing street trees in the vicinity of the works shall be retained during all construction stages, and the street tree fronting the development site shall be protected by tree protection fencing in accordance with Section 4 of AS4970-2009 Protection of trees on development sites. As a minimum the tree protection fencing for street tree fronting the development site shall consist of standard panel lengths to four sides and in accordance with Australian Standard 4687-2007 Temporary Fencing and Hoardings, unless otherwise directed by an Arborist with minimum AQF Level 5 in arboriculture. All fencing shall be located to allow for unrestricted and safe pedestrian access upon the road verge.

All street trees within the road verge are protected under Northern Beaches Council development control plans, except where Council's written consent for removal has been obtained. The felling, lopping, topping, ringbarking, or removal of any tree(s) is prohibited. No excavated material, building material storage, site facilities, nor landscape materials are to be placed within the canopy dripline of street trees.

Reason: Street tree protection.

18. Tree and Vegetation Protection

a) Existing trees and vegetation shall be retained and protected, including:

- i) all prescribed trees within the site, or otherwise existing trees nominated for retention on the approved plans,
- ii) all trees and vegetation located on adjoining properties,
- iii) all trees and vegetation within the road reserve.

b) Tree and vegetation protection shall be undertaken as follows:

- i) tree protection shall be in accordance with AS4970-2009 Protection of trees on development sites,
- ii) the following arboricultural requirements shall be adhered to unless authorised by an Arborist with minimum AQF level 5 qualifications: existing ground levels shall be maintained within the tree protection zone of trees and vegetation to be retained; removal of existing tree and vegetation roots at or >25mm (Ø) diameter is not permitted; no excavated material, building material storage, site facilities, nor landscape materials are to be placed within the canopy dripline of trees and other vegetation required to be retained; and structures are to bridge tree roots at or >25mm (Ø) diameter,
- iii) the activities listed in section 4.2 of AS4970-2009 Protection of trees on development sites, shall not occur within the tree protection zone of any tree on the lot or any tree on an adjoining site,
- iv) tree pruning from within the site to enable approved works shall not exceed 10% of any tree canopy, and shall be in accordance with AS4373-2007 Pruning of amenity trees,
- v) the tree protection measures specified in this clause must: i) be in place before work commences on the site, and ii) be maintained in good condition during the construction period, and iii) remain in place for the duration of the construction works.

The Principal Certifier must ensure that:

- c) The arboricultural works listed in a) and b) are undertaken as complaint to AS4970-2009 Protection of trees on development sites.

Reason: Tree and vegetation protection.

19. Pre-clearance Survey

Before any vegetation/materials/debris stockpiles are removed, a pre-clearance survey for Long-nosed Bandicoot activity and presence is required. Clearing should ideally be carried out at dusk and completed within one day so that Long-nosed Bandicoots do not reoccupy partially cleared areas overnight.

A record of each inspection is to be made in the daily inspection register log-book. The logbook is to be made available to Principal Certifying Authority.

Written evidence of compliance (including records of inspections and any wildlife incidents) is to be provided to the Principal Certifier prior to any Occupation Certificate.

Reason: To protect native wildlife.

20. Wildlife Protection

If construction activity associated with this development results in injury or displacement of a native mammal, bird, reptile or amphibian, a licensed wildlife rescue and rehabilitation organisation must be contacted for advice.

If an uninjured Long-nosed Bandicoot enters the worksite or is found during a survey of holes/stockpiles, works must cease until the Bandicoot has safely vacated the worksite. Any injured or dead Long-nosed Bandicoots found within the worksite must be reported to the National Parks & Wildlife Service (NPWS).

For assistance to relocate a Bandicoot from the worksite, or to report a dead or injured Bandicoot, please contact:

- National Parks & Wildlife Service – Duty Officer (9457 9577)

Reason: To protect native wildlife.

21. Road Reserve

The applicant shall ensure the public footways and roadways adjacent to the site are maintained in a safe condition at all times during the course of the work.

Reason: Public safety.

22. Survey Certificate

A survey certificate prepared by a Registered Surveyor is to be provided demonstrating all perimeter walls columns and or other structural elements, floor levels and the finished roof/ridge height are in accordance with the approved plans.

Details demonstrating compliance are to be submitted to the Principal Certifier when the external structure of the building is complete.

Reason: To demonstrate the proposal complies with the approved plans.

23. Protection of heritage listed stone kerbs

The heritage listed sandstone kerbs are to be protected at all times during demolition and construction works on site.

Reason: To maintain the current contribution of the heritage listed sandstone kerbs to the

visual character of the area and the streetscape.

24. Protection of heritage listed street trees

The heritage listed mature trees located in the road reserve in front of the property are to be protected at all times during demolition and construction works.

Reason: To protect the heritage listed trees from damage, during demolition and construction works.

25. Waste Management During Development

The reuse, recycling or disposal of waste during works must be done generally in accordance with the Waste Management Plan for this development.

Details demonstrating compliance must be submitted to the Principal Certifier.

Reason: To ensure demolition and construction waste is recycled or reused and to limit landfill.

BEFORE ISSUE OF THE OCCUPATION CERTIFICATE

26. No Weeds Imported On To The Site

No Priority or environmental weeds (as specified in the Northern Beaches Local Weed Management Plan) are to be imported on to the site prior to or during construction works.

Details demonstrating compliance are to be submitted to the Principal Certifier prior to issue of any Occupation Certificate.

Reason: To reduce the risk of site works contributing to spread of Priority and environmental weeds.

27. Positive Covenant and Restriction as to User for On-site Stormwater Disposal Structures

The Applicant shall lodge the Legal Documents Authorisation Application with Council. The application shall include the original completed request forms (NSW Land Registry standard forms 13PC and/or 13RPA) and a copy of the Works-as-Executed plan (details overdrawn on a copy of the approved drainage plan), and Civil Engineers' certification.

The Applicant shall create on the Title a positive covenant in respect to the ongoing maintenance and restriction as to user over the on-site stormwater disposal structures within this development consent. The terms of the positive covenant and restriction as to user are to be prepared to Council's standard requirements at the applicant's expense and endorsed by Northern Beaches Council's delegate prior to lodgment with the NSW Land Registry Services. Northern Beaches Council shall be nominated as the party to release, vary or modify such covenant. A copy of the certificate of title demonstrating the creation of the positive covenant and restriction as to user is to be submitted.

Details demonstrating compliance are to be submitted to the Principal Certifier prior to the issue of an Occupation Certificate.

Reason: To ensure the on-site stormwater disposal system is maintained to an appropriate operational standard.

ON-GOING CONDITIONS THAT MUST BE COMPLIED WITH AT ALL TIMES

28. Control of Domestic Dogs/Cats

Domestic dogs and cats are to be kept from entering wildlife habitat areas at all times.

Dogs and cats are to be kept in an enclosed area and/or inside the dwelling, or on a leash such that they cannot enter areas of wildlife habitat, bushland or foreshore unrestrained, on the site or on surrounding properties or reserves.

Reason: To protect native wildlife and habitat.

In signing this report, I declare that I do not have a Conflict of Interest.

Signed

Michael French, Planner

The application is determined on 02/07/2024, under the delegated authority of:

Rodney Piggott, Manager Development Assessments
